REPORT

ON THE

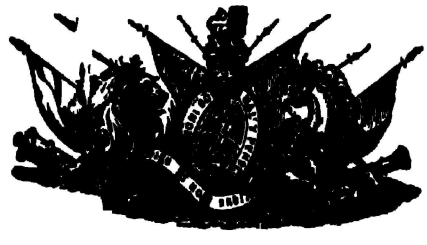
ADMINISTRATION

OF THE

HYDERABAD ASSIGNED DISTRICTS,

FOR

THE YEAR 1884-85.



Hyderabad:
PRINTED AT THE RESIDENCY GOVERNMENT PRESS—1885.

ABLE OF CONTENTS.

ZEKABAD ASSIGNED DISTRICTS.

PART I.

	Pages
General Summary	i to vii

PART II.

CHAPTER I.—PHYSICAL AND POLITICAL GEOGRAPHY.

	Para.	Page.
Sections I. to VI.	1	1
Do. VII.—Changes in the Administration	2	1
Do. VIII.—Relations with Tributary States and Frontier Affairs	3	1

CHAPTER II.—ADMINISTRATION OF THE LAND.

Section I.—Survey and Settlement	4	2
Do., II.—Waste Lands	5	3
Do. III. and IV.—Wards and Government Estates	6	3

CHAPTER III.—PROTECTION.

Section I.—Course of Legislation :—		
Acts introduced	7	4
Acts repealed	8	
Rules having the force of law	9	
Section II.—Police :—		
Strength and constitution	10	5
Relief to Municipalities of Police charges ...	11	
Composition of the force	12	
Proportion of Police to population and area ...	13	
Armament	14	
Discipline and conduct	15	
Service of the force	16	
Education	17	6
Cognizable crime	18	
Serious offences	19	
Murders	20	
Dakaitis	21	
Robberies	22	
Burglaries and thefts	23	
Working of Police	24	
Non-cognizable crime	25	7
Railway Police	26	
Village Officers	27	

SECTION III.—CRIMINAL JUSTICE:—

Tribunals... ...
Amount of crime ...
Distribution of work ...
Special jurisdiction of Deputy Commrs.
Summary trials ...
Jurisdiction over European British subjects
Fines ... ...
Witnesses ... ...
Proportion of offenders and witnesses to popula
Duration of trials ... ...
Sessions Court ... ...
Appeals ... ...

SECTION IV.—PRISONS:—

Jail population	40	10
Religion of convicts	41	11
Ages of convicts	42	
Previous occupation	43	
Nature and length of sentence	44	
Previous convictions	45	12
Escapes	46	
Jail discipline	47	
Jail schools	48	
Prison officers	49	
Employment of prisoners...	50	
Prison manufactures	51	13
Health of prisoners	52	
Expenditure	53	
Conclusion	54	14

SECTION V.—CIVIL JUSTICE:—

Tribunals	55	14
Number of suits instituted	56	
Classification of suits	57	
Value of suits	58	
Disposal of suits	59	15
Agency for the disposal of suits	60	
Durations...	61	16
Witnesses	62	
Execution of decrees	63	
Civil debtors	64	
Processes	65	
Appellate business	66	
Appeals to the Resident	67	17

SECTION VI.—REGISTRATION:—

Constitution	68	17
Number of offices and agency	69	
Number of documents registered	70	18
Disposal of registration work	71	
Refusals to register and appeals	72	
Documents impounded	73	
Classification of deeds	74	
Value of property registered	75	19
Financial results	76	

SECTION VII.—MUNICIPALITIES:—

Number and constitution	77	19
Population, income and expenditure	78	
Details of receipts	79	20
Balances	80	
Details of expenditure	81	
Breaches of Municipal rules	82	

SECTION VIII.—MILITARY 83 21

	Para.	Page.
DUCTION AND DISTRIBUTION.		
province	84	22
area	85	
er principal crops ...	86	
der irrigation ...	87	23
S AND CROPS :—		
fall and state of crops	88	23
ocusts	89	
Prices of produce and labour	90	
Experimental out-turn of crops	91	24
Experimental farms	92	
Ensilage...	93	
Agricultural stock	94	
Horse breeding	95	25
Land Improvement Act	96	
SECTION III.—HORTICULTURE	97	25
Do. IV.—FORESTS :—		
Area of forests	98	25
Re-classification of district forests	99	
Boundaries	100	
Prosecutions	101	26
Fire protection	102	
Grazing	103	
Tanks	104	
Natural reproduction	105	27
Roads and buildings	106	
Yield and working	107	
Financial results	108	
SECTION V.—MINES AND QUARRIES	109	28
Do. VI.—MANUFACTURES...	110	28
Do. VII.—TRADE :—		
System of registration	111	28
Cost of registration	112	
Total trade	113	
Railway traffic	114	29
Road traffic	115	
Fairs	116	30
SECTION VIII.—PUBLIC WORKS :—		
Total Public Works expenditure	117	31
Imperial Military outlay	118	
Original works	119	
Works in progress	120	
Repairs	121	32
Establishment	122	
General remarks	123	
Imperial Civil Buildings, Roads and Services ...	124	33
PROVINCIAL PUBLIC WORKS—		
Budget grants and expenditure	125	36
Lapses	126	37
Causes of lapses	127	39
Military buildings	128	
Civil do.	129	40
Communications	130	42
Miscellaneous public improvements	131	44
Akola-Hingoli Railway Survey	132	45
Tools and plant	133	
One per cent. cess fund	134	

Road fund		
Establishment ...		
Local Funds ...		
Section IX.—Railways :—		
H. H. the Nizam's State Railway ...		
Lines under survey or projected ...		
Singareni coal fields		
Fuel		
Lines open for traffic		
Accidents		
Persons employed		
Railway schools		
Do. Police		
Medical		
Railway Provident Fund...	149	49
Do. Fine Fund	150	
Stores	151	50
Capital transactions	152	
Revenue do.	153	51
Traffic and working	154	52
Goods traffic	155	
Working expenses	156	
Engineering Department...	157	
Locomotive expenses	158	53
Carriage and wagon expenses	159	
Traffic Department	160	
Rates and fares		
Berar Railways—		
Khamgaon Railway	161	53
Amraoti Railway	162	54
Section X.—Irrigation	163	54

CHAPTER V.—REVENUE AND FINANCE.

Decentralization system	164	55
Total receipts and expenditure	165	
Balance at Resident's credit	166	56
Provincial Revenue and Finance—		
Dates of payment of revenue instalments... ...	167	56
Amalgamation of certain cesses with land revenue ...	168	
Land revenue demand	169	
Balances of previous years	170	
Coercive processes	171	
Opium revenue	172	57
Excise do.	173	
Offences against excise laws	174	
Stamp revenue	175	58
Revenue under Provincial rates	176	
Registration receipts	177	59
Law and Justice receipts	178	
Police do.	179	
Educational do.	180	60
Medical do.	181	
Scientific and other minor departmental receipts ...	182	
Interest receipts	183	
Receipts in aid of superannuation	184	
Stationery receipts	185	
Miscellaneous do.	186	
Railway do.	187	61
Public Works do.	188	
Military do.	189	
Contributions from Local to Provincial	190	
Do. Provincial to Local	191	
Expenditure	192	

	Para.	Page.
Revenue and Finance other than Provincial:—		
Excluded Local Funds	193	63
Supply bill operations	194	
Remittance account with Government of India ...	195	64
Berar surplus	196	

CHAPTER VI.—VITAL STATISTICS AND MEDICAL RELIEF.

Section I.—Births and Deaths:—		
System of registration	197	65
Births	198	
Still-births	199	
Deaths	200	
Causes of deaths	201	
Section II.—Immigration and Emigration	202	66
Do. III.—Medical Relief:—		
Number of hospitals and dispensaries	203	66
Staff	204	
Number of patients treated	205	
Chief diseases treated	206	
Surgical operations	207	67
Caste and sex	208	
Finance	209	
Section IV.—Sanitation	210	67
Do. V.—Vaccination:—		
Strength	211	68
Work done	212	
Work done by special establishment	213	
Dispensary vaccination	214	69
Cost	215	

CHAPTER VII.—INSTRUCTION.

Section I.—Education:—		
Number of schools and scholars	216	70
Schools in each district	217	71
University education	218	
Secondary schools	219	
High schools—Matriculation examination... ...	220	72
Middle or Anglo-vernacular schools	221	
Primary schools	222	
Aided schools	223	
Indigenous schools	224	73
Female education	225	
Training College	226	
Castes of students	227	74
European and Eurasian education	228	
Mahomedan schools and education	229	
Physical education	230	
Bonuses to teachers	231	
Boarding establishments...	232	
School buildings	233	
Popular contributions	234	
School fees	235	75
Expenditure of the department	236	
Section II.—Literature and the Press:—		
Vernacular literature	237	76
Press	238	
Text-book Committee	239	
Book depôt	240	
Public libraries	241	
Literary societies	242	

	Pars.	Page.
SECTION III.—ARTS AND SCIENCES	243	76

CHAPTER VIII.—ARCHÆOLOGY.

Lists of ancient monuments under preparation ...	244	77

CHAPTER IX.—MISCELLANEOUS.

SECTION I.—ECCLESIASTICAL	245	77
DO. II.—STATIONERY	246	77

PART I.

GENERAL SUMMARY.

Personnel.

MR. CORDRY held the office of Resident during nine months of the year, Sir Oliver St. John officiating for him for the remaining three months. Mr. W. J. Cuningham held the office of First Assistant Resident and Secretary for Berar during the whole year, with the exception of nine days.

The office of Commissioner, Hyderabad Assigned Districts, was unfortunately exposed to several changes, as the post was held by four different officers, Mr. Ridsdale, Mr. Henvey, Colonel Bell, and Mr. Saunders.

The administration of the Stamp Department was transferred, from the Commissioner, to the Inspector General of Police, Jails and Registration, who has been granted a personal allowance of Rs. 100 per mensem, on this account.

Survey.

2. The only survey work now carried on, is the Forest Survey in South Berar, and in the Melghat Taluk.

In the former, a detailed topographical survey of 77·12 square miles, on the four-inch scale, and in the latter, of 298·61 square miles, was completed. In the Melghat District, two scales have been adopted, the four-inch scale for black soil villages, while the forest reserves and red soil tracts were surveyed on the two-inch scale. The work appears to be excellent.

Waste lands.

3. There were 532 villages out on lease during the year, as against 529 villages in the previous year, the revenue having risen from Rs. 62,722 in 1883-84 to Rs. 67,813.

Acts introduced and repealed.

4. Six Acts of the Imperial Legislature were extended to the province, while ten Acts, hitherto in force, were repealed.

In addition, rules under the Indian Factories Act, rules for the admission of pleaders and authorized agents in revenue cases, and rules for the levy of process fees by Revenue officers, were made applicable to the province, with the sanction of the Government of India; while, under the authority of the Resident, rules, under Section 27 of the Court Fees Act, and for the management of District Forests, were brought into force. In three municipalities, certain bye-laws under the Municipal Act, were sanctioned by the Resident.

Police.

5. There has been a temporary increase, of ten officers and fifty men, to the strength of the police force, for the purpose of protecting the Melghat border from the incursions of Tantia Bhil and his followers. With the above exception there was no alterations in the composition of the Force. The municipalities were relieved of police charges, and thus, nearly Rs. 10,900 have been added to the charges on the general revenues of the province.

The work to be done was not heavy; out of the total number of cognizable cases reported, after allowing for "cases struck off" and for "petty nuisances," there remained 5,782 cases to be dealt with. This only gives 2·6 cases to each constable.

Crime.

6. Crime was somewhat heavier than last year, and this is attributed to the high prices prevailing for jowari. Analysing the figures, the increase appears to have occurred principally, in "serious offences," and "minor offences against the person and property." There has been a startling increase in murder cases, which have more than doubled; while dakaities, robberies, burglaries, and ordinary thefts, also show a considerable increase. Thus, notwithstanding the fact that the percentages, of convictions obtained in cases investigated, of persons convicted to persons arrested and summoned, and of "stolen property recovered," all show a fair advance, yet this is the natural result of a higher average of crime. On the other hand, the increase of "serious crime" points to the fact, that greater vigilance and activity is

required on the part of the police, while their detective ability is evidently not held in high consideration, by the criminal classes of the province.

The village officers, as a rule, have actively assisted the police; but it has been found in one or two instances, that aspirants for patelships encourage crime, in order to disgrace the present incumbents.

Criminal justice.

7. Six additional courts for the disposal of criminal work, were established during the year, *viz.*, the courts of three 1st class and three 3rd class magistrates.

There was an increase of 2,007 reported cases. The cases, however, dismissed under Section 203 of the Criminal Procedure Code fell from 2,462 to 1,612.

Of the total number of reported cases 11,689 were brought to trial, involving 21,076 persons. The percentage of conviction was only 43·49.

The bulk of the work was, as usual, thrown on the Tahsildars and the and the Special Magistrates together, disposed of over 81 per cent. of the whole of the criminal business. Of the convicted persons 7,584 were fined, 84 per cent. of them in Rs. 10 and under, and 1,684 persons were imprisoned, 79·5 per cent. of them in periods not exceeding six months.

In the courts of sessions 69 persons were disposed of on the original side, as against 21 in 1883. Of these, 32 were convicted, and 37 acquitted. There were six capital sentences. The cases in the sessions courts were disposed of much more quickly than in the previous year.

Of the 38,648 witnesses examined by the criminal courts 78·5 per cent. were only detained one day, while 642 were detained from three days to one month, the Buldana District showing the worst results in this respect.

On the whole, however, there has been a slight improvement in the speedy disposal of cases by the various courts.

Prisons.

8. Increase in crime has been naturally followed by an increase in the jail population. The number was 3,831, or 230 more than in the previous year, but the daily average strength was 28·78 per cent. less.

Of the prisoners admitted only 8·9 per cent. were sentenced to solitary confinement as part of their sentence.

Three prisoners succeeded in effecting their escape during the year; one was, however, afterwards recaptured. There was a considerable rise in the number of offences; this is partly due to the fact that warnings are now entered under "other punishments," whereas they previously were not shown in the returns.

The fall in the earnings of prisoners employed in manufactures appears, on the face of it, unsatisfactory; but an explanation has been given by the local authorities showing that the conclusion deducible from the mere figures is not a correct one. The health of the prisoners was good, and, on the whole, the discipline satisfactory; the total cost of guarding and maintaining the prisoners was less than in 1883, but the cost per head rose.

Civil justice.

9. There were 38 courts open for Civil work during the year, being four more than in 1883. There was a decrease of 248 in the number of suits instituted, which amounted to 22,899: 68 per cent. were suits on contracts in writing, including suits on accounts stated, while suits on unwritten obligations increased 22 per cent. Excluding the suits of which the money value cannot be fixed, the total value of the suits was Rs. 25,33,002-15-2, against 25,35,520-4-5 in 1883. In more than half, the claim did not exceed Rs. 50, while only 692 were for sums over Rs. 500. The aggregate value of the suits having diminished, there is a corresponding decrease in the average cost of each.

The number of suits decided was 23,767, of which 63·8 per cent. were uncontested; 38·8 per cent. of this class were decreed on confession. The percentage of contested cases fell from 28·4 to 26·8. The Extra Assistant Commissioners and Tahsildars did the bulk of the work, the latter having still more work than in 1883; but a proposal, for the relief of the Tahsildars from this press of busi-

ness, is under consideration. The average duration of contested cases is somewhat high, being 69·6 days.

Registration.

10. The new scheme of establishment, which comprised the substitution of Sub-Registrars on fixed salaries, for Sub-Registrars paid by commission, has worked well, and resulted in a large development of the operations of the department. The offices for registration work were increased by three, and are now sixty in number; of these, eight are engaged in inspection and compilation. The total number of registrations was the largest obtained since the formation of the department, viz., 25,049, or 3,176 more than in the previous year. There was a large increase under all heads.

The work was quickly disposed of, 91 per cent. of the documents having been registered on the 1st day. The aggregate value of the property transferred by registration, was Rs. 56,65,884 as against Rs. 49,10,207, while the average value of each document, fell from Rs. 225 to Rs. 222.

Notwithstanding the entertainment of a special salaried agency, the financial results are satisfactory. The expenditure increased by Rs. 4,608; but the revenue also showed an increase of Rs. 6,332, leaving the satisfactory surplus of Rs. 21,389.

Municipalities.

11. The number of Municipalities was increased by extending the provisions of the Municipal Act to the town of Akot.

The elective system was introduced at Amraoti, Akola, and Khamgaon during the year; but there has not yet been time to note, whether with success, or otherwise. There is little to note on this head further than that the receipts during the year increased, while the expenditure decreased. There was a large outstanding balance of Rs. 25,069 at the close of the year, which would seem to imply considerable laxity in the collections of the Town Fund.

Agriculture and crops.

12. During the year it was discovered, that the figures previously given for the total area of the province, showed 160 acres in excess of the true area, which is now found to be 10,281,783 acres. Of this 77·1 per cent. represents land assessed, and available for occupation. The area of land actually occupied, shows a steady advance, being 7,399,087 acres as compared with 7,355,136 acres in the previous year. On the other hand, owing to the heavy rainfall, which damaged the kharif crops, and prevented the land from being got ready for rabi sowings, the area under cultivation shows a decrease of 64,846 acres. The principal crops of the province are, jowari, cotton, wheat and linseed. There was an increase of 5,108 acres under rice, and 299,760 under linseed, and a falling-off in every other crop, especially in wheat, jowari and cotton. The decreased area under wheat is due to a slack export trade to England. However the trade in linseed was very brisk, and the prevailing high rates induced cultivators to substitute linseed for wheat. The acreage under cotton has not fallen so low as during the year under report, since 1881-82: the out-turn too was poor, owing to the heavy rain.

On the other hand, owing to full wells, and a copious supply of water in streams, the acreage under irrigation increased from 54,703 acres to 70,919.

Rain-fall.

13. The rainfall averaged as much as 54·7 inches, almost as much as last year, and was besides unseasonable; for the heavy downpours in July and September injured the kharif crops, while the December rains told heavily on the last pickings of cotton and the rabi crops.

Food-grain.

14. With the exception of rice, the prices of the food-grains were considerably cheaper than last year. Wheat fell from 21 to 25 seers the rupee, and jowari from 25 to 28 seers. The reasons given are, that there were larger stocks of wheat in the hands of local merchants, while the markets were stagnant, owing to dulness in the foreign export trade.

Ensilage.

15. Ensilage experiments were carried on, but without much success. The labour required is apt to deter natives from this method of storing grass, which they can already get in abundance and cheaply.

Agricultural stock.

16. Sheep and goats suffered somewhat from the inclement December weather, but otherwise the statistics of agricultural stock show a steady increase.

Taccavi.

17. Rs. 38,810 were advanced under the Land Improvement Act, the largest sum hitherto granted.

Forests.

18. The area of State reserves remained unchanged, but owing to re-classification, and the extension of cultivation, the area of district reserves fell from 527 to 436 square miles. This was, however, nearly met, by an increase in the area of unreserved forests. Tentative sanction has been accorded to the re-classification of district forests in five taluks. Breaches of forest rules have continued to decrease. It is satisfactory to note the success of the department in fire protection. They attempted to protect 1,046 square miles and failed only in 23 square miles, and this at a total expenditure of Rs. 5,059. The principal source of revenue is, as usual, from the unreserved forests; but this year the revenue of district forests increased from Rs. 13,205 to 55,596. In State forests there is a steady increase of revenue and a steady decrease of expenditure, so that although at present they show a surplus on the wrong side, there is every reason to anticipate that they will pay their way before very long.

The general results in all classes of forests shows a diminished revenue, but also a decreased expenditure, the chief reason for the fall in revenue being the diminished sales of teak and timber, for which the demand was not as great as usual.

Trade.

19. The system of registration of rail-borne traffic, was revised during the year, under the orders of Government. The statistics under this head show an increase in the quantity, but a decrease in the value, of both imports and exports. The decreased value is attributed to two causes: (1) that a deduction was made from the gross weight on account of the weight of packing; (2) that a different value scale has been adopted. The increased imports consisted chiefly of coal, jute, gunny-bags, cloths, salt and spices. There was, on the other hand, a large decrease in imports in grain, chiefly under the head of gram. Exports show a large increase in linseed, due to a brisk trade. This, and wheat, are the chief grains exported.

Attention has been paid to the registration of road-borne traffic: two more posts have been established, and from the statistics it would appear that greater accuracy in registration has been achieved.

Public works.

20. The total expenditure from all sources on public works, amounted to Rs. 23,08,782. Under Imperial works, a grant of Rs. 1,78,000 was made for military works; the actual expenditure, however, exceeded this sum by Rs. 5,959. The excess is partly due to fluctuations in suspense accounts, and partly to the fact that, several requisitions for repairs sanctioned during February and March 1884, but not paid for till April, were, by mistake, treated as final charges against the budget grants for 1883-84.

For Imperial Civil works, Rs. 29,100 were sanctioned, and Rs. 27,959 spent. The lapse was due, partly to short outlay on repairs, and partly to a portion of the budget grants having remained unallotted. The most important works from Imperial Funds were, the construction of quarters for three Field Officers of the Royal Artillery at Trimulgherry; re-roofing the colonnade round the dome of the Hyderabad Residency; and laying down a marble pavement in the portico of the same building.

From the Berar Provincial Public Works Budget, there was a grant of Rs. 11,80,600, of which Rs. 10,60,364 were spent. After excluding the grants for establishment and tools and plant, the lapse amounted to Rs. 1,17,812 or 12·45 per cent. of the grants for works only. The lapses were chiefly under the heads of Miscellaneous Public Improvements, Military, and Civil Buildings. The largest lapse was Rs. 47,538, due to the delay in the completion of arrangements with the contractor, on the water-supply distribution works, in the town of Amraoti. Undoubtedly, the Department found considerable difficulty in getting labour for the larger miscellaneous works, but this difficulty should have been overcome. But the chief disadvantage the province laboured under was the low

strength of, and the frequent changes in, the Engineer staff. Instead of the normal strength, of three Executive Engineers and six Assistants, there were only two Executive Engineers and four Assistants available. There is not much to note as regards the military works, except that the new Lines at Raichore are being proceeded with, and the Contingent Cavalry are being provided with armourer's shops. Under civil buildings the expenditure of Rs. 96,799 was distributed over many works, none of which call for any special remark.

On Communications, Rs. 1,40,567 were spent. The Daryapur-Murtazapur and Jalna-Dealgaon Raja roads, and the first section of the Khandalla-Umarkhed, and the third and fourth sections of the Yeotmal-Wun roads were completed. Besides these, a road from Morsi to the Central Provinces Frontier, which is intended to open up the country in the extreme north-east of Berar, and a road from Motala to Nandura, which, it is believed, will meet the requirements of the large wheat traffic, from the south of the Buldana District to the Great Indian Peninsula Railway station at Nandura, were being satisfactorily progressed with. Rs. 2,18,298 were spent on repairs to provincial roads, at the rate of about Rs. 294 a mile. This is a considerable decrease on the mileage rate of the previous year, which stood at Rs. 338.

The water supply works for the towns of Amraoti and Khamgaon are almost completed, and the construction of several tanks and anicuts for the storage of water for cattle grazing on the Amraoti hills and in Melghat, is in progress.

21. Satisfactory progress was made with the survey of the proposed light railway from Akola to Hingoli. Railways.

The Berar Railways were not worked at such a good profit as during the previous years.

The Khamgaon line only paid 2·66 per cent. on the capital outlay of Rs. 4,90,810, and the Amraoti Railway 7·68 per cent. on a capital outlay of Rs. 4,44,771.

The Nizam's State Railway, which, although it has no connection with the Hyderabad Assigned Districts, is reported on by the Public Works Department, is in a considerably more flourishing condition than in 1883-84.

The net earnings now represent 2·92 per cent. on the capital outlay, and this, notwithstanding heavy and exceptional expenditure on maintenance of permanent-way and rolling stock. Surveys for extension towards Warangul and Singareni and Bezwada were completed by July 1884, and the construction of the 1st section between Secunderabad and Warangul is in progress. The coaching receipts show a marked improvement over previous years. The increase under the heads of "1st and 2nd class passengers" and "special trains" was due to the heavy traffic on the occasion of the installation of His Highness the Nizam. The train service has been improved, and a saving of one hour and twenty-three minutes in the duration of the journey from Wadi to Secunderabad was effected. It is intended to increase the 3rd class rates by the mail train to prevent over-crowding. The rates for reserved accommodation have been largely reduced, and the charges for reserved 3rd class carriages and compartments are now calculated to meet the wants of those, who would on other lines travel by the intermediate class.

The goods traffic during the year was the heaviest obtained since the opening of the railway. The largest increase was in seed traffic, due to the traffic received from the north and north-eastern districts, which till lately had been taken by road to Gulburga.

The total expenditure was Rs. 6,13,143, showing a decrease of Rs. 2,445 compared with that of the previous year. There was a heavy expenditure in the Engineering Department, owing to the purchase of six miles of new steel rails and extensive renewals of teak sleepers. The expenses too on carriages and wagons were very heavy; but the stock has been greatly improved, a large sum having been expended in building new stock which should have been charged to Capital, had funds been available.

The Traffic Department has been worked well, and at a cheaper rate than on any broad gauge railway in India.

Revenue and Finance.

22. The percentage of the provincial revenues of the Hyderabad Assigned Districts, assigned to the Resident for expenditure on Civil Public Works and Railways, was reduced from 54 to 52 per cent.

The provincial revenue for the year under report amounted to Rs. 96,48,526, and the expenditure to Rs. 78,28,025, leaving a surplus of Rs. 18,20,501. In 1883-84 the figures were, revenue Rs. 86,65,129, expenditure Rs. 72,82,244, and surplus Rs. 13,82,885. It was found difficult to prevent the cesses of one year being credited in the accounts of later years; it was therefore arranged that the gross land revenue, *i. e.*, land revenue proper, *plus* cesses, should be credited to general revenues, and the sums due to the several cesses adjusted subsequently.

The total demand was Rs. 64,23,868, or Rs. 27,400 more than in 1882-83. Of the total demand Rs. 51,75,823 were collected during the year, and the balance, with the exception of Rs. 35,620, by the end of April. In addition to this, there was a large outstanding balance of Rs. 14,91,441 from previous years. Of this sum Rs. 404 were remitted, and Rs. 14,83,865 were realised. Of the balance still due, *viz.*, Rs. 1,171-14-10, Rs. 732-11-4 are irrecoverable, the remainder is being liquidated. As a natural consequence of these heavy balances, there was a large increase in the number of coercive processes issued. However, no unreasonable harshness appears to have been resorted to, and no defaulter was imprisoned. Attachment was only effected in 597 cases, and only 11 sales were carried out.

The chief heads in which an increase of revenue are to be found are Abkari, Stamps, Provincial Rates, Registration, Education, Miscellaneous, Military, and Contributions from Local to Provincial Funds and *vice versa*. On the other hand the receipts under the heads of Opium, Law and Justice, Police, Railway, and Public Works, show a considerable decrease; under Stamps the increase is chiefly due to the increased sale of general stamps. The largest item to which the decrease in Law and Justice revenue is due, is Rs. 17,936 under Jail manufactures. Among Miscellaneous receipts, there was an increase of Rs 39,568, due to gain by exchange, and also one of Rs. 29,314 under the head Miscellaneous (Local) representing contributions in the Akola District for tank work, and recoveries from Akola District, in liquidation of the loan made on account of the Khamgaon water-works. The increase in Military receipts was chiefly under "Ordnance," owing to the stores hitherto kept in Hyderabad Contingent Ordnance depots having been returned to Bombay arsenal on the abolition of the depots.

The disbursements show a net increase of Rs. 5,94,699; the only head in which a decrease of charges is shown, being "Railways." The largest increase is in the Civil charges, and of these the most considerable item is due to "allowances to district and village officials." Under the other heads, there is nothing calling for special note.

With regard to Excluded Local Funds a considerable increase in revenue was met by a still more considerable increase in expenditure, leaving a closing balance of Rs. 3,87,715, as against Rs. 4,42,372 in 1883-84.

Vital Statistics.

23. The year was remarkably healthy, and free from any epidemic of cholera; only 87 deaths were caused by this disease as compared with 27,897 in the previous year. As a natural result, there were 2,804 more births, and 70,273 less deaths registered than in 1883-84. The rate of infant mortality was high, 55·4 per cent. of the deaths having occurred in infants under one and between one and five years. This is probably attributable to the general insanitary condition of the people and the large numbers out of reach of any medical aid. The vast majority of the deaths are attributable to fevers, bowel-complaints, and "other causes." Small-pox obtained comparatively few victims.

Medical Relief.

24. The number of hospitals and dispensaries is 42, or one to every 42·7 square miles and to every 63,635 souls of the population. Thus it will be seen that

much remains to be done to meet the requirements of an adequate system of medical relief. Our system of medicine is however, undoubtedly gaining a hold over the people, for the total number of in and out-door patients treated, steadily increases; while the number of out-door patients who applied for relief, rose to 204,384, or 11,137 more than in 1883.

Sanitation.

25. Steady progress is being made in Sanitation. The municipalities spent Rs. 56,984 on conservancy, drainage, and water-supply. While, on civil stations, other towns and villages, Rs. 95,918 were expended in sanitary improvements. The Sanitary Commissioner notices that in villages where the rules laid down in Resident's Book Circular XVI. of 1880 are observed, a marked improvement is observable; but adds that these rules are in many villages a dead letter.

Vaccination.

26. The Vaccination Establishment was composed as last year. The number of primary operations rose to 100,970, and the percentage of success was 94·9 as compared with 92·7 in the previous year. The operations of the special vaccination establishments were successful. They performed as many as 92,920 primary vaccinations, or an average of 2,214 operations, to each operator, and the percentage of success was 95·3. The number of re-vaccinations is small; but the feelings of the people are against re-vaccination, and infantile vaccination is undoubtedly the first object. The total cost of the establishments increased by Rs. 414-7-1, but the average cost of each successful operation fell to three annas.

Education.

27. It is satisfactory to note that real progress was made in Education in the Berars. There were 950 schools open as against 842 in the previous year. The increase is not so large as appears at first sight; for last year "branch schools" at small villages were excluded from the report and their attendance included in that of the "main schools," while this year the distinction has been done away with. The total number of scholars increased by 3,917, and stands at 39,737. The figures now show an average of 19·3 square miles to every school, and a percentage of 18·7 scholars to the population of a school-going age. These statistics although marking a considerable advance, still point to the fact that much remains to be done, towards bringing education to the doors of the people. In Secondary schools the amount of fees collected rose from Rs. 6,707-0-11 to Rs. 9,874-1-1, thus relieving the State of a considerable cost. The Berar pupils did themselves credit at the Matriculation examination of the Bombay University, as 11 out of 15 candidates passed, while two of them did so with credit. The progress in female education is satisfactory; for the number of scholars in the Government schools has more than doubled, and nearly double the number passed in the several standards.

There was a large increase of Rs. 5,652-11-9 in the total amount of school-fees collected. This increase took place in all classes of schools; and in secondary schools is due to enhanced rates, and in primary schools to increased attendance, as well as to a greater number of scholars studying the higher standards. The financial figures do not call for any special comment, beyond noting that the total expenditure rose from Rs. 3,52,834-6-9 to Rs. 3,73,715-2-10, an increase which cannot but be considered fully warranted by the increased facilities for supplying education, and the satisfactory results of the efforts of the staff.

PART II.

HYDERABAD ASSIGNED DISTRICTS.

CHAPTER I.

PHYSICAL AND POLITICAL GEOGRAPHY.

Information regarding the six Sections specified below will be found in the Administration Report for 1882-83:—

Section I.—Physical features, &c.
" II.—Political-Historical Summary.
" III.—Form of Administration.
" IV.—Character of Land Tenures.
" V.—Civil Divisions.
" VI.—Details of last Census.

SECTION VII.

Changes in the Administration.

2. The Hyderabad Assigned Districts remained under the charge of Mr. J. G. Cordery throughout the year, excepting for three months, when he proceeded on privilege leave. Colonel Sir O. St. John, K. C. S. I., officiated during this period. The First Assistant Resident and Secretary for Berar, Mr. W. J. Cuningham, continued in office till the 21st March 1885, when his services were transferred for employment elsewhere. From the 22nd March to the close of the year the office was held by Captain J. H. Newill in addition to his own duties as Second Assistant Resident and Assistant Secretary for Berar.

Mr. S. O. B. Ridsdale officiated as Commissioner of Berar from the commencement of the year until the 12th October 1884. On the latter date Mr. F. Henvey returned from furlough and held charge till the 4th February 1885, when he was compelled to proceed on ten months' leave on medical certificate. Colonel J. G. Bell, Judicial Commissioner of Berar, officiated from the 5th to 24th February in addition to his own duties. On the last mentioned date Mr. L. S. Saunders took charge as Officiating Commissioner of the Province.

Hitherto the administration of the Stamp Department had been conducted by the Commissioner of the province; but during the year under review it was transferred to the Inspector General of Police, Jails and Registration. The present incumbent, Colonel Lane, has in consideration of the additional work devolving on him, been granted a personal allowance of Rs. 100 per month.

SECTION VIII.

Relations with Tributary States and Frontier Affairs.

3. Under this head there is nothing to record.

CHAPTER II.

ADMINISTRATION OF THE LAND.

SECTION I.

Survey and Settlement.

4. As stated in the Report for 1882-83, the Revenue Survey operations ceased in 1878-79. The only survey now carried on in the province is the Forest Survey; and the following summary supplied by the Superintendent shows the amount of work done during the year :—

"Survey operations during the field seasons of 1884-85 were carried on in South Berar as well as in the Melghat taluk of the Ellichpur District.

"The survey parties took the field in November, and out-of-door work was continued until the middle of June, when the rains set in and obliged the field parties to return to recess quarters.

"In South Berar a detailed topographical survey was completed, on the scale of 4 inches = 1 mile, of the Geru Matergaon Reserve, comprising an area of 77·12 square miles. In the Melghat 727 square miles were triangulated, 168 square miles were traversed, and a detailed topographical survey of 208·61 square miles on the scales of 4 and 2 inches=1 mile, was completed in the south-eastern corner of the taluk.

* * * *

"The total area topographically surveyed in detail (excluding the areas triangulated and traversed) was 375·73 square miles, which is made up as follows :—

"South Berar on the scale of 4 in. = 1 mile			77·12	square miles.
Melghat on	do.	4 in. = 1 mile	91·18	"
Do.	do.	2 in. = 1 mile	207·43	"
			375·73	

* * *

"Two scales have been adopted for the survey of the Melghat taluk. The black soil villages are surveyed on the scale of 4 inches = 1 mile, whilst the forest reserves and red soil tracts are being surveyed on the scale of 2 inches = 1 mile. The larger scale surveying is of the nature of a cadastral survey, and embraces the measurements of all fiscal boundaries as well as the boundaries of every individual holding (field) in each village.

"A village register is also kept in which are recorded particulars regarding each holding, and which will be useful hereafter to the revenue authorities for assessment purposes.

"On the topographical maps of both the 4 and 2-inch scales levelled contours have been shown at vertical intervals of 300 feet, with 15 intermediate sketched contour lines on the 4-inch sheets, and on the 2-inch maps 10 intermediate sketched contours are shown, so that every contour line on the 4-inch maps represents a vertical distance of 20 feet, whilst contour lines on the 2-inch scale represent vertical distances of 30 feet."

Some of the maps were inspected by the Commissioner of the province and by the Resident during his late tour in Berar, and the work appears to be most excellent.

SECTION II.

Waste Lands.

5. At the close of the year there were 532 villages, embracing an area of 952,482 acres, let out on lease on a progressive rental. The revenue of these villages was Rs. 67,813, against Rs. 62,722 in 1883-84.

SECTIONS III and IV.

6. Wards' or Government Estates do not exist in the province.

CHAPTER III.

PROTECTION.

SECTION I.

Course of Legislation.

Acts introduced into the Hyderabad Assigned Districts.

7. The following Acts of the Imperial Legislature were, subject to certain modifications, made applicable to the province :—

Act XIII of 1875.—An Act to amend the law relating to probates and letters of Administration.

Act I of 1876.—The Indian Telegraph Act.

Act XV of 1881.—The Indian Factories Act.

Act III of 1882.—The Seditious Publications Act.

Act VI of 1882.—The Indian Companies Act.

Act VIII of 1882.—An Act to amend the Indian Penal Code.

Acts repealed.

8. The enactments specified below, which were hitherto in force in the Hyderabad Assigned Districts, were repealed during the year by a notification in the *Gazette of India* published by the Supreme Government :—

Act XIV. of 1843 }
" XXXVI. of 1865 }
" XIX. of 1862 } Relating to Salt.
" VII. of 1864 }
" X. of 1874 }

" XXIV. of 1867—The Administrator-General's Act.
" XIX. of 1869—Relating to the Administration of Estates.

" XXI. of 1869 } European Vagrancy.
" XXVIII. of 1871 }

" XXI. of 1872—Native Military Lunatics.

Rules having the force of law.

9. With the sanction of the Government of India the following rules were made applicable to the Hyderabad Assigned Districts :—

I.—Rules under the Indian Factories Act for the better control of the factories in the province.

II.—Rules for the admission of pleaders and authorized agents in revenue cases.

III.—Rules for the levy of process fees by Revenue Officers.

The following rules were issued under the authority of the Resident :—

IV.—Rules under Section 27 of the Court Fees Act regulating the use of adhesive and impressed stamps.

V.—Rules for the management of district forests under a classification newly sanctioned by the Resident.

Under the Municipal Act the municipalities specified below submitted certain bye-laws which were duly approved and sanctioned by the Resident :—

Amraoti and Akot.

VI.—Bye-laws for licensing private latrines.

Akot.

VII.—Bye-laws for regulating cotton market.

Khamgaon.

VIII.—Bye-laws for regulating the grain market.

SECTION II.

Police.

Strength and constitution.

10. The strength of the permanent force underwent no change during the year. A temporary increase consisting of 10 officers and 50 men was sanctioned for the purpose of protecting that portion of the Melghat bordering on the Central Provinces from the incursions of the notorious dakait Tantia Bhil and his gang. Including this temporary increase, the strength of the force stood at 2,704 men as shown below :—

Inspector-General	... ...	1
District and Assistant Superintendents	...	8
Subordinate officers on Rs. 100 and upwards	...	18
Do. on less than 100 rupees	...	485
Constables { Mounted	...	40
Constables { Foot	...	2,152

Relief to municipalities of police charges.

11. During the year under report, all Municipalities were, under the orders of the Government of India, relieved from contributing towards the cost of the police maintained within their limits. The financial effect of this concession was an additional charge on the general revenues of the province of nearly Rs. 10,900 per annum.

Composition of the force.

12. Omitting 21 vacancies which existed at the end of the year, the force was composed of :—

	Officers.	Men.
Christians	18	7
Mahomedans	154	927
Brahmins	154	541
Rajputs	39	205
Sikhs	15	15
Hindus of all other castes	129	679

Proportion of police to population and area.

13. The proportion of police of all grades, excluding the temporary force, to the population of the province was the same as in 1883, *viz.*, one policeman to 994 persons, and the strength of the force bears also the same proportion to area as in the previous year, *viz.*, 1 to every 6·06 square miles.

Armament.

14. Excluding the Inspector-General and the District and Assistant Superintendents of Police, the armament of the force was as follows :—

Men armed { With fire-arms	...	1,366
Men armed { With swords only, or swords and batons	...	473
Men armed { With batons only ...	...	856

During the year under review, Inspectors of Police were provided with revolvers; but these were found to be unserviceable, and were returned into store.

Discipline and conduct.

15. There was a satisfactory decrease in both departmental and judicial punishments, the former having fallen from 318 in 1883 to 288 in 1884, and the latter from 46 to 34. These figures speak favourably of the general conduct of the Police during the year under report. The number of men who left the force shows a decrease from 230 in the previous to 216 in the present year. The causes are given below :—

On pension	25
„ gratuity	10
By resignation	93
„ dismissal	49
„ death	23
Otherwise	16

The number of policemen rewarded by promotion was 33, against 18 in the previous year, and by money grants 48 against 33.

Service of the force.

16. In the year under notice there were 271 new enlistments. 1,284 men had service ranging from one to ten years, and 1,119 from ten years and upwards.

Education.

17. 70·1 per cent. of officers and 26·1 per cent. of men could read and write.

Cognizable crime.

18. 9,227 cognizable offences were reported during the year. Of this number 664 were false either intentionally or (in a majority of instances,) owing to mistakes of law or fact, and were removed from the register. The true cases, therefore, numbered 8,563, against 7,870 in 1883. Analysing the figures of the year, offences against the State, public tranquillity, safety and justice show a falling off from 215 to 145; but serious offences against the person and property and minor offences against person and property rose from 1,556 to 1,708, and from 3441 to 3,735 respectively. Other offences against the excise, municipal, opium, forest, railway, gambling and other laws also increased from 2,678 to 2,975. Excluding those cases which come under the head of "Petty nuisances" the number which actually come under the head of crime was 5,782, or 435 more than in 1883. This increase is attributed to the rise in the price of *juwari*, the staple food-grain of the province.

Serious offences.

19. The more serious offences as compared with 1882 and 1883 are given below:—

	1882.	1883.	1884.
Murders ...	27	18	45
Dakaitis ...	5	16	28
Robberies ...	36	33	40
Burglaries ...	1,098	1,045	1,143
Thefts ... Cattle ...	253	223	296
Thefts ... Ordinary ...	2,551	2,267	2,493

Murders.

20. "As regards murders," the Inspector General of Police writes, "the figures of the past year are quite abnormal; the police are not to blame for the increase of this crime. Murders are in the great majority of cases due to unforeseen impulses, but as regards the increase in dakaitis, especially in the Amraoti District, the police cannot be acquitted of blame." The Resident in reviewing the Police Report recorded his inability to subscribe to the opinion of Colonel Lane, as the rise and fall in this species of crime is quite independent of police working. Children are not murdered for the sake of ornaments if the culprits feel that there is a strong chance of their being brought to justice; and the growth of this feeling depends upon the success or failure of the police in their detective work.

Dakaitis.

21. Dakaitis rose from 16 to 23. Including five cases which remained pending at the end of 1883, there were 28 in all for investigation. In seven cases convictions were obtained, while nine cases resulted in acquittal or discharge; in ten cases no arrests were made, and two cases were pending at the close of the year. Of persons 96 were arrested, of whom 25 were convicted, and 40 discharged or acquitted, leaving 31 either under trial or in police custody at the end of the year.

Robberies.

22. Against 33 in 1883 there were 40 robberies in 1884. In these 40 cases there were 79 persons implicated, of whom 32 were convicted and 28 acquitted, leaving 19 under trial.

Burglaries and thefts.

23. The figures under these heads also show an increase over the previous year. The attention of the head of the police has been drawn to the necessity of greater vigilance being exercised in future in order to prevent crime reaching the proportion to which it has arrived in the year under report, and to liberal rewards being freely given for successful detection.

Working of Police.

24. In respect to the working of the police, the figures show that in all 6,771 cases were investigated by them, against 6,389 in 1883. Convictions were obtained in 64·9 per cent. of the number of cases, as compared with 61 per cent. in the previous year. There were 8,485 persons, or 255 more than in the previous year, either arrested or summoned, of whom 63·9 per cent. were convicted, against 63·6 per cent. in 1883. The estimated value of property stolen during the year was Rs. 2,05,075, of which property to the value of Rs. 52,870 was recovered, giving a percentage of 25·7, against 21·1 in 1883.

25. The total number of non-cognizable offences was 6,247, in 65 of which the police were employed to make enquiry: processes were issued in 6,184 cases to 13,358 persons, of whom (including 69 who were pending trial at the end of 1883) 28·3 per cent. were convicted. Non-cognizable crime.

26. The working of the Railway Police was not altogether satisfactory. There were 45 cases during the year, against 64 in 1883. Convictions ensued in 23 cases. The number of persons arrested was 46, of whom 28 were convicted. The value of the property stolen amounted to Rs. 1,576-7-3. The total amount recovered was Rs. 1,664-9-3, of which, however, Rs. 1,385 belonged to a case of the previous year. Railway Police.

27. With regard to the assistance afforded by the village officials, the Inspector General of Police writes thus:— Village officers.

"The reports of District Superintendents show that when aid is received from these officials it is freely acknowledged. Rewards have been distributed, when occasion offered, both to them and to the members of the public who have given assistance. In more than one case it has been found that rival claimants to patelships take the course of encouraging and assisting in crime in order to bring disgrace on present incumbents. * * The large body of patels (village officers) is undoubtedly on the side of order, and they are willing, when properly treated, to actively assist the police."

SECTION III.

Criminal Justice.

28. The number of Courts increased during the year by six. There were 75 Courts for the disposal of criminal work, against 69 in the preceding year, *viz.*:— Tribunals.

	1	Resident's Court (High Court).
	1	Judicial Commissioner's Court (Sessions Court.)
	6	Deputy Commissioners exercising powers under Section 30 of the Code of Criminal Procedure.
	19	First Class Magistrates.
	22	Second Class Magistrates.
	5	Third Class Magistrates.
	21	Special Magistrates.
Total	75	

29. The following table contains statistics of offences reported and admitted to have occurred, and the percentage of true to reported cases:— Amount of crime.

Year.	Reported cases.	Cases dismissed under Section 203 of Criminal Procedure Code.	Cases struck off as false.	True cases.	Percentage of true to reported cases.
1884	16,800	1,612	698	14,490	86·2
1883	14,793	2,462	807	13,986	94·5

Imperial Judicial Statement II. gives in detail the number of offences reported, and of persons tried, convicted, and acquitted of each offence during the year.

The following is an abstract comparing the offences in each class with the preceding year:—

	1884.	1883.	Increase.	Decrease.
Offences against the State	...	1	...	1
Do. relating to the Army and Navy ...	...	...	...	...
Do. against the public tranquillity ...	167	248	...	81
Do. by or relating to public servants ...	19	18	1	...
Contempts of the lawful authority of public servants	250	226	24	...
False evidence and offences against public justice ...	63	63	...	...
Offences relating to coin and Government stamps ...	24	15	9	...
Do. do. weights and measures ...	27	50	...	23
Do. affecting the public health, safety, convenience, decency and morals ...	152	346	...	194
Do. relating to religion	13	18	...	5
Total ...	715	985	34	304
			Net decrease 270	
Offences affecting human body	4,630	4,479	151	
Offences against public property	5,073	4,698	375	...
Offences not included in the above	266	303	...	37
Offences under special and local laws	3,806	3,521	285	...
Grand Total ...	14,490	13,986	845	341
			Net decrease 504	

There was a marked decrease in offences against the public tranquillity, offences relating to weights and measures, and those affecting the public health, safety, convenience, decency and morals, the falling off in each being respectively 32·6, 46, and 56 per cent. On the other hand offences affecting human body, against property, and those under special and local laws increased, the first 3·3, and the last two 8 per cent.

The number of serious offences against person and property rose considerably. There were as many as 47 cases of murder, including the two cases of murder by dakaits; 2,719 cases of theft, against 2,490 in 1883, and 69 of robbery and dakaiti, against 48 in the previous year.

The number of persons before the courts during the year was 21,400, including 132 persons under trial at the end of 1883. Of these the cases of 21,318 were disposed of thus:—

Discharged or acquitted	11,641
Convicted	9,119
Committed and referred	204
Died, &c.	354

Distribution of work.

30. The following table gives a general view of the distribution of criminal business among different classes of magistrates during the last three years:—

	1884.	1883.	1882.
Deputy Commissioners ...	364	443	381
Assistant Commissioners and Attachés	1,373	1,233	1,456
Assistant Conservator of Forests ...	3	...	...
Extra Assistant Commissioners ...	475	546	583
Tahsildars	5,137	4,802	4,692
Special Magistrates ...	4,510	4,668	4,190

The Tahsildars, as usual, had the largest share of the criminal work in the province, the cases disposed of by them being 43·3 per cent. of the whole.

31. Ninety cases, involving 193 persons, were disposed of by the Deputy Commissioners in the exercise of their enhanced powers under Section 30 of the Code of Criminal Procedure, against 118 cases and 210 persons in 1883. Of these 94, or 48·7 per cent., were acquitted or discharged, and 99, or 51·3 per cent., were convicted. Special jurisdiction of Deputy Commissioners.

32. Of the 780 persons tried summarily 165 were acquitted or discharged, and 615 convicted. Considering the large number of petty offences and the number of officers invested with summary powers, the cases disposed of were very small. Summary trials.

33. Four European British subjects were tried during the year by the District Magistrates of Ellichpur and Akola. Of these three were convicted, and one was acquitted. Jurisdiction over European British subjects.

The following statement shows the sentences passed by the different classes of Courts during the past two years:—

Class of Tribunals.	Year.	Total number of persons punished.	Persons sentenced to Death.	Transportation.	Imprisonment. Rigorous.	Simple.	Fine.	Whipping.	Persons released on their own bond, or on bond with bail, or on bond for good behaviour.	Persons imprisoned in default of security for good behaviour.
Subordinate Magistrates	1883	9,515	...	...	1,294	187	7,770	222	69	33
	1884	9,266	...	...	1,262	156	7,467	391	55	25
District and Divisional Magistrates' cases referred under Section 349, Criminal Procedure Code.	1883	92	...	...	59	3	17	13	...	...
	1884	95	...	...	68	4	11	12	...	...
Chief Magistrates of Districts.	1883	*412	...	...	165	13	181	15	25	13
	1884	289	...	...	169	2	105	11	1	1
Court of Session ...	1883	41	2	5	34	...	...	...	...	...
	1884	49	6	18	23	...	1	...	1	...
Total ...	1883	10,060	2	5	1,492	203	7,968	250	94	46
	1884	9,699	6	18	1,522	162	7,584	324	57	26

* There was also one case of penal servitude.

The proportions in which punishments were inflicted are as follows:—

	1883.	1884.
Death ...	0	0·1
Transportation ...	0·1	0·2
Imprisonment ...	17·4	17·7
Fine ...	80·7	79·6
Whipping ...	2·5	3·4

34. The total amount of fines imposed and realized and of compensation awarded during the last two years, is shown below:— Fines.

	Fine imposed.	Realized.	Relinquished.	Compensation awarded.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1883 ...	63,037 14 0	59,165 12 7	16,055 0 0	6,695 10 2
1884 ...	54,732 10 0	49,960 9 8	14,011 9 0	7,625 6 2

35. The total number of witnesses who attended the criminal courts during the year was 38,648, as compared with 39,513 in 1883. Of these 78·5 per cent. were detained for one day; 16·6 per cent. for two days; 3·3 per cent. for three days, and 1·6 per cent. for more than three days. Witnesses.

36. The proportion of persons tried for offences to the total population of the province was 1 in 125, as against 1 in 128 in the preceding year, and that of witnesses was 1 in 69, against 1 in 67 in 1883. Proportion of offenders and witnesses to population.

37. The average duration of cases disposed of by Magistrates of all denominations was 6·1, against 7·5 in 1883, showing a slight improvement. Duration of trials.

Sessions court.

38. The total number of persons committed to the Sessions Court during the year was 80, inclusive of the 8 persons awaiting their trial at the end of the last year, against 27 in 1883. Of these 80 persons, 37 were acquitted, 32 were convicted, and 11 remained pending at the close of the year.

Of those convicted six persons were sentenced to be hanged; 18 to transportation for life, of whom one was acquitted on appeal, and in one the sentence was remitted by the Local Government on the recommendation of the Sessions Judge. The remaining were punished with imprisonment, &c.

The average duration of Sessions trials, reckoned from the date of commencement to date of final order, was 31·6 days, being less than in the previous year by 28 days.

The total number of appeals preferred to Deputy Commissioners during the year was 252, including cases pending from 1883, and to the Judicial Commissioner 147. These were disposed of thus:—

	Appeals rejected.	Sentence confirmed.	Sentences reduced, &c.	Reversed.	Proceedings quashed.	Total.
By Deputy Commissioners ...	40	89	40	76	1	246
" Judicial Commissioner ...	93	19	13	11	...	136

The average duration of appeals in the Deputy Commissioners' Courts was almost the same as in the previous year, and that in the Court of the Judicial Commissioner was 14·5 days.

Appeals.

39. The total number of appeals preferred to the Resident's Court was 27, including two appeals pending from 1883, and the number of applications made to it as a Court of Revision was 25. These were disposed of as follows:—

	Appeals.	Applications for revision.
Rejected	10	12
Sentences confirmed	6	...
Do. reduced	2	3
Do. reversed	2	2
Dismissed	5	3
	25	20
Pending ...	2	5
Total ...	27	25

SECTION IV.

Prisons.

Jail population.

40. The increase in the crime returns has been followed by an increase in the jail population, which, including all classes of prisoners, amounted to 3,831, against 3,001 in 1883. Of the former number 2,816 were new admissions as compared with 2,407 in the previous year. Leaving those discharged during the year, *viz.*, 2813, the number remaining at the end of the year was 1,018, against 1,015 in 1883. But the daily average strength was 1032·40 or 28·78 less than the previous year. Taking convicts separately, the figures show an increase from 1,595 to 1,603 in the number of new admissions, while the daily average was 997, or 37 less than in 1883. Adding the convicts who were in the jails at the commencement

of the year, the convict population consisted of 2754, who were disposed of in the following manner :—

	Males.	Females.
Transferred to other jails ...	133 ...	8
Released on appeal ...	48 ...	3
" on expiry of sentence ...	1412 ...	123
" under remission rules ...	14 ...	1
" on other grounds ...	5 ...	0
Escaped	2 ...	0
Executed	5 ...	1
Died	11* ...	0
Remaining at the end of the year ...	931 ...	37

* Two of these were suicides.

Religion of convicts.

41. Of the 1,603 convicts admitted during the year, 1,488 were males and 115 females. 84·4 per cent of the prisoners were Hindus, 18 per cent. Mahomedans, ·3 per cent Native Christians, and ·3 per cent Buddhists and Jains. Compared with the percentages of 1883, there is a falling-off of 2·3 per cent. under Hindus, and an increase from 15·8 to 18 per cent. under Mahomedans.

Ages of convicts.

42. Taking the ages of the prisoners, 87 per cent. were between 16 and 40 years, 10·23 per cent. 40 to 60 years, 1·3 per cent. above 60 years, and 23 or 1·43 per cent. juveniles under 16 years of age. These percentages do not call for any remark beyond noting the fact that the number of juveniles admitted has fallen from 32 in 1883 to 23 in the year under report.

Previous occupation.

43. The following table shows the occupation followed by prisoners previous to their admission into jail :—

Persons employed under Government or Municipal or other local authorities ...	52
Professional persons	21
Persons in service or performing personal offices ...	122
Do. engaged in agriculture and with animals ...	293
Do. employed in commerce and trade ...	67
Do. in mechanical arts, manufactures &c., ...	7
Miscellaneous persons not classed otherwise ...	926

Of the 115 females 74 per cent. were married, 4·3 per cent. unmarried, 14·7 per cent. widows, and 7 per cent. prostitutes.

Nature and length of sentence.

44. Of the total number of prisoners admitted during the year, 5·8 per cent. underwent simple imprisonment, 81·9 per cent. rigorous imprisonment, 8·2 per cent. were sentenced to solitary confinement as part of a sentence of rigorous imprisonment, and 3·4 per cent. were awarded corporal punishment in addition to rigorous imprisonment. With reference to these percentages, the Inspector General of Jails observes: "These figures bring out the fact that solitary confinement forms part of sentences of rigorous imprisonment in what appears to me too small a proportion of cases. Confinement in association with 60 or 100 other convicts is not disagreeable in itself. The disagreeable portion of a sentence or imprisonment to the hardened criminal is that spent in labour in a solitary cell." Details as to the length of sentence of those admitted during the year and of those who remained in jail at the close of the year are given below :—

	Admitted during 1884.	Remaining at end of 1884.
Sentenced to one month and under ...	592	30
" above one month and under 3 months	320	48
" to 3 months and under 6 months ...	298	131
" to 6 months and under 1 year ...	162	148
" to 1 year and under 2 years ...	121	182
" to 2 years and under 5 years	71	217
" to 5 years and under 10 years ...	16	173
Above 10 years	...	18
Transportation for life	17	19
" for a term	...	2
Sentenced to death	6	...

When contrasted with 1883, the above figures show that the proportion of heavy punishments is on the increase, while there is a decrease in the number of short term sentences.

Previous convictions.

45. Of the convicts admitted in the year under report 11·5 per cent. had been once previously convicted, against 8·9 per cent. in 1883; 3 per cent. twice, against 2·4; and 2·8 per cent. more than twice, against 2·1 per cent. These percentages taken together show that about one in six of the convicts admitted had been previously convicted. In connection with this subject, it may be noted that the suggestions of the Prison Conference of 1877 regarding the identification of old offenders are carried out in Berar, and it is believed that not many habitual criminals escape detection.

Escapes.

46. During the year three prisoners effected their escape; of whom one was re-captured. The total number of prisoners, who had escaped during the preceding ten years, at large at the close of the year, was six, of which one was re-captured during the year. There are now seven prisoners remaining uncaptured.

Jail discipline.

47. The total number of offences committed during the year rose from 331 in 1883 to 490. 31 per cent. of the latter related to smoking or having possession of forbidden articles; 20 per cent. related to work; 48 per cent. to other offences against prison discipline; and 1 per cent. had reference to criminal offences. For the offences committed the following punishments were inflicted:—

Solitary confinement	33
Reduced diet	5
Solitary confinement with reduced diet ...	149
Corporal punishment	32
Other punishments ...	266

In addition to the punishments inflicted by the jail authorities, 5 prisoners were punished by the criminal courts. The above figures show an increase of 169 in the number of punishments as compared with those of the previous year, and the rise is due to a great extent to warnings having been treated under "Other punishments," whereas in previous years they were not shown. In some jails corporal punishment was rather frequently resorted to, considering that no serious offences occurred, and that breaches of jail discipline consisted in the majority of instances of either smoking or shirking work. This fact having come before the Resident during the year, action was taken to check it.

Jail schools.

48. In a daily average population of 763 males who were in the two central jails, where alone education is given, there were 87 convicts under instruction. Of this number 55 were released during the year, and the extent to which they benefited by the instruction imparted to them in the two jail schools is shown below:—

	Unable to read or write.	Able to read and write a little.	Able to read and write well.
On admission ...	50 ...	4 ...	1
On release ...	8 ...	26 ...	21

Prison officers.

49. Prison officers are employed only in the central jails. The system has worked well in them, and the selection of prisoners for employment is generally judiciously made. The established proportion of convict officers is fixed roughly at 1 for every 20 convicts. During the year under notice the percentage of convict officers to average daily strength was 4·9 for males, and 2·5 for females. In 1883 there were 75 males, and 2 females employed as prison officers; but in 1884 the numbers fell to 49 and 1 respectively, particularly in the Akola Jail, the Superintendent of which observes, "in accounting for the smaller number of convict officers it was necessary to reduce, that the position is probably more highly appreciated than at first, and greater care is taken in the discharge of the duties." There were 12 convict officers who lost their posts or were otherwise punished for misconduct.

Employment of prisoners.

50. The average number of prisoners sentenced to labour on working days was 852·99, and the number not sentenced to labour was 10·19. The daily average number of sick was 10·77, and the average of convalescents and infirm was 16·30. The way in which the convicts were employed is shown below:—

	No. employed.
Unremunerative labour	0·03
Prison duty	374·22
Jail buildings	56·91
" manufactures	391·04
Hired out to municipalities, private individuals, &c. ...	3·02

Unremunerative labour fell from 11·75 in 1883 to 0·03 in the year under report. The other figures do not call for any special remark.

Prison manufactures.

51. The following shows the financial results of the manufactories of the jails in the province during the year:—

	Rs.
Cash drawn on manufacturing account including cash balance in hand	26,486
Cash paid into Treasury including cash in hand on last day of the year	38,622
Difference or cash earnings	12,136

Compared with 1883, the results for the year under report show a general falling-off in all the jails from Rs. 27,023 to Rs. 12,136, due to the increasing difficulty of finding in smaller jails remunerative employments for convicts which at the same time is penal in character. Writing on this subject, the Inspector General of Jails says: "I have not pressed for brilliant financial results in the district jails, but have tried to insist that in them where short-termed prisoners are confined, work shall be first of all punitive." The average earnings per head of those sentenced to labour was Rs. 12-4-0, against Rs. 26-8-0 in 1883. Their labour consisted in breaking stones, making coarse cotton cloth for police uniform, lithographing forms for Government Departments, making gunny cloth, oil-pressing and brick-making.

Health of prisoners.

52. The jail population being low, there was no over-crowding for any length of time in any jail. The following table gives the health figures for the past two years:—

	1883.	1884.
* Average daily strength ...	1061·18	1031·81
No. admitted into hospital ...	591	502
Average daily sick	14·79	10·99
Total deaths	9	9

* Including under-trial prisoners, civil debtors, and lunatics.

These statistics compare favourably, and bear testimony that the physical condition of the prisoners is sufficiently attended to. They are further confirmed by the fact that of the prisoners discharged during the year no less than 70 per cent. gained weight during the period of their incarceration. With regard to deaths, which number the same as in 1883, it has to be noted that, with the exception of two persons, whose ages were 34 and 35, the remaining seven occurred among prisoners between 41 and 65 years of age.

Expenditure.

53. The total cost of guarding and maintaining the prisoners was Rs. 62,429, against Rs. 63,231 in 1883, but the cost per head rose from Rs. 59-9-4 to Rs. 60-8-1. "The slight increase in the cost per head," writes the Inspector-General, "is due to the fixed charges being divided by a smaller average population." The net cost to Government, after deducting the earnings of the prisoners, was Rs. 49,773, or Rs. 48-4-0 per head. The following figures compare the expenditure under the several heads for the past two years:—

	Total cost. 1883.	Total cost. 1884.	Cost per head of average strength. 1883.	Cost per head of average strength. 1884.
	Rs.	Rs.	Rs. a. p.	Rs. a. p.
Rations ...	25,152	23,423	23 12 2	22 12 1
Establishment ...	23,234	23,766	21 14 3	23 0 6
Police guard ...	8,162	7,257	7 11 0	7 0 6
Hospital charges ...	897	226	0 13 6	0 14 4
Clothing ...	1,979	2,307	1 14 6	2 5 0
Contingencies ...	3,807	4,740	3 9 4	4 9 8
	63,231	62,429	59 9 4	60 8 1

The above figures show a decrease in rationing and guarding, and an increase under other heads. With reference to this, it is remarked that the low price of wheat explains the decrease in rations, while naturally the smaller average population would not lead to any reduction in establishment charges. The charges under contingencies rose, for provision had to be made for some unexpected

requirements, such as the construction of a godown and gardener's house at Amraoti, and clothing for the subordinate establishment.

Conclusion.

54. The Resident inspected the two central jails and the district jails at Buldana and Ellichpur, during his recent tour in Berar, and the impression then made on him of the generally satisfactory administration of the jails is fully justified by the evidence contained in the foregoing summary.

SECTION V.

Civil Justice.

Tribunals.

55. During the year 1884 there were 38 civil courts open in the Hyderabad Assigned Districts, compared with 34 in the preceding year, viz.:—

	1884.	1883.
The High Court of the Resident ...	1	1
The Court of the Judicial Commissioner ...	1	1
Courts of Civil Judges of the 6th grade ...	6	6
Do. do. 5th do. ...	11	8
Do. do. 4th do. ...	4	4
Do. do. 3rd do. ...	2	2
Do. do. 2nd do. ...	6	7
Do. do. 1st do. ...	4	2
Courts of Small Causes	3	3
Total ...	38	34

Number of suits instituted.

56. The total number of original suits instituted during the year was 22,899. The corresponding number for the year 1883 was 23,147, showing a decrease of 248 suits.

Classification of suits.

57. The following table gives an abstract classification of the suits instituted during the year and the previous one:—

	1884.	1883.
Contracts in writing ...	12,133	13,647
Do. not in writing ...	2,781	2,175
On account stated ...	3,594	3,116
Money had and received ...	86	60
Goods sold ...	885	636
Wages, work and material ...	167	180
Rent not falling under rent law ...	218	198
Moveable property or its value ...	789	750
Damages ...	123	93
Other suits for money or moveables not already mentioned ...	274	424
Suits relating to marriage ...	71	76
Do. to immoveable property ...	1,154	1,152
Other suits ...	629	640
Total ...	22,899	23,147

Suits on contracts in writing including suits on account stated formed the bulk of the total litigation, being 68 per cent., against 72 per cent. in the preceding year. Suits on unwritten obligations increased 22 per cent.

Value of suits.

58. The total value of the suits instituted during the year, excluding those the money value of which cannot be fixed, was Rs. 25,33,002-15-2, against Rs. 2,33,552-4-5 in 1883.

The relative value of suits disposed of during the year 1884 is shown below:—

Grades of value.	No. of suits disposed of.
Not exceeding ... ... Rs. 10	2,038
Do. ... ... „ 50	10,794
Do. ... ... „ 100	3,177
Do. ... ... „ 500	4,678
Do. ... ... „ 1,000	474
Do. ... ... „ 5,000	204
Do. ... ... „ 10,000	7
Exceeding ... ... „ 10,000	7

Suits of the lowest value have risen from 1,742 to 2,038, those of the highest value being the same.

The aggregate value of suits has diminished by Rs. 2,549-5-3. There was a corresponding decrease in the aggregate cost of suits, Rs. 8,147-13-7; the average value and the average cost of each suit being, respectively, Rs. 109-9-7 and 14-9-0, as against Rs. 112-12-9 and 15-8-10 in the preceding year.

The number of suits the value of which cannot be fixed was 393, against 408 in 1883.

Disposal of suits.

59. The total number of original suits for disposal was 27,740, including 2,090 suits pending from last year, 415 re-admitted, and 1,730 received by transfer. Of these 23,767, or 85·7 per cent., as against 88·4 per cent. in 1883, were decided during the year, and 2,242 were pending at the close of the year. The general results of their trial were as follows:—

	No. of suits.	Proportion per cent.	Corresponding proportion in 1883.
Contested.			
Judgment given for plaintiff in whole or part ...	4,967	20·9	22·2
Do. for defendant in whole ...	1,419	5·9	6·2
Total ...	6,386	26·8	28·4
Without contest.			
Decreed on confession ...	7,826	32·9	33·8
Compromised	3,310	13·9	13·8
Decreed *ex parte*	3,855	16·7	15·7
Dismissed *ex parte* ...	144	0·6	0·5
Total ...	15,235	64·1	63·8
Without trial.			
Dismissed for default ...	1,723	7·2	5·9
Withdrawn	348	1·5	1·4
Rejected or returned ...	42	0·2	0·3
Total ...	2,113	8·9	7·6
By arbitration	33	0·2	0·2
Grand Total ...	23,767	100·	100·

The percentage of contested cases fell from 28·4 to 26·8 during the year.

Agency for disposal of suits.

60. The number of cases decided by the various classes of Courts during the year, exclusive of cases decided by Small Cause Courts, and cases transferred, compared with that decided in 1883, is shown below:—

Number of officers employed on civil work.		Grades of officers.	Cases decided.			
			Number.		Percentage.	
1884.	1883.		1884.	1883.	1884.	1883.
6	6	Deputy Commissioners ...	77	53	0·4	0·3
12	14	Assistant Commissioners ...	4,752	4,369	26·1	24·5
4	3	Attachés	1,601	949	8·8	5·3
8	6	Extra Assistant Commissioners.	6,599	8,165	36·2	45·7
11	10	Tahsildars	5,180	4,334	28·5	24·2
41	39		18,209	17,870	100·	100·

Suits disposed of by the Extra Assistant Commissioners decreased 9·5 per cent., while those decided by Assistant Commissioners increased 1·6 per cent., though the work done by them is still smaller than in the year 1882. As to the increase in the number of cases tried by Tahsildars, the Resident had to repeat the remark made in the previous year that this work interferes with their executive duties. A proposal for the relief of Tahsildars of this business is under consideration, and it is hoped that before long the evil will be remedied.

Durations.

61. The average duration of contested cases was 69·6 days, against 63·5 days, and of uncontested cases 37·5 days, against 33·8 days in 1883.

Witnesses.

62. Of 37,586 witnesses who attended the Courts during the year, against 41,922 in 1883, 34,342 were detained for one day, 2,610 for two days, and 644 for three days and upwards, the number actually examined being 21,887.

Execution of decrees.

63. The total number of applications for execution of decrees during the year was 23,613, including those pending at the close of 1883, being 1,187 in excess of those made in the preceding year. Of these 19,498, or 82·5 per cent., were disposed of, against 83·5 per cent. in 1883. The result of the last two years is compared below:—

	1884.	1883.
Completely executed ...	23·1	27·9
Partially do. ...	18·6	18·4
Struck off without execution ...	49·4	46·4
Transferred ...	8·9	7·3

The total value realized in execution of money decrees was Rs. 2,93,680, against Rs. 2,98,788-0-8 in 1883. The mode of realization was as shown below:—

	Rs.	a.	p.
Paid in voluntarily ...	11,347	8	9
Realized by coercive process ...	2,82,333	0	7

In 2,828 cases moveable property was attached. Sales were effected in 1,636 cases, against 1,509 in the previous year.

Immoveable property was attached in 2,180 cases. The attachment was subsequently removed in 901 cases, and the property was sold in 1,004 cases, against 973 in the preceding year.

The number of instances in which land paying revenue to Government was attached was 969, against 1,120 in the preceding year. Sale was resorted to in 95 cases, the property being self-acquired in 51, and ancestral in 44 cases. The corresponding figures for the previous year were 58 and 60. Temporary alienations were made in 184 cases, against 199 in 1883. In 28 cases the period of alienation exceeded 10 years.

Civil debtors.

64. The number of civil debtors in prison during the year was 164, including 15 remaining from last year, against 181 in the preceding year. Of these 147 were released during the year.

Applications to be declared insolvent were 39, as against 30 in 1883. Of these 14 applications were complied with, against 12 in the previous year.

Processes.

65. The following table shows the number of processes issued during the last two years, the amount realized and expended, and the balance at the close of the year:—

	No. of processes issued.	Amount realized. Rs.	a.	p.	Amount expended. Rs.	a.	p.	Balance. Rs.	a.	p.
1884 ...	207,177 ...	97,605	14	0 ...	55,534	3	6 ...	42,071	10	6
1883 ...	210,520 ...	28,114	6	0 ...	54,386	14	2 ...	43,727	7	10

The sums realized from the sale of court fee stamps in the Civil, Criminal, and Revenue Courts during the year amounted to Rs. 2,34,652-14-0.

Appellate business.

66. The annexed table gives details regarding the result of appeals to the Deputy Commissioners, and the Judicial Commissioner, together with the average

value and cost of each appeal compared with the preceding year:—

	Year.	No. of appeals for disposal including those pending from previous year.	No. disposed of.	Rejected.	Dismissed for default.	Confirmed.	Modified.	Reversed.	Remanded.	Average value of each appeal.			Average cost of each appeal.		
1	2	3	4	5	6	7	8	9	10				12		
										Rs.	a.	p.	Rs.	a.	p.
Deputy Commissioners.	1883	482	450	72	24	155	49	96	54	129	9	10	18	9	1
	1884	422	351	83	24	99	36	76	33	95	0	0	13	12	6
Judicial Commissioner.	1883	430	345	129	7	119	22	38	30	917	11	10	35	11	9
	1884	381	310	120	10	89	21	64	6	332	9	7	33	2	0

In addition to the above number of appeals, 29 miscellaneous appeals came before the Deputy Commissioners during the year, and 89 before the Judicial Commissioner. The number disposed of by them being respectively 27 and 68.

The average duration of appeals in the Courts of Deputy Commissioners during the year was 41·1 days, and in that of the Judicial Commissioner 81·5 days.

Appeals to the Resident.

67. There were 68 appeals before the Resident during the year, including 15 pending from 1883, and 35 applications under Section 622 of the Code of Civil Procedure. These were disposed of as follows:—

	Appeals.	Appeals under Section 622, Civil Procedure Code.
Rejected	3	17
Confirmed	47	9
Remanded	2	1
Reversed	5	5
	57	32
Pending ...	11	3
Total ...	68	35

SECTION VI.

Registration.

Constitution.

68. There was no change in the constitution of the department, as described in the last Report, excepting the removal of a rural sub-registrar, and the appointment of a salaried officer in his place.

No. of offices and agency.

69. The number of offices open for registration work was 60, against 57 in 1883-84. The former were presided over as under:—

Inspector-General	1
Inspector	1
District Registrars	6
Tahsildars as Sub-Registrars	9
Honorary Magistrates as Sub-Registrars	2
Special or salaried Sub-Registrars	28
Rural Sub-Registrars	13

Of the 60 offices 52 carried on registration work, and the remaining 8 were engaged in inspection and compilation. Excluding the latter, the 52 offices give a ratio of one to 51,397 of the population, and one to every 340·6 square miles.

No. of documents registered.

70. The year under report is remarkable for the occurrence of the largest number of registrations, 25,049, since the formation of the Department. The aggregate increase over the figures of the previous year was 3,176, or 14·5 per cent. Compulsory registration rose from 14,709 to 16,800, or by 14·2 per cent., and optional registration from 7,129 to 8,203, being equivalent to an increase of 17·9 per cent. for moveable property, and 7·9 per cent. for immoveable property. There was also an increase in the number of wills and authorities to adopt, which rose from 35 in 1883-84 to 46 in the year under report.

This increase, which was contributed to by all the districts of the province, is mainly attributable to the increased facilities afforded for registration by opening a larger number of offices and to the introduction of increased special agency. There is no doubt also that the benefits arising from registration are better known and appreciated by the people.

Disposal of registration work.

71. Of the 25,049 documents brought under registration during the year, 91·4 per cent. were registered on the day of presentation, 2·6 per cent. on the next day, 3·5 per cent. within a week of presentation, and 2·5 per cent. after more than a week. The percentage of documents registered on the first day is better than last year (91·1 per cent.), and shows that work in the several offices is disposed of with due expedition.

Refusals to register and appeals against them.

72. Against 237 refusals in 1883-84, there were 243 in the year under report. Of the latter, 42 were for denial of execution, 79 for delay in presentation and appearance, 13 for want of proof of identity, and 109 for other reasons. Against the 243 refusals, there were only 15 appeals, as compared with 16 in the previous year. In 5 cases registration was ordered, and in 10 refused. The very few appeals lead to the conclusion that registering officers were right in declining to register the documents.

Documents impounded.

73. Registering officers are very careful in scrutinizing documents presented to them for registration, and this is shown by the fact of no less than 202 documents having been impounded during the year. On their being sent to the Collector 20 were declared to have been duly stamped; in 23 cases penalties were ordered to be levied, while 89 were pending disposal.

Classification of deeds according to value.

74. The subjoined statement classifies the documents according to values represented by them for the past two years:—

	Moveable.		Immoveable.	
	1883-84.	1884-85.	1883-84.	1884-85.
Value not exceeding 20 Rs. ...	91	69	927	1,181
Do. over Rs. 20 and not more than Rs. 50	404	464	2,735	3,172
Do. do. 50 100	420	488	4,937	5,467
Do. do. 100 500	517	580	9,306	10,905
Do. do. 500 1,000	48	55	1,287	1,401
Do. do. 1,000 10,000	26	30	400	482
Over Rs. 10,000	1	2	3	5
Documents in which value is not ascertainable	560	554	211	194
	2,067	2,242	19,806	22,807

Of the 22,807 documents relating to immoveable property, 117 referred to gifts, 9,740 to sales, 9,035 to mortgages, 3,473 to leases, and 442 to other description of deeds. With reference to these figures, the Inspector General of Registration remarked "there is a decrease in the number of gifts; but sales show a steady increase every year and exceeded all other transactions. The greatest increase is in mortgages, which appear to have been largely resorted to. I do not consider the number of leases registered as high, considering the large number of fields held on lease. The greater number of leases are still verbal ones. To induce the people to have them written, notices were circulated pointing out that certain leases were exempt from stamp duty."

Value of property registered.

75. The aggregate value of property transferred by the registration of documents in the year was Rs. 56,05,884, against Rs. 49,10,207 in 1883-84, and the average value of each document was Rs. 222, as compared with Rs. 225 in the previous year.

Financial results.

76. Notwithstanding the special salaried agency which was introduced on an extensive scale, the results of the year's operations bear testimony to the fact that the financial condition of the department is satisfactory, as will be seen from the following figures:—

Revenue.

1883-84 ...	...	Rs.	50,503 9 0
1884-85 ...	...	"	56,836 2 11
Increase ...	...	"	6,332 9 11

Of the Rs. 56,836-2-11, Rs. 29,578-6-0 were registration, Rs. 22,300-11-6 copying, and Rs. 4,957-1-5 miscellaneous fees. Compared with 1883-84 the expenditure rose from Rs. 30,837-10-2 to Rs. 35,446-10-0, or Rs. 4,608-15-10 more, and the surplus from Rs. 19,665-14-10 to Rs. 21,389-8-11, which, added to the balance remaining to the credit of the department at the end of 1883-84, gives an accumulated surplus of Rs. 1,60,856-13-11.

The average cost of registering a document was Rs. 2-1-1, as against Rs. 2-1-6 in the preceding year.

SECTION VII.

Municipalities.

No. and constitution.

77. By the extension during the year of the provisions of the Punjab Municipal Act IV. of 1873 to the town of Akot, the number of municipalities has increased from 6 in 1883-84 to 7 in the year under report. The system of appointment by nomination remained in force as in the previous year; but the elective principle was recently introduced at Amraoti, Akola and Khamgaon. This is an important advance in the annals of municipal administration, though it remains yet to be seen how far it will prove successful. This point will receive notice in the next Report.

Population, income and expenditure.

78. The following figures give particulars as regards the population, representatives, income, and expenditure of the seven municipalities in the province:—

Municipalities at	Population	No. on Committee.		Balance on hand at close of last year.	Income during the year.	Expenditure during the year.	Balance at the end of the year.
		Europeans.	Natives				
	No.	No.	No.	Rs.	Rs.	Rs.	Rs.
Amraoti	23,550	6	14	17,806	36,276	29,824	24,258
Akola	16,614	5	11	3,159	29,006	27,923	4,242
Khamgaon ...	12,390	8	6	7,591	32,808	34,099	6,098
Shegaon ...	11,079	4	9	1,369	4,994	6,093	270
Akot	16,137	5	13	...	9,030	5,152	3,878
Ellichpur ...	26,728	6	11	15,049	14,885	24,606	5,328
Basim	11,576	5	8	181	5,151	4,586	746
	118,074	39	72	44,955	1,32,148	1,32,283	44,820

Of the 111 representatives, 47 were Government officials and 64 non-officials. Again, of the total, 24 were members ex-officio, and 87 were nominated. If the income and the expenditure of the Akot Municipality be excluded from the above

totals, a comparison with the figures of the previous year shows that there was an increase of a little more than Rs. 2,000 in income and a falling-off of Rs. 16,700 in expenditure.

Detail of receipts.

79. The following are the sources of municipal revenue for the year:—

	Rs.
Town fund ...	29,473
Cart tax ...	10,201
Slaughter-house fees ...	1,170
Realizations under special Acts ...	1,947
Proceeds of land, &c. ...	4,735
Market dues ...	50,472
Payments for municipal service ...	11,462
Grant-in-aid from local funds ...	9,372
Municipal fines ...	940
Miscellaneous receipts ...	12,459
Total ...	1,32,148

Balances.

80. The demand on account of the several sources of revenue was Rs. 1,38,859, of which Rs. 1,13,670 were collected, and Rs. 120 remitted, leaving Rs. 25,069 outstanding chiefly on account of town fund, in the collection of which there was some laxity. It is, however, hoped that the balances will soon be realized.

Details of expenditure.

81. Details of expenditure during the year are given below, and show that of the total, 70·1 per cent. were spent on works affecting public health, 17·3 per cent. on works of public convenience, and 12·6 per cent. on public instruction, establishment, &c.

	Rs.
General establishment—	
Office establishment ...	5,361
Collection of taxes ...	2,979
Public safety—	
Fire and lighting ...	3,871
Police ...	1,543
Public health—	
Registration of births and deaths ...	158
Buildings and repairs ...	14,628
Dispensaries and vaccination ...	3,535
Water-supply ...	16,812
Road-watering and cleaning ...	13,602
Conservancy—	
Conservancy establishment ...	25,964
Drainage works ...	12,929
Markets and slaughter-houses ...	3,701
Public gardens ...	1,222
Public Instruction—	
Contribution to schools and libraries ...	2,364
Public convenience—	
Establishment ...	2,818
Construction and maintenance of roads ...	12,411
Works and repairs ...	2,990
Miscellaneous ...	4,795
Total ...	1,32,283

The above outlay is reported to have been judiciously incurred in the construction of many useful works of local interest.

Breaches of municipal rules.

82. In offences against municipal rules, there were 945 persons implicated, of whom 872 were convicted. The amount of fines imposed was Rs. 923; but of this sum Rs. 110 were remitted on appeal.

SECTION VIII.

Military.

83. Ellichpur is the only garrison town in the Province. The number of troops there, during the year under report, amounted to 737 Infantry, 75 Cavalry, and 129 Artillery. At the two out-posts of Akola and Amraoti there were 195 and 103 men, respectively.

SECTION IX.

Marine.

Nil.

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

SECTION I.

Agriculture.

Total area of province.

84. In the previous reports the total area of the province, excluding the Malghat taluk, was given at 10,281,949 acres; but in the year under notice certain errors were discovered in the survey records which resulted in a decrease of 166 acres. The area as it now stands is, therefore, 10,281,783 acres. Of this two per cent. is not included in any survey numbers, as it represents village sites, tanks, rivers, &c. 5·1 per cent. represents the area under the several descriptions of forests, 7 per cent. is assigned for free grazing, 0·5 per cent. for village purposes, 8·3 per cent. is unculturable land, and 77·1 per cent. represents land assessed and available for occupation. Of the latter 93·4 per cent, or 7,399,087 acres were occupied, against 7,355,136 in 1883-84.

Cultivated area.

85. Of the 7,399,087 acres under occupation 6,472,956 were cultivated, against 6,537,802 in the previous year. This decrease of 64,846 acres occurred in the Akola, Buldana, and Basim Districts, the Deputy Commissioners of which submit the following explanation:—

"*Akola.*—A very large portion consists of lands which were cultivated, but on which the crops totally failed to come up, or were swamped owing to the heavy and badly distributed rain-fall. The heavy fall in July killed off the young plants in low-lying lands, and kept the lands unworkable until it was too late to attempt to put in another kharif crop, and again when the time came round to get the soil ready for rabi sowings the lands had not sufficiently dried up after the second drenching in September, and cultivators had only a choice between sowing nearly a month too late or not sowing at all.

"*Buldana.*—The failure of the kharif crop had a good deal to do, the Deputy Commissioner thinks, with the decrease.

"*Basim.*—The decrease is attributed partly to the heavy rain in July, which prevented the sowing of many of the kharif crops at that time owing to the soil being too wet and partly to the heavy rain in September, which prevented the land being prepared in time for the rabi crops."

72 per cent. of the total cultivated area was occupied by kharif, and 27·5 per cent. by the rabi crops, the remaining 0·5 per cent. was under garden cultivation.

Area under principal crops.

86. In the table below, the percentage of area under each of the principal crops for the past two years is given:—

	1883-84.	1884-85.
Jowari (great millet or *holcus sorghum*) ...	33·8	32·1
Wheat	14·8	12·6
Gram	2·9	2·9
Rice or paddy	0·2	0·3
Bajri (spiked millet) ...	1·2	1·3
Tur (cadjan pea or *cajanus indicus*) ...	3·6	3·2
Til (sesame)...	2	1·7
Linseed	4·7	9·5
Urad (*phaseolus radiatus*)	0·2	0·1
Hemp	0·1	0·1
Cotton	31	32

There was an increase of 5,108 acres under rice, and of 299,769 acres under linseed, while there was a falling-off in every other crop, and notably so under wheat and jowari. Trade in wheat was slack, due to its export to England having almost ceased. Great stimulus was given to increase the production of linseed by the high rates prevailing in the markets during the previous year, which induced the cultivators to substitute linseed for wheat.

As regards cotton, the Commissioner reports that "in no year since 1881-82 did the acreage under cotton fall so low as in the year under report. Owing to the excessive rain-fall, the area under cotton was less in 1883-84 by 112,265 acres, followed by a further decrease of 67,521 acres in the year under report. The out-turn also, as in the previous year, was below the average. It is estimated at only one maund four seers per acre, against one maund seven seers in the previous year. This is, in a measure, due to the loss of the last pickings, owing to excessive moisture in the cold season."

87. Land under irrigation increased from 54,703 acres in the previous year to 70,919 acres in the year under report. Of the latter area, 21,874 acres were under rice and the remainder under wheat, chillies, vegetables, turmeric, plantains, sugar-cane, gram, betel leaves and other miscellaneous crops. The increase of acreage in irrigated land is due to the presence of water in wells and streams resulting from the heavy rain-fall of two successive years. Area under irrigation.

SECTION II.

Weather and crops.

88. The rain-fall was almost as great as in 1883-84, the general average of the year being 54 inches 7 cents, against 55·9, and its general character was very similar to that of the preceding year. The rain in September exceeded, but in October fell short of, the falls in the corresponding months of the preceding year. The principal difference was, however, the very heavy winter rains. In both years the general effect on the crops was most unfavourable. The rain-fall was very much above the average, which is not more than 30 inches at the outside, while upwards of 50 inches fell. The chief characteristic of the year was irregular and unseasonable rain-fall. The heavy down-pours in the months of July and September were injurious to the kharif crops, especially to the cotton; while the unseasonable rain-fall in December told heavily not only on the last gathering of the cotton, but also on wheat, linseed, and jowari, which previously promised to yield bumper crops. Rain fall and state of crops.

89. Locusts appeared again this year in some places in July, but they were not generally present, and caused no appreciable damage. Locusts.

90. The usual statement showing the prices of produce will be found among the appendices. The year commenced with wheat at 21 seers per rupee, and ended with a fallen rate of 24 seers, owing to the stoppage of foreign exports and stagnant markets, while large stocks were lying in the hands of local dealers. Jowari also fell from 25 to 28 seers per rupee. The fall in the price of this staple is attributed to the December rain, which much discoloured it, and though not rendering it unsuitable for human consumption, it lowered its market value for general sale. The price of rice was, on the whole, somewhat more favourable to purchasers. "The downward course," writes the Commissioner, "of the food-grains indicates that though the local harvests were not, on the whole, favourable, there was no scarcity, and food was cheap and plentiful." Wages remained much the same as in the previous year, the variations being so slight as not to require notice. Prices of produce and labour.

Experimental outturn of crops.

91. The following statement shows the results of the experiments made during the past two years to ascertain the out-turn of food-grains and other staple crops:—

	Amraoti.				Akola.				Ellichpur.				Malghat.				Pulsima.				Wun.				Basim.				Provincial average.			
	1883-84.		1884-85.		1883-84.		1884-85.		1883-84.		1884-85.		1883-84.		1884-85.		1883-84.		1884-85.		1883-84.		1884-85.		1883-84.		1884-85.		1883-84.		1884-85.	
	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.	M.	s.
Jowari (great millet or Androse sorghum.)	2	3	3	10	2	29	2	15	3	31	5	8	1	25	1	25	2	2	3	13	2	9	2	38	3	5	2	32	2	21	2	13
Cotton ...	1	25	1	11	0	37	1	4	1	7	1	6	1	54	1	21	0	39	1	12	1	3	1	0	[illegible]	3	0	34	1	7	1	4

Til (sesamum.)	1	20	1	2	2	35	1	0	1	38	2	0	...		2	20	2	10	2	0	1	30	1	18	...		0	31	1	32	1	14
Bajri (spiked millet.)	1	4	1	9	0	38	1	10	2	30	2	0	...		1	0	1	35	2	21	1	20	0	12	0	29	0	38	1	26	2	7
Gram ...	6	38	2	18	4	17	2	4	7	12	6	7	1	0	1	20	3	8	4	1	4	28	3	37	6	12	2	3	4	33	3	9
Linseed ...	1	29	2	25	3	28	1	36	2	22	2	27	...		1	20	2	14	2	16	3	28	2	9	1	9	1	12	2	10	2	13

The measurements were conducted by munseems, and are reported to have been carefully done. But in some talukas the areas in which measurements were made were so limited as to render the experiments of little or no value.

Experimental farms.

92. The two experimental farms at Akola and Amraoti were continued. In the one at Akola, jowari, wheat, cotton, melons and til were grown, and the produce from it yielded Rs. 185-5-2, against an expenditure of Rs. 144-3-4, leaving Rs. 41-1-10 as the net profit of the year. In the farm at Amraoti, the operations were undertaken chiefly with the object of sowing a good kind of cotton seed. A small quantity of good seed was sown, and the produce of the farm when sent to the market elicited the following opinion from one of the most experienced European merchants of Amraoti:—"The cotton is 'bunni' and well worth growing. It would class fully good to fine 'Oomra' if it was not stained and altogether more or less damaged by rain. I had it valued by two of the dealers here and bought it myself at Rs. 60 per bojа." All the seed of this cotton has been secured, and it is proposed to sow the whole farm with it this year in order to have a large supply of good seed for distribution.

Ensilage.

93. A full report on the experiments undertaken in all the districts of the province during the year was submitted to the Government of India. It cannot be said that the experiments were attended with much success, and the general opinion was that silos are not likely to pay when they have to be excavated in moorum (hard soil); that if built in black soil, the possibility of keeping air and water out is doubtful; and in any case the labour involved in excavating, filling and covering in silos is such that natives will be deterred from storing their already cheap and plentiful grass in that particular manner.

Agricultural stock.

94. Statistics relating to agricultural stock are given below. A comparison with the figures of the previous year shows that with the exception of sheep and goats, which suffered from the inclemency of the weather in December, there is an increase under all other heads, due to there being no epidemic among cattle, and to grass being unusually plentiful:—

	1883-84.	1884-85.
Cows and bullocks	1,336,029 ...	1,538,951
Buffaloes	306,719 ...	311,807
Sheep and goats	405,372 ...	400,634
Carts	112,156 ...	116,205
Ploughs	113,216 ...	120,991

As noticed in paragraph 91 of the last Report, a set of simple rules and recipes for the treatment of infected cattle, abstracted from Hallen's Manual, was prepared and translated into the vernacular, and 7,000 printed copies were distributed throughout the province.

Horse-breeding.

95. The only Arab stallion, which was stationed at Buldana, having become inefficient, he was replaced by another, which served 35 mares during the year.

Land Improvement Act.

96. Under the Land Improvement Act, Rs. 38,810, the largest sum ever granted, was advanced. Of the total Rs. 12,150 were for wells, Rs. 21,850 for embankments, &c., and Rs. 4,810 for clearing land. The largest sum was given in the Wun District, the Deputy Commissioner of which place writes "the cultivating classes have now commenced to appreciate and avail themselves of the advantages and favourable terms of this sort of Government loan. They prefer to hypothecate their land for the improvement of the same by borrowing from Government rather than going to the Marwari (money-lender) and losing all they possess in the course of a few years."

Of the outstanding advances due, Rs. 4,776-9-2 were recovered, and Rs. 190-4-10 are in course of recovery.

SECTION III.

Horticulture.

97. There were 22 public gardens and nurseries in the province maintained from the local funds. Six of these are at the district head-quarters, and are managed by or under the supervision of the district officers; one is at Chickalda, and the remainder at the tahsil head-quarters. With a view to render these gardens more useful to the public in a horticultural point of view, instructions have been issued for devoting a portion of the area in the gardens to the growth of seedling fruit trees for gratuitous distribution to *bona fide* land owners. Of the foreign trees planted in previous years, the *ficus elastica* is making good growth in the Ellichpur garden, and in the garden at Chickalda it is well established, so much so that there are several young plants ready for removal.

The Australian oaks are doing well at Ellichpur, and the *pithecolobium saman* or rain-tree is growing vigorously. The carob tree grows well in the Buldana gardens.

SECTION IV.

Forests.

Area of forests.

98. During the year, the area of the State reserves remained the same as in 1883-84, namely, 1,108 square miles; but that of the district reserves fell from 527 to 436 square miles, owing to re-classification and the extension of cultivation, while the area of the unreserved forests increased from 2,760 to 2,820 square miles. On the whole there was a reduction of 31 square miles as compared with the previous year. The percentage of area occupied by forests was 6·8 per cent. under State reserves, 2·7 per cent. under district reserves, 17·5 per cent. under unreserved forests, making a total of 27 per cent. as the forest area of the province.

Re-classification of district forests.

99. In the year under report tentative sanction was accorded by the Resident to the re-classification of the district forests in three taluks of the Wun District. The districts of Amraoti, Wun, and two taluks in the Ellichpur District having been re-classified are now worked on the new system.

Boundaries.

100. Regarding the state of the boundary-marks and lines of the forest reserves, the last report gives the following account:—

In the Melghat reserves the boundary-marks of Bairagarh were kept in good order. In some spots they are too far apart, and this point will be attended to and intermediate

pillars put down. The Gugamal pillars will, as they require repairs, be altered to the pattern in use in Bairagarh, which is the better of the two. All boundary lines were kept well cleared. In the South Berar Division, the boundary lines and marks were well maintained. The boundary lines round the new reserve of Gahuli were cleared, and iron pillars ordered, which will be put up. In Wun the lines round the new additions remained to be cleared. In Amraoti Division, the boundary lines round the State Reserves and those setting off the runnahs were cleared. The 82 new pillars referred to in the Report for 1883-84 were set up at a cost of Rs. 199.

Throughout the province many of the marks set up by the Revenue Survey Department and which in many cases mark the boundaries of the State reserves, have fallen into disrepair, and will have to be attended to as early as practicable.

Prosecutions. 101. Breaches of forest rules continue to decrease, the number having fallen to 308 against 381 in the previous year. The percentage of convictions shows a satisfactory increase during the year from 83 to 84·8.

Fire protection. 102. The work done in protecting the forests from fire was extremely satisfactory, as will be seen from the following figures for the past three years:—

	Area in square miles.		
	Attempted.	Protected.	Failed.
1882-83 ...	1,034 ...	973 ...	61
1883-84 ...	1,048 ...	972 ...	76
1884-85 ...	1,046 ...	1,023 ...	23

The total expenditure incurred in the above protective measures was Rs. 5,059, or Rs. 1,417 less than in 1883-84. Fire protection commenced in 1869-70 with 30 square miles in the Melghat Forests, and it has now extended to 1,046 square miles. The outlay on every acre attempted from the commencement has been 1·09 pie per acre per annum, and the percentage of failures has been 8·25 only. During the 16 years of protection Rs. 49,967 have been spent, the average for the last four years being Rs. 5,310. In reviewing the Forest Report of the Hyderabad Assigned Districts for 1884-85, the Government of India remarked "in cheapness of fire-work, Berar is first among all provinces, while its low rate of failure, 8·25 per cent, is good, considering the extensive areas attempted."

Grazing. 103. On this subject the Forest Report gives the following account:—

"Grazing was allowed in the Melghat State reserves, in the unreserved forests, and in the Beiram grazing tract under the same rules as in 1883-84.

"In Amraoti District cattle were allowed to enter upon the grazing lands set apart under the re-classification scheme. Cattle were also grazed in the district forests elsewhere under a general grazing tax, and a further source of supply was afforded by allowing cattle to graze under certain limits in the State Forests in South Berar and Wun Districts.

"During the year it was decided to allow light grazing in the State reserves, and the system was introduced in South Berar and Wun Divisions. Cows and bullocks alone were permitted to enter the forests, from the middle of June to the end of October, at a fixed rate of four annas a head, the number being limited to one head for every 2½ acres. The result of a careful inspection, made by the Conservator in February and March 1885, over a large portion of the South Berar Division, showed that the forests were on the whole benefited, as the removal of the heavy grass had allowed seedlings to spring up freely. Kept within due limits, and care being taken that the cattle are not allowed to stay too long in one spot, the system is one that presents distinct advantages. It must, however, not be allowed to grow into a right of user, and full power must always be left to the Conservator to stop the practice in any part of the forests when he deems it right to do so."

The total number of cattle allowed to graze increased from 212,603 in 1883-84 to 780,003 in 1884-85.

Tanks. 104. For the storage of water for cattle in years of drought 14 tanks were under construction, two being in the Amraoti, and 12 in the Melghat Hills. One of the former and seven of the latter were completed at a cost of Rs. 41,313.

Natural reproduction.

105. Natural reproduction is reported to have made successful progress in all fire protected areas. The result of artificial reproduction is exhibited below —

	Area in acres.		
	At the commencement of the year.	Added during the year.	At the end of the year.
Regular plantations ...	1,409	...	1,409
Other cultural operations ...	1,251	879	2,130
	2,660	879	3,539

Roads and buildings.

106. The roads in the Melghat forests were satisfactorily pushed on during the year, and were kept in good repair. The total outlay on this account rose from Rs. 7,562 to Rs. 15,462; but the expenditure on buildings, such as forest stations, rest-houses, tool sheds, fell from Rs. 2,516 to Rs. 785.

Yield and working.

107. Departmental operations were carried on during the year in the Melghat Division alone where 764 trees were cut over at a cost of Rs. 45, and sold for Rs. 1,093 on the spot. The following is a summary of the produce removed from the several forests in the province as compared with what was removed in the previous year:—

		1883-84.	1884-85.
Teak ...	... C. ft.	199,759	164,362
Other timber ...	... "	175,351	163,443
Firewood ...	... "	456,117	352,590
Bamboos ...	... Nos.	3,138,938	3,248,626
Grass ...	... Tons.	12,759	10,238
Lac ...	... "	10	13
Teak leaves ...	... "	298	357
Fruits ...	... "	584	855
Gum ...	... "	1¾	1¼
Miscellaneous ...	... "	80	91

Financial results.

108. The revenue and expenditure of the different classes of forests for the past two years are compared below:—

	Revenue.		Expenditure.	
	1883-84.	1884-85.	1883-84.	1884-85.
	Rs.	Rs.	Rs.	Rs.
State reserves ...	45,088 ...	47,271 ...	65,600 ...	63,796
District do. ...	13,205 ...	55,596 ...	25,024 ...	26,954
Unreserved forests ...	2,49,924 ...	1,90,581 ...	65,915 ...	61,787
	3,08,217	2,93,448	1,56,539	1,52,514

Compared with the previous year, the revenue fell by Rs. 14,769, due to a decrease in the proceeds from teak and timber for which the demand was not great, owing to the year being one during which no new houses are built by Hindus, and to a certain extent to the cotton crop, which was below the average, leaving the agriculturist with less money to spend on wood. Of the total revenue Rs. 1,49,595 were realized by forest officers, and Rs. 1,43,853 by district officers. The following are the sources from which the revenue was collected:—

	Rs.
Timber	75,521
Firewood and charcoal	15,984
Bamboos	32,769
Grazing and fodder grass	1,47,571
Minor produce	18,544
Confiscated drift and waif wood	1,299
All other sources	1,760
	2,93,448

The decrease in expenditure does not call for any remark, it having occurred chiefly under the head of surveys.

SECTION V.

Mines and Quarries.

109. There is nothing to record under this head. The proceeds of the Lonar Lake amounted to Rs. 1,078.

SECTION VI.

Manufactures.

110. A cotton mill at Badnera is the only manufactory in the province affording work for 500 persons. It turned out 1,063,926 lbs. of twist and yarn valued at Rs. 3,98,972. Besides this mill there are 16 steam cotton presses worked by private firms and joint stock companies. The total number of bales turned by these presses amounted to 180,093, representing 904,515 maunds of cotton. There is also an oil press worked in combination with one of the cotton presses. This turned out 28,281 gallons of oil, valued at Rs. 24,746, and 230 tons of oil cake valued at Rs. 6,900.

SECTION VII.

Trade.

System of registration.

111. Under orders from the Government of India the system of registration of railway-borne traffic has been revised with effect from the commencement of the year, and arrangements have also been made to publish in future the statistics of trade for each quarter separately for the information of the mercantile community. This, however, did not affect the machinery employed for registering road-borne trade, which is collected at ten posts, against eight in 1883-84.

Cost of registration.

112. The total cost of registration of trade statistics amounted to Rs. 3,024, against Rs. 2,942 in the previous year. Of the former sum Rs. 748 were on account of railway-borne trade, and the balance of Rs. 2,276-8-0 on account of road-borne trade.

Total trade.

113. The total trade of the province for the past two years is contrasted below :—

	Weight in Maunds.		Value in Rupees.	
	1883-84.	1884-85.	1883-84.	1884-85.
Import—				
By rail	1,904,261	2,291,975	1,97,29,432	1,50,12,869
By road	323,764	428,377	20,57,666	28,59,332
Total ...	2,228,107	2,720,352	2,17,87,098	1,78,72,201
Export—				
By rail	2,931,537	3,294,844	2,27,73,294	2,25,73,422
By road	102,764	168,609	18,49,139	36,62,084
Total ...	3,031,301	3,463,453	2,46,22,433	2,62,35,506

The above figures show an increase in the quantity imported and exported but a decrease in value under imports. This is attributed (1) to a deduction having been made from the gross weight on account of weight of packing; and (2) to the value scale adopted this year being somewhat different from that adopted hitherto. Writing on this subject the Commissioner of the Hyderabad Assigned Districts remarks that the increase in weight and the decrease in value are in reality much larger than shown above, because in the returns for 1883-84 railway plant and rolling stock, not being articles of trade, were excluded, whereas they were included in the returns for the year under report.

The principal food commodities imported into the province are rice, sugar, spices and liquor. Cotton and woollen piece-goods are largely imported from Bombay. There is also considerable import trade in oils, earthenware, metals, and gunny bags. The chief exports are raw cotton, wheat, and oil seeds.

114. The following figures show the rail-borne traffic with the adjoining provinces for the past two years :— Railway traffic.

	Weight in Maunds.		Value in Rupees.	
	1883-84.	1884-85.	1883-84.	1884-85.

		Value ...	...	3,06,057 ...	...	41,472
Total ...		Maunds ...	323,746	428,277	109,764	168,609
		Value ...	20,57,666	28,59,933	18,49,139	36,62,084

The above figures show increase both in exports and imports. The variations at the several posts are explained fully in the Trade Report.

Fairs.

116. The following statement shows the several fairs held in the province, the estimated population which attended them, and the value of goods brought for sale and sold at each :—

	Fairs.	Estimated No. of persons who attended the fair.	Value of goods brought for sale.	Value of goods sold.

SECTION VIII

Public Works.

Total Public Works expenditure.

117. The total expenditure from all sources on Public Works in the Hyderabad Administration during the year under review amounted to Rs. 23,08,782 as noted below:—

		Rs.
Imperial { Military works	...	1,88,939
Imperial { Civil buildings, roads and services	...	27,959
Provincial works ...	...	10,60,364
One per cent. cess ...	...	40,520
Road Fund ...	...	41,099
Incorporated local funds ...	...	62,899
Excluded local funds ...	...	2,02,528
His Highness the Nizam's State Railway ...	...	6,13,143
Khamgaon State Railway ...	...	33,793
Amraoti State Railway ...	...	42,008
Total ...		23,08,782

Imperial—Military.

Imperial Military outlay.

118. The total budget grant for the year was Rs. 1,78,000; the expenditure amounted to Rs. 1,88,939. The excess outlay is due partly to fluctuations in suspense accounts, and partly to a number of requisitions for repairs sanctioned in February and March 1884, but not paid for till April 1884, having, owing to a mistake in the office of the Executive Engineer, Secunderabad Division, been treated as final charges against the budget grants for the year 1883-84.

The excess of Rs. 2,679 under establishment is on account of certain adjustments which were carried out in the supplementary accounts for March last.

The following table shows the final grants compared with the expenditure:—

Heads.		Final Grants. Rs.		Expenditure. Rs.
Original works ...	...	48,500	...	47,987
Repairs	...	75,743	...	78,096
Establishment ...	...	51,757	...	54,436
Tools and Plant ...	...	2,000	...	2,058
Total	...	1,78,000	...	1,82,577
Add.—Stock purchases and Miscellaneous advances ...		...	...	1,362
Total	...	1,78,000	...	1,83,939

Original works and repairs.

119. The expenditure on Original works and repairs classified under departments and different heads is shown below:—

Heads.		Original Works. Rs.		Repairs. Rs.
Accommodation for European troops	...	28,465	...	51,603
Do. for Native troops	...	1,940	...	3,715
Ordnance buildings ...	...	2,362	...	1,912
Commissariat buildings	...	2,776	...	2,459
Fortifications ...	...	...	...	682
Staff and miscellaneous	...	2,411	...	4,414
General cantonment works	...	10,033	...	13,911
Total	...	47,987	...	78,096

Works in progress.

120. The following works provided for in the budget were in progress during the year:—

	Estimate. Rs.		Expenditure. Rs.
Budget Item No. 1.—Quarters for three Field Officers, Royal Artillery, at Trimulgherry ...	20,000	...	15,313
Item No. 2.—Two additional wells in Royal Artillery Lines at Trimulgherry ...	3,638	...	2,328
Item No. 4.—Second reservoir for water inside the entrenchment	6,420	...	3,427
Item No. 5.—Improving lightning conductors of the Military buildings of the Hyderabad Subsidiary Force	2,845	...	1,999

Works in progress.

	Estimate. Rs.	Expenditure. Rs.
Improving sanitation of sepoys' huts in Native Infantry lines at Begumpet	3,610 ...	2,208

The following budgetted work was completed during the year :—

	Estimate. Rs.	Total cost. Rs.
Item No. 3:—Pine planking dormitories of Barracks of British Cavalry at Trimulgherry ...	4,054 ...	3,953

The principal minor works carried out during the year consisted of :—

	Rs.
(1) Platforms in forage yards of the two Field Batteries of Artillery at Trimulgherry ...	886
(2) An additional well in the British Cavalry lines at Trimulgherry	1,688
(3) Additions to Conductors' quarters at the Military Prison at Trimulgherry	1,677
(4) Ridge ventilators to bake-house at Government Steam Bakery at Trimulgherry	706
(5) Stone-flooring and drainage for Infirmary Stables, Royal Artillery, at Trimulgherry ...	1,303
(6) Conversion of old Royal Artillery family quarters into quarters for two medical subordinates at Secunderabad	1,348
(7) Replacing, by pine plank ceiling, the plaster ceiling in quarter-guard, Royal Artillery, at Trimulgherry	755
(8) Road from railway station to rest camp at Wadi	685

Minor Works in progress.

	Estimate. Rs.	Expenditure. Rs.
(1) Guard-room in Heavy Field Battery Lines at Trimulgherry	2,419 ...	1,415
(2) Improving Armourers' shop of Native Cavalry at Secunderabad	1,366 ...	1,054

Repairs.

121. The military buildings in the cantonments of Secunderabad and Trimulgherry were maintained in an efficient state of repair throughout the year, as also the defences and drawbridges of the entrenched post at Trimulgherry.

Establishment.

122. Major H. C. Fox, R. E., Executive Engineer, Secunderabad Division, proceeded on privilege leave, handing over charge of the Division to Mr. M. J. Scobie, Assistant Engineer, 1st grade, on 1st May 1884. He returned from leave, and resumed charge of the division from Mr. Scobie on 1st July 1884.

Mr. M. J. Scobie, Assistant Engineer, 1st grade, was transferred from Secunderabad to the East Berar Division in August 1884.

Mr. R. A. W. Swinnerton, Assistant Engineer, 1st grade, was transferred from the Secunderabad Division to Berar for special duty in connection with the Melghat roads in February 1885.

Mr. D. M. Scobie, Assistant Engineer, was transferred from Secunderabad to the South Berar Division in September 1884.

General.

123. The orders of the Government of India in the Military Department relating to the improvement of the Trimulgherry Entrenchment, together with the views and recommendations of the Defence Committee on the subject, were conveyed in their despatch No. 982-M. W., of the 29th September 1884.

The work of improving the flanking defence by means of galleries in the escarps will be provided for in the budget-estimate for 1885-86, and carried out during that year.

IMPERIAL—CIVIL BUILDINGS, ROADS AND SERVICES.

124. The following table shows the final grants compared with the expenditure of the year :—

Heads.	Final Grant. Rs.	Expenditure. Rs.
Original works	21,600 ...	21,469
Repairs	7,500 ...	6,490
Total ...	29,100 ...	27,959

The lapse of grant under this head was Rs. 1,141, and was due partly to short outlay on "Repair" allotments, and partly to a portion of the budget grant under the same head remaining unallotted at the close of the year.

The expenditure on original works and repairs, classified under different departments, is shown below :—

Heads.	Original Works. Rs.	Repairs. Rs.
Residences for Administration ...	9,922 ...	2,285
Secretariat	92 ...	112
Post offices	7,434 ...	1,180
Telegraphs	... ...	150
Ecclesiastical	3,419 ...	1,856
Miscellaneous	602 ...	907
Total ...	21,469 ...	6,490

Works provided for in Budget.

Item No. 1—Constructing a fifth class post office at Malkapur.

An estimate, amounting to Rs. 4,012, for this building was sanctioned by the Resident in June 1884. The expenditure incurred during the year was Rs. 3,599.

Works in progress.

	Estimate. Rs.	Expenditure. Rs.
Re-roofing colonnade round dome of the Hyderabad Residency ...	11,038 ...	8,927
Constructing runners' quarters and out-houses to post office at Umarkhed	1,008 ...	960
Additions to post office at Chikalda...	999 ...	289

The following works were completed during the year, *viz.*:—

	Actual cost Rs.
(1.) Re-flooring front portico of Hyderabad Residency with marble pavement	... 3,895
(2.) Partly re-building and improving the... post office at Shahabad ...	... 1,358
(3.) Mail agent's office at Hyderabad ...	... 2,174
(4.) New steeple to St. Andrew's Kirk at Secunderabad	... 2,506

PROVINCIAL PUBLIC WORKS.

I.—GENERAL.

Budget grants and expenditure.

125. The revised budget-estimate grants compared with the expenditure are shown below :—

Heads.	Grants.		Expenditure.	
	Original works.	Repairs.	Original works.	Repairs.
	Rs.	Rs.	Rs.	Rs.
Military	76,400	10,200	64,273	...
Civil buildings	1,06,000	23,000	96,799	21,089
Communications	1,73,400	2,22,000	1,40,567	2,18,298
Miscellaneous public improvements ...	3,41,000	3,800	2,75,613	2,594
Establishment	2,19,000	...	2,18,702	...
Tools and plant	5,800	...	9,236	...
Profit and loss	...	...	141	...
Suspense	...	...	4,237	...
Total ...	9,21,600	2,59,000	8,09,628	2,50,736
Grand Total ...	11,80,600		10,60,364	

The total lapse was, therefore, Rs. 1,20,236, or 10·18 per cent. of the budget grant.

Excluding the grants for Establishments and Tools and Plant, and confining the comparison between grants and expenditure on the first four heads of the above statement, Rs. 1,17,812 lapsed, or 12·45 per cent. of the grants for works only.

The distribution of these lapses according to budget sub-heads is as follows :—

Heads.	Revised budget-estimate grants.	Grants as they stood on 31st March 1885.	Expenditure.	Difference.	
				More than grant.	Less than grant.
Original works.	Rs.	Rs.	Rs.	Rs.	Rs.
Military*	76,400	77,471	64,273	...	13,198
Civil buildings	1,06,000	1,18,633	96,799	...	21,834

Total ...	*9,55,800	9,45,800	8,27,988	...	1,17,812
Amount lapsed on final grant ...					1,17,812

* NOTE.—Rs. 10,000 were subsequently transferred from Works to the following heads, viz. :—

Establishment	...	...	...	Rs. 6,000
Tools and Plant	...	...	...	" 4,000

126. *Original Works.*

MILITARY.

Lapse... ... ... *Rs. 13,198.*

Division.	Amount.	Cause of lapse.
	Rs.	
Secunderabad ...	.. 8,837 ...	A sum of Rs. 50,000 was allotted for the military buildings, &c., in the new cantonment of Raichur. Rs. 55,768 were spent during the year; but of this sum, Rs. 14,605 represent the value of materials collected during the year 1883-84, and held at site under the general head of Raichur works. Hence the actual outlay during 1884-85 was Rs. 41,163, and the lapse on allotment was consequently Rs. 8,837.
East Berar ...	... 1,963 ...	This lapse is due partly to savings on estimate for the ordnance depôt and magazine at Ellichpur, and partly to materials having been transferred from the depôt to the magazine, instead of being purchased for the work.
	2,398 ...	Represents small savings on allotments and on estimates for petty works, &c.
	13,198	

CIVIL BUILDINGS.

Lapse... ... ... *Rs. 21,834.*

East Berar ...	... 1,974 ...	Savings on estimates, and delay of work for want of bricks.
West Berar ...	... 4,651 ...	Labour difficulty; delay in fixing site for Telhara Court House; savings on estimates; difficulty in procuring bricks.
South Berar ...	... 1,862 ...	Savings principally on completed works. Rs. 846 saved on allotment for renewing roof of a police out-post built by the Police Department at Medsi, the work having been stopped as it was found necessary to build an entirely new out-post.
Grants-in-aid for schools ...	2,207 ...	This amount remained unallotted at the close of the year.
Assignments to Civil Officers ...	7,781 ...	Rs. 13,500 was allotted to civil officers for works coming within their powers of sanction. Rs. 6,719 was sanctioned by them, leaving an unallotted balance of Rs. 7,781.
	3,359 ...	Savings on allotments, as also presumably on estimates for petty works, &c.
	21,834	

COMMUNICATIONS.

Lapse... ... ... *Rs. 4,586.*

4,586 ... This small lapse is due to savings on estimates in some cases, and to difficulty in procuring labour and materials.

MISCELLANEOUS PUBLIC IMPROVEMENTS.

Lapse... ... ... *Rs. 66,353.*

East Berar ...	... 47,838 ...	This large lapse is due to the delay in the completion of arrangements with contractor on the water-supply distribution works in the town of Amraoti. The work has been tardily carried out by the contractor, and would have been still more so had not all available labour been ordered by the Superintending Engineer to be transferred to this work from the Pahora Tank, as noted below.

Division.	Amount. Rs.	Cause of lapse.
East Berar—continued.	4,081 ...	Lapse owing to ill work of the contractor, who was originally employed on the Pahora Tank, having been stopped for the purpose above specified by the orders of the Superintending Engineer, in December last. This caused delay of a month, during which time nothing was done.
	6,502 ...	Owing to the great difficulty of procuring labour and materials in the Melghat, Rs. 6,502 remained unexpended out of the allotments for ancients at Barantana, Tolghat, Tekra, Pastalai, Tetona and Ghatang.
West Berar	6,229 ...	Of this sum Rs. 4,415 were saved on allotments for the Akola-Hingoli Railway survey owing to delay in obtaining measurements for lock-spitting and bench-marks, on which account payments to contractors were deferred; also to savings on tools and plant and office contingencies. Rs. 1,479 remained unexpended from allotments for the tank at Nukta Ganesh, and the masonry ancient at Hi-ori, owing to the great difficulty in obtaining labour for carrying out these works which are situated in out-of-the-way parts of the district.
South Berar	1,703 ...	Of this sum Rs. 1,063 were saved on allotment for the Hewri Tank, it completed work; and Rs. 455 owing to delay in manufacturing materials in Bombay for the bridge at Besim.
	36,553	
		Repairs.
Military	3,875 ...	Of this sum Rs. 1,726 remained unallotted at the close of year from the assignments made to Executive Engineers to cover the cost of repairs coming within their powers of sanction, and Rs. 749 was unallotted from the general grant. The balance represents savings on allotments for repairs to military buildings.
Civil Buildings	6,511 ...	Rs. 2,376 remained unallotted from Executive Engineers' assignments as noted above; Rs. 1,168 saved on annual repairs to civil buildings at Akola, Buldana, and Khamgaon; Rs. 478 on similar repairs in the East Berar Division, and Rs. 911 on ditto in the South Berar Division, making a total of Rs. 4,933. The balance is apparently made up of small lapses due to savings on grants for petty repairs.
Communications	676 ...	The reasons for this lapse have been explained under the head of Section IV., Communication, Repairs, in body of Report.
Miscellaneous Public Improvements	779 ...	Lapse due entirely to the sum noted remaining unallotted from the general budget grant for repairs to Miscellaneous public improvement works.

GENERAL REMARKS.

Causes of lapses.

127. The following causes have doubtless tended in some measure towards the lapses above referred to.

Mr. Watts, Executive Engineer, proceeded on furlough on 15th March 1884, and Mr. Leslie on 1st April 1884; Mr. Woodhouse retired on 6th December 1884, and Mr. Hamilton on 25th February 1885; so that the direct services of four officers were removed. In place of these, Assistant Engineer Mr. Handley was brought in from Burmah, but he proceeded on furlough on medical certificate in January 1885; Mr. Gatherer also joined in February 1885, and within three months was transferred to Rajputana, whereby this province was virtually four officers short during the year. In addition to this, an Assistant Engineer was transferred from Berar to the Secunderabad Division to prepare the surveys for the Secunderabad drainage scheme and the Chudderghat water-supply. The result of these changes was that, whereas three Executive Engineers and six assistants are supposed to be on the Berar staff, or in all time officers, excluding any on special duty, the strength has been reduced to two Executive Engineers and four assistants. This no doubt accounts for a portion of the lapse.

Under miscellaneous works the excuses urged as regards difficulty in procuring labour is, to a great extent, a fact; but this difficulty could and should have been overcome.

A considerable proportion of the total lapse is, no doubt, due to the constant changes during the year in the taking and giving over of divisions.

II.—MILITARY BUILDINGS.

128. *Budget Item No. 1.—Constructing Sepoy's Lines for a Native Infantry Regiment at Raichur.*—Rupees 11,849 was spent on these lines up to the end of the year, against an estimated amount of Rupees 30,000 debitable to Military Department.

The following buildings, &c., for the above regiment were in progress:—

		Estimate. Rs.		Expenditure. Rs.
(1.)	Bells of arms and quarter guard ...	10,904	...	10,947
(2.)	Armourer's shop	2,895	...	2,091
(3.)	Magazine	3,085	...	2,469
(4.)	Solitary cells	1,548	...	1,337
(5.)	Store room	2,306	...	2,065
(6.)	Hospital	13,565	...	13,158
(7.)	Out-houses to hospital	3,649	...	1,787
(8.)	Contagious disease ward	1,536	...	657
(9.)	Guard room to hospital	1,227	...	854
(10.)	Hospital Assistant's quarters ...	7,169	...	6,142
(11.)	Roads and culverts	14,229	...	7,265
(12.)	Five wells	4,417	...	3,684
(13.)	Rifle range	1,907	...	1,511

The following works, provided for in the budget, were completed during the year:—

	Estimate. Rs.		Total cost. Rs.
Budget Item No. 2.—Re-roofing infantry bells of arms at Jalna	3,891	...	3,244
Item No. 3.—Armourer's shop for a regiment of cavalry at Aurungabad	3,546	...	2,972
Item No. 4.—Armourer's shop for a regiment of cavalry at Hingoli ...	3,953	...	3,502
Item No. 5.—Ordnance magazine at Ellichpur	6,280	...	5,608

Works still in progress.

	Estimate. Rs.		Expenditure. Rs.
Hospital Assistant's and servants' quarters for the Hyderabad Contingent Cavalry and Artillery at Bolarum	6,338	...	4,010

Works completed.

	Estimate. Rs.		Actual cost. Rs.
Armourer's shop for Hyderabad Contingent Cavalry at Momiusabad	3,699	...	3,371
Armourer's shop for Hyderabad Contingent Cavalry at Bolarum	3,144	...	2,993
Improvements to Cavalry tank at Hingoli ...	3,668	...	3,516

The principal minor works carried out during the year are :—

	Estimate. Rs.		Actual cost. Rs.
Re-roofing cook-room to station hospital at Aurungabad	527	...	520
Rifle range for Cavalry at Hingoli ...	676	...	653

Minor Works in progress.

	Estimate. Rs.		Expenditure. Rs.
Rifle range for Cavalry at Bolarum ...	1,681	...	1,525
Adding forge and drying room to armourer's shop of Hyderabad Contingent Infantry, at Bolarum	1,487	...	1,340
Rifle range for Cavalry at Aurungabad ...	1,444	...	1,292

III.—Civil Buildings.

Administrative Buildings.

129. The following principal works were in progress during the year :—

	Estimate. Rs.		Expenditure. Rs.
Item No. 8.—Additions to tahsili and treasury at Mehkar	21,627	...	11,341
Constructing court-house with out-houses at Telhara for Extra Assistant Commissioner.	15,116	...	2,741
Collecting materials for additions to cutcherry at Malkapur	5,020	...	2,391

Works completed.

	Estimate. Rs.		Actual cost. Rs.
Item No. 9.—Making secure all treasuries in West Berar Division	4,294	...	3,904
Item No. 10.—Guard-room to tahsili at Basim...	2,946	...	2,725
Constructing witness-shed to Deputy Commissioner's cutcherry at Basim ...	3,576	...	3,573
Constructing guard-room to Deputy Commissioner's cutcherry at Basim ...	2,346	...	2,238

Minor Works completed during the year.

	Estimate. Rs.		Actual cost. Rs.
Improvements to tahsili at Akot ...	642	...	593
Additions and alterations to tahsili at Khamgaon	767	...	715
Stone flagging front verandah to Deputy Commissioner's cutcherry at Ellichpur ...	588	...	560
Constructing room for office of Sub-Registrar in tahsili at Daryapur	532	...	461

Jail Buildings.

Works in progress.

	Estimate. Rs.		Expenditure. Rs.
Budget Item No. 11.—Quarters for warders attached to jail at Amraoti	5,740	...	4,809
Quarters for warders attached to jail at Basim	1,840	...	1,852

Works completed during the year.

	Estimate. Rs.		Actual cost. Rs.
Budget Item No. 11.—Quarters for warders attached to jail at Akola	1,539	...	1,403
Quarters for warders attached to jail at Buldana	1,622	...	1,657
Quarters for warders attached to jail at Yeotmal	1,840	...	1,798

Minor Works in progress.

	Estimate.		Expenditure.
	Rs.		Rs.
Sinking well in enclosure of jail at Basim ...	857	...	800
Raising compound wall of jail at Basim ...	594	...	586
Constructing two more quarters for warders in jail at Yeotmal	897	...	829
Securing doors of cells and under-trial wards in jail at Basim	605	...	609

Minor Works completed.

	Estimate.		Actual cost.
	Rs.		Rs.
Re-roofing with Mangalore tiles solitary cells in jail at Akola	1,613	...	1,094
Raising enclosure wall of jail at Ellichpur ...	544	...	481
Raising enclosure wall of jail at Yeotmal ..	657	...	634

POLICE BUILDINGS.

Budget Item No. 12.—Complete system of police buildings.

The estimate sanctioned for these buildings amounts to Rs. 6,71,196, of which amount Rs. 6,15,246 have been spent to commencement of year, leaving a balance of Rs. 55,950 to complete the system.

The following works were in progress:—

	Estimate.		Expenditure.
	Rs.		Rs.
Constructing police station at Dahihanda ...	6,853	...	5,445
Constructing police out-post at Pardi ...	2,675	...	2,554

Minor Works in progress.

Constructing police out-post at Andura ...	2,449	...	2,222
Providing shelves and accoutrement pegs in police stations in Wun and Basim Districts	1,108	...	1,062
Renewing police out-post at Medsi ...	1,350	...	534

The following principal works were completed during the year:—

	Estimate.		Actual cost.
	Rs.		Rs.
Constructing police station at Chani ...	8,109	...	7,345
Constructing town police station at Khamgaon	9,368	...	8,480
Flooring barrack and office rooms of police stations and reserve lines in East Berar Division	3,739	...	3,235
Constructing police station at Murtazapur ...	8,041	...	7,118
Constructing police station at Mangrul ...	6,183	...	6,340

Minor Works completed.

Providing shelves and accoutrement pegs in police stations in West Berar Division ...	2,311	...	2,419
Re-roofing with Mangalore tiles police school and store room at Akola	833	...	823
Providing bath-rooms to certain police stations in East Berar Division ...	767	...	763
Re-building police out-post at Loni ...	1,096	...	1,146
Dhaba-roofing police out-post at Bulgaon ...	929	...	1,047
Providing pegs and shelves in police stations in East Berar Division	525	...	469
Re-roofing police station in Ellichpur cantonment	1,814	...	1,648
Rough stone paving police stations, store rooms, and reserve lines in Basim District	1,364	...	1,167
Constructing police out-post at Yellabara ...	1,946	...	1,572

EDUCATIONAL BUILDINGS.

The following work was completed during the year :—

	Estimate. Rs.		Actual cost. Rs.
Budget Item No. 16.—Anglo-vernacular school at Wun	10,701	...	10,494

Budget Item No. 14.—Grants in aid for schools.—Of an amount of Rs. 8,000 provided for in the budget for this purpose, Rs. 5,793 were allotted during the year.

MEDICAL BUILDINGS.

The following work was in progress during the year :—

	Estimate. Rs.		Expenditure. Rs.
Providing wire-fencing to civil hospital at Basim	1,216	...	1,292

Work completed.

	Estimate. Rs.		Actual cost. Rs.
Constructing dead-house at Mangrul Pir ...	524	...	523

ECCLESIASTICAL BUILDINGS.

Minor work in progress during the year :—

	Estimate. Rs.		Expenditure. Rs.
Enlarging cemetery at Amraoti	1,757	...	882

Minor Work completed.

	Estimate. Rs.		Actual cost. Rs.
Constructing chowkidar's hut and well for cemetery at Amraoti	647	...	645

Repairs.

The whole of the civil buildings throughout the province were maintained in good repair.

IV.—COMMUNICATIONS.

130. *Budget Item No.* 16.—Road from Daryapur to Murtazapur.—This road, which is 14½ miles long, 18 feet broad, of which 16 feet is moorum surfaced, having one bridge of twenty feet waterway, and 24 road dams of 1,260 feet waterway, with an inspection bungalow and a well at Daryapur, was commenced in February 1882 and completed in March 1885. The expenditure incurred during the year was Rs. 13,392.

Budget Item No. 17.—Road from Morsi to the frontier of the Central Provinces.—This is a 2nd class road of about 35 miles in length, intended to open out a large extent of country at the extreme north-east of Berar, and afford direct communication with the Central Provinces. Estimates aggregating Rs. 1,66,833 were sanctioned by the Resident for this project up to the end of the year, and work, which was commenced in January 1883, is progressing satisfactorily. The expenditure during the year was Rs. 46,950.

Budget Item No. 20.—Road from Motala to Nandura.—The object of this road, which is 20 miles in length, is to provide for the large wheat traffic from the south of the Buldana District to the Great Indian Peninsula Railway Station at Nandura. An estimate, amounting to Rs. 24,525, was sanctioned by the Resident in February 1885. Five miles of earth-work completed, and an expenditure of Rs. 5,622 incurred during the year.

Budget Item No. 21.—Causeway across the Pengunga River on Buldana-Chikhli Road.—The necessity for this work is much felt. An estimate for Rs. 3,584 was sanctioned by the Resident in February 1885, and an expenditure of Rs. 1,234 was incurred during the year.

Budget Item No. 22.—Road from Khandala to Umarkhed, 2nd section.—This section is 17¼ miles long and 15 feet broad, moorum surfaced over its whole breadth, having masonry bridges of 2,640 feet waterway, culverts of 624 feet waterway, slab-drains of 434 feet waterway, road dams 50 feet long, one inspection bungalow and three wells. The estimate, amounting to Rs. 71,642, was sanctioned by the Government of India in letter No. 158-C. W., dated 21st May 1881. The work on this road, which was commenced in October 1881, has been practically completed. The expenditure during the year was Rs. 5,361.

Budget Item No. 23.—Road from Yeotmal to Wun, 3rd section.—This road is 14½ miles long and 16 feet broad, moorum surfaced over its whole breadth; having 7 bridges, 31 slab-drains, 16 causeways, aggregating 1,186 feet waterway, one inspection bungalow and three wells. Revised estimate, amounting to Rs. 79,507, was sanctioned by the Resident in July 1882. The work on this section, which was commenced in October 1882, was completed in December 1884, and an expenditure of Rs. 14,927 incurred during the year.

Budget Item No. 24.—Road from Yeotmal to Wun, 4th section.—This last section of the road is 14½ miles long, having two bridges, four culverts, 60 slab-drains and 13 causeways, aggregating 974 feet waterway, one inspection bungalow and three wells. A revised estimate for Rs. 63,259 was sanctioned by the Resident in June 1883, and the works on this section have been completed during the year and the road opened for traffic. The expenditure incurred during the year was Rs. 26,982.

Jalna-Deulgaon Raja Road, 15¼ miles long.—Was completed during the year

Estimate	...	...	Rs.	89,016
Total cost	...	...	"	81,045

Khandalla-Umarkhed Road, 1st Section, 15 miles long.—Was completed during the year.

Estimate	...	...	Rs.	43,962
Total cost	...	...	"	36,555

The construction of a combined dák and inspection bungalow at Paloti on the Yeotmal-Damangaon road was nearly completed at the end of the year. An estimate for this work, amounting to Rs. 8,487, was sanctioned by the Resident in June 1884, and an expenditure of Rs. 7,291 incurred during the year.

The construction of a bridge across the Bichea River at Ellichpur, of three arches of 20 feet span.—Was completed during the year.

Estimate	...	...	Rs.	8,083
Total cost	...	...	"	7,840

Constructing causeways and improving road across Pána-Nuddi on Basim-Mangrul Pir Road.—This work is nearly completed.

Estimate	...	...	Rs.	2,559
Expenditure	...	...	"	2,216

Collecting broken stone metal on miles 2, 3, and 4 of Yeotmal-Damangaon Road.—Was in progress.

Estimate	...	...	Rs.	2,772
Expenditure	...	...	"	979

Additional out-houses to Inspection Bungalow at Ghatang.—This work is in progress—

Estimate	...	...	Rs.	1,455
Expenditure	...	...	"	577

Repairs.

The expenditure incurred in repairing the 732 miles of completed provincial roads in Berar amounted to Rs. 2,18,298, being at the rate of about Rs. 294 per mile (excluding expenditure for petty repairs to the old Nagpur dák line, *viz.*, Rs. 3,284) against a mileage rate of Rs. 358 for previous year, the budget provision for that year having been Rs. 2,12,274, and the expenditure Rs. 2,21,208.

Owing to the great expansion of traffic along most of the Berar roads, as also to the inferior quality of the surfacing material available, it was considered desirable, on the urgent representation of Executive Engineers, to make an increased provision for road repairs, so as to give an increased thickness and, if possible, an improved quality of surfacing material, as well as to provide for other special repairs necessitated by the abnormal rain-fall of the previous year. A sum of Rs. 2,22,000 was accordingly budgetted for, which was subsequently decreased to Rs. 2,18,974, but the detailed estimates were, at the same time, carefully sanctioned so as to prevent any unnecessary increase in rates, &c., with the result that the mileage rate has sensibly decreased, and there has been only a lapse of Rs. 676 on the grant as it stood on 31st March 1885.

V.—MISCELLANEOUS PUBLIC IMPROVEMENTS.

131. *Budget Item No.* 27.—Kalapani Reservoir to supply the town of Amraoti with water.—The construction of this reservoir, at the foot of the Amraoti hills, was commenced in November 1882, and is almost completed. The estimates for the entire scheme amount, in the aggregate, to Rs. 3,02,646, and the expenditure during the year was Rs. 1,03,295.

Budget Item No. 28.—Tank at Januna to supply the town of Khamgaon with water.—This project is also nearly completed. The estimated cost of the entire scheme amounts to Rs. 2,24,069; the expenditure during the year on this scheme was Rs. 99,599.

Budget Item No. 29.—Tank at Pahora.—This tank is intended to supply water to the large number of cattle which come to graze on the Amraoti hills. The sanctioned estimate for the work amounts to Rs 28,621, and the expenditure during the year amounts to Rs. 5,019. This work had to be stopped during the year for several months to enable all available labour to be employed on the Kalapani Tank.

Budget Item No. 30.—Tanks and anicuts in the Melghat.—These are also intended to store water for cattle going to graze on the southern portions of the Melghat Hills. The following shows the present state of these works:—

Completed:—

	Estimate. Rs.	Total cost. Rs.
Anicut at Somapur	1,103 ...	1,264
Do. at Chichera	1,244 ...	1,547
Do. at Bori	1,309 ...	1,293
Do. at Boorsdghat	2,848 ...	2,265
Do. at Sohona	1,889 ...	1,905
Do. at Mota	1,190 ...	1,025
Do. at Ambari	1,540 ...	1,413

In progress:—

	Estimate. Rs.	Expenditure during year. Rs.
Tank at Mardi	56,752 ...	16,293
Anicut at Baramtana	1,284 ...	371
Do. at Telghat	1,441 ...	32
Do. at Tekra	1,217 ...	150
Do. at Ghatang	13,904 ...	5,764

The following works were in progress during the year:—

Constructing masonry anicut across Moorna river at Amrapur—

Estimate	Rs.	7,127
Expenditure	"	2,064

Restoration of old tank at Bhinjara—

Estimate	"	3,347
Expenditure	"	1,762

Constructing masonry anicut in Rajura—

Estimate	"	5,306
Expenditure	"	1,014

Constructing masonry anicut at Pimpalgaon Nal—

Estimate	...	...	Rs.	3,953
Expenditure	...	...	"	766

Constructing masonry anicut at Abulkheid—

Estimate	...	...	"	2,896
Expenditure	...	...	"	665

Constructing tank at Nukta Ganesh—

Estimate	...	...	"	7,796
Expenditure	...	...	"	1,937

Constructing iron bridge across nullah on road from Tahsili to School at Basim—

Estimate	...	...	Rs.	10,068
Expenditure	...	...	"	801

The following works were completed during the year:—

Tank at Hirgowan.—This tank for cattle-grazing purposes in Amraoti Hills, estimate for which amounts to Rs. 19,775, was in progress at end of 1883-84, and was completed during the year at a total cost of Rs. 18,524.

Tank at Hewri.—This tank is also for the supply of water to Brinjara and other cattle which are grazed in the neighbourhood of Hewri in the Wun District. The work was commenced in August 1884, and completed during the year at a total cost of Rs. 11,466, against an estimated amount of Rs. 12,529.

Raising bund of Bhalar tank in Wun District—

Estimate	...	...	Rs.	4,203
Actual cost	...	...	"	4,111

Improvements to tank at Wakad in Basim District—

Estimate	...	...	Rs.	1,661
Actual cost	...	...	"	1,637

Additional waste-weir to Tank at Wadali—

Estimate	...	...	Rs.	1,552
Actual cost	...	...	"	1,539

Widening escape channel of tank at Karanja—

Estimate	...	...	Rs.	662
Actual cost	...	...	"	663

Akola-Hingoli Railway Survey.

132. Agreeably to Government of India, Public Works Department, Notification No. 239, dated 6th October 1884, Lieutenant-Colonel H. J. Nuthall, R. S. C., Executive Engineer, 1st grade, who was transferred from the Bilaspur-Etwah Railway to undertake the survey of the line from Akola in the direction of Hingoli, reported his arrival on the 31st October 1884. Rs. 5,185 were expended during the year on this survey out of a grant of Rs. 9,600.

The progress of survey work made during the year was as follows:—

61⅝ miles of the road and 39 miles of new alignment were surveyed by the prismatic compass; also 63½ miles (including diversions) of the railway by the theodolite and through levels on centre line of the latter were taken. About 20 miles of locksplitting on new alignment was carried out, leaving about 10 miles incomplete. One hundred concrete bench marks were prepared. Trial pits at bridge sites were in hand. Measurements and notes of all existing culverts and bridges on the road were taken.

VI.—Tools and Plant.

133. The total expenditure under this head was Rs. 9,236, excluding that from the one per cent. cess.

One per cent. Cess Fund.

134. The total grant from this fund amounted to Rs. 53,898, and the expenditure to Rs. 40,464. The expenditure from this fund, as also from the road fund, is entirely entrusted to the Civil Department.

The short outlay amounted to Rs. 13,434.

The following table gives the details of grant and expenditure under each district:—

Districts.	Original Works.		Repairs.		Establishment.		Tools and Plant.		Total.	
	Grant.	Outlay.	Grant.	Outlay.	Grant.	Outlay.	Grant.	Outlay.	Grant.	Outlay.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Akola ...	6,098	2,128	7,390	6,201	2,512	2,497	...	...	16,000	10,826
Buldana ...	3,804	2,591	3,216	3,417	880	868	100	100	8,000	6,976

Ellichpur ...	1,573	1,498	5,118	4,712	1,309	1,229	...	236	8,000	7,675
Wun ...	898	200	2,800	2,340	...	11	200	184	3,898	2,735
Total ...	17,051	9,197	28,898	23,571	7,449	7,105	500	647	53,898	40,520

Road Fund.

135. The grant under this head was Rs. 36,102, and the expenditure Rs. 41,098.

The following table gives the grants and expenditure incurred in each district:—

Districts.	Original Works.	Repairs.	Establishment.	Tools and Plant.	Total.	Final Grant.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Akola	5,100	5,029	...	...	10,135	12,081
Buldana	...	1,335	...	...	1,335	1,335
Basim	...	—60	...	...	—60	...
Amraoti	8,273	18,889	...	...	27,162	19,690
Ellichpur	...	2,217	...	...	2,217	2,686
Wun	...	310	...	...	310	310
Total ...	13,319	27,720	...	...	41,099	36,102

VII.—ESTABLISHMENT.

136. The total outlay on account of establishment was Rs. 2,25,867, or 25·04 per cent. of the actual expenditure on works under provincial services, including that from the one per cent. cess and road fund.

The following changes in establishment occurred during the year:—

Lieutenant-Colonel R. S. Smyth, R. E., Superintending Engineer, Class I., and Secretary to Resident in the Public Works Department, returned from privilege leave on the 21st May 1884, and took over charge from Lieutenant-Colonel H. Y. Murray, R. E. C., Executive Engineer, 1st grade, who officiated during that officer's absence.

Mr. R. W. Woodhouse, Executive Engineer, 1st grade, having attained the age of 55 years, retired from the service with effect from 6th December 1884, and Mr. A. F. Higgins, Executive Engineer, 3rd grade, was transferred from the West to the charge of the East Berar Division.

Mr. A. B. Gatherer, Executive Engineer, 1st grade, transferred to this province from British Burmah, reported his arrival on the 15th January 1885, and was posted to the charge of the West Berar Division.

Mr. T. Hamilton, Executive Engineer, 1st grade, retired from the service with effect from 20th February 1885.

Mr. J. H. Handley, Assistant Engineer, 1st grade, was transferred to this province in May 1884, and proceeded on sixteen months' furlough, on medical certificate, to Europe in February 1885.

Mr. M. Leslie, Executive Engineer, 3rd grade, obtained furlough, on medical certificate, with effect from the 1st April 1884.

Lieutenant-Colonel R. G. Smyth, R. E., Superintending Engineer, was engaged, during the months of January to March 1885, in reconnoitring the country called the Melghat situated on the Satpura range of hills to the north of Berar, with the view of deciding what roads should be constructed in order to develop the resources of the country, more especially the Gurgamal Forests, which produce large quantities of bamboo, for which trade there are no outlets at present. In connection with this scheme, Mr. Swinnerton, Assistant Engineer, was deputed, in February 1885, to draw up plans and estimates for the roads in question, and he has since submitted the project for the first section of the Belkhund-Koha road.

VIII.—Local Funds.

A.—*Incorporated Funds at the disposal of Civil Officers.*

137. The following is the statement of grants and outlay:—

Districts.	Original Works.		Repairs.		Establishment.		Tools and Plant.		Stock.	Total.		Difference, excess. less.	Percentage of lapse.

SECTION IX.

Railways.

H. H. the Nizam's State Railway.

Works in progress.

138. There were no important works in progress during the year, excepting the extension of the shed accommodation for third class passengers, and the addition of goods sheds and sidings at some of the stations.

Lines under survey or projected.

139. Surveys for the extensions eastwards of Hyderabad towards Warangal and Singareni and Bezvada were commenced in the end of March 1884; all field operations were completed early in July of the same year, and in November the construction of the first section between Secunderabad and Warangal was commenced. At first, progress was not very rapid, owing to the difficulty in obtaining labour in the district traversed by the railway, which is sparsely populated. This difficulty will be overcome gradually as the opening of the works becomes known amongst labourers at a distance.

Orders have been received from the Government of India to make over the existing open line to the Company, which will be carried out with retrospective effect from 1st January 1885.

Mineral Resources.

Singareni coal.

140. A company is being formed to work the extensive coal-fields of Singareni which will be served by the extensions referred to.

Fuel.

141. Wood fuel is now used on the railway, and is obtained from forests near the line at rates ranging from Rs. 1-11-2 to Rs. 4-3-4 per ton. The gross consumption for the year under review was 10,750 tons, as compared with 9,315 tons of the previous year, and per mile 76·46 lbs., against 69·45 lbs. The increase is due to the heavier loads of the trains, the consumption per 1,000 ton-miles hauled being the same as in 1883-84.

Lines open for traffic.

142. There have been no extensions during the year.

Accidents.

143. On the 14th May, a train was derailed owing to a broken axle, and considerable damage was done to the rolling stock and permanent-way, but no one was injured. No deaths from accidental causes occurred during the year.

Persons employed.

144. 1,314 persons were employed on the railway, of whom 29 were Europeans, 76 Eurasians, and 1,209 Natives. Natives are employed as far as practicable with due regard to economy and efficiency.

Railway schools.

145. There are no railway schools, but the children of the railway employés are educated at the different schools at Chudderghaut and Secunderabad, the native children most of them being instructed in the Mahboob College, to which institution a monthly contribution is made from the fine fund.

Railway Police.

146. The Police under the orders of the Judicial Superintendent of Railways is made a direct charge to H. H. the Nizam's Government, but on the transfer of the railway to the Company $\frac{1}{10}$ths of the expenditure will be charged to the working expenses of the line. The total amount of compensation for goods lost or damaged was Rs. 300.

Medical.

147. The health of the staff has been good, and it is satisfactory to note that there has not been a single case of drunkenness on the railway throughout the year. An extra hospital assistant has been appointed to attend to employés away from head-quarters.

148. The transactions were as follows :— Railway Provident Fund.

	Voluntary.		Compulsory.		Bonus.	Total.		Fine Fund	Grand Total.
	No.	Amount	No.	Amount		No.	Amount		
Balance on 31st March 1884 ...	27	4,789	163	17,759	4,223	163	26,771	-154	26,905
Additions during 1884-85 ...	3	1,847	34	6,797	2,144	34	10,788	576	11,364

Balance on 31st March 1885 ...	28	4,206	180	22,682	5,781	182	32,669	494	33,163

149. The following figures show the transactions of the fine fund during 1884-85 :— Railway Fine Fund.

	Rs.	a.	p.
Credit balance on 1st April 1885 ...	134	7	7
Receipts of the year	576	3	9
	710	11	4
Expenditure	216	5	7
Balance on 31st March	494	5	9

This balance will be reduced in a manner most likely to benefit the employés.

150. The value of stores on hand on 31st December 1884 was Rs. 86,281, against Rs. 84,299 on 31st December 1883, as shown below :— Stores.

	Rs.
Value of stores in stock on 31st December 1883 ...	84,299
Debits during the year	2,81,436
Total ...	3,65,735
Credits during the year	2,79,454
Balance on 31st December 1884	86,281

The following statement shows the rolling stock on hand on 1st January 1885 :—

Engines—H. Class		11	
			11
Coaching ...	1st class carriages	7	
	Composite "	1	
	2nd class "	7	
	3rd class "	30	
	Postal composites	4	
	Brake vans	4	
	Horse boxes	7	
	Carriage trucks	2	
	Luggage vans	1	
			63
Goods ...	Covered goods	70	
	High-sided	40	
	Goods brake vans	11	
	Travelling crane	1	
	Accident van	1	
	Travelling water-tank	1	
	Ballast wagons	23	
			147

During the year two new engines were purchased from the Bengal Central Railway Company at a cost of Rs. 65,504. The additions and repairs, &c., to stock will be dealt with under working expenses of the carriage and wagon departments.

Capital transactions.

151. The capital cost of the line to 31st March 1885 was Rs. 1,23,65,953. The capital expended during the year 1884-85 amounting to Rs. 61,129, classified under the following main heads of account:—

	Rs.
Construction of line	1,012
Ballast and permanent way	6,250
Stations and buildings	14,332
Plant	8,029
Rolling stock	33,748
Total Final heads ...	63,371
Suspense account	—1,475
	61,896
Less receipts on Capital account	—767
Net expenditure	61,129

The following capital works were executed during the year:—

	Amount of Estimate. Rs.
Goods and Passenger sheds at Gangawaram ...	1,319
Do. do. Lingampalli ...	3,734
Do. do. Shankarpalli ...	3,734
3rd class passenger shed at Tandur	1,219
Extensions to dead end siding at Wadi ...	1,881
Subordinates' rest-house at Gangawaram ...	1,600
Carriage shed at Secunderabad ...	4,825
Additional sidings at Secunderabad ...	1,967

The following works, though sanctioned and commenced in 1883, were completed only during the year under review:—

	Rs.
Extensions to sidings at Secunderabad and Dharur ...	3,350
2nd station siding at Chittapur	1,492
Goods shed at Chittapur	2,770
Extension to Gollaguda station office ...	1,096
Extension to Loco. smithy ...	2,011
Extension to goods shed at Secunderabad ...	5,000

Revenue transactions.

152. The gross earnings of the railway for the year 1884 were Rs. 9,72,916, and the working expenses Rs. 6,13,143, leaving the net earning Rs. 3,59,773, against Rs. 2,37,932 in the previous year, notwithstanding heavy and exceptional expenditure on maintenance of permanent-way and rolling stock, which will be referred to hereafter. In 1881-82 the net earnings were slightly higher than in the year under review, but during that period renewals to way and stock were almost entirely suspended, and much work which should have been done then has had to be carried out in the following years.

The following table gives the results of the working since 1879:—

Year.	Earnings.				Working expenses.	Net earnings.	Percentage of net earnings on capital outlay.
	Coaching.	Goods.	Miscellaneous.	Total.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1879 ...	3,00,358	3,81,622	12,420	6,94,400	6,04,475	89,925	·77
1880 ...	3,08,771	3,79,944	14,001	7,02,716	4,78,406	2,24,310	1·84
1881 ...	2,95,196	4,43,931	17,687	7,56,814	4,64,039	2,92,775	2·39
1882 ...	3,44,291	4,95,234	19,892	8,59,417	4,84,317	3,75,100	3·07
1883 ...	3,77,127	4,61,577	14,816	8,53,520	6,15,388	2,37,932	1·94
1884 ...	4,47,780	5,12,945	12,191	9,72,916	6,13,143	3,59,773	2·92

The receipts per mile per week increased from Rs. 135·88 to Rs. 154·48, and per train-mile from Rs. 2·82 to Rs. 3·00. The distribution of receipts has been coaching traffic 46·03 per cent., goods traffic 52·72 per cent., and electric telegraphs and sundries 1·25 per cent.

The causes of the chief increases and decreases will be explained under "Traffic and working expenses."

Traffic and working.

153. The coaching receipts show a marked improvement over previous years, and testify to the increased popularity of the railway. Compared with 1883 they have been :—

Coaching.

Heads.	1883.	1884.
	Rs.	Rs.
Passengers ... 1st class	25,664	35,286
Passengers ... 2nd class	36,470	39,752
Passengers ... 3rd class	2,35,396	2,74,870
Passengers' luggage	14,027	17,427
Military baggage	2,824	4,958
Carriages, horses, dogs, &c.	18,720	19,880
Military carriages, horses, &c.	1,340	4,040
Parcels	46,137	44,599
Special trains	1,955	6,746
Miscellaneous	594	222
Total ...	3,77,127	4,47,780

The increase in 1st and 2nd class and in special trains is due to the heavy traffic on the occasion of the installation of H. H. the Nizam; in the 3rd class, the increase is believed to be due to the improved accommodation provided, and to the greater facilities afforded for travelling.

The better condition of the road and rolling stock has enabled the Manager to introduce an improved train service, with increased speed, the time occupied between Secunderabad and Wadi being now one hour and 23 minutes less than in 1883. To prevent the over-crowding of the mail trains, on which the load is limited, it is intended from the 1st May to increase the 3rd. class fares by these trains, from 2 to 2½ pies per mile. There will still be the mixed or slower trains for those passengers who cannot afford or do not wish to pay for the increased speed, and it is believed that the proposed alteration, whilst adding to the comfort of passengers, will increase the revenue.

The provision of commodious waiting sheds at all important stations is found to be much appreciated by the lower class passengers, for whom until lately there was almost no shelter.

The rates for reserved accommodation have been largely reduced. The charges now made for reserved 3rd class carriages and compartments, will meet the wants of those who would, on other lines, travel by the intermediate class, and it is believed this will be largely taken advantage of when more generally known by the public, but more stock is urgently required. The booking and parcels office in Hyderabad recommended by the Manager has not been opened, as H. H. the Nizam's Government have intimated their inability to provide the necessary accommodation; this is to be regretted, as it would prove a great convenience to the inhabitants of the city.

Great attention is paid to the importance of fully advertising the railway rates and fares both in English and the vernacular.

The coaching receipts per train-mile show an increase from Rs. 2·29 to Rs. 2·57, and the percentage of freight on carrying capacity hauled was 46·27 in 1884, against 38·91 in 1883. The latter result has been obtained by slipping a portion of the mail and mixed trains at Lingampalli, between which station and Hyderabad the bulk of the passengers are carried.

Goods traffic.

154. The year 1884 has been remarkable for the heaviest goods traffic since the opening of the railway. The receipts during 1883 were Rs. 4,61,517, and in 1884 Rs. 5,12,945. This statement shows the principal commodities carried by the railway during the past two years:—

Description of commodity.	1883.		1884.		Increase.		Decrease.	
	Tons.	Rs.	Tons.	Rs.	Tons.	Rs.	Tons.	Rs.
Cotton, manufactured ...	1,172	16,310	1,270	17,823	98	1,513	...	...
Fruits and nuts ...	2,557	22,831	2,453	21,748	...	...	104	1,083
Grain and pulses ...	24,745	1,25,053	25,029	1,19,238	284	...	...	5,815
Metals and manufactures.	2,056	14,747	2,660	19,921	604	5,174	...	...
Salt	16,423	65,730	18,276	73,095	1,853	7,365	...	...
Seeds	13,296	50,097	20,817	84,908	7,521	34,811	...	...
Military stores ...	1,821	22,053	1,218	13,464	...	...	603	8,594
Railway materials ...	60,272	20,417	66,675	21,171	6,403	754	...	...
All other articles ...	2,589	29,696	2,252	18,921	...	...	338	10,775
Wood	7,972	22,631	10,101	26,788	2,129	4,457	...	...

The increase of Rs. 34,811 under seed traffic is due to the traffic received from the north and north-eastern districts, which until lately had been taken by road to Goolburga.

H. H. the Nizam's Government is taking strong measures to prevent the jagirdari tolls on goods brought to railway, referred to in previous reports, and which are believed to have such a prejudicial effect on the traffic.

The importance of feeder roads is still being pressed on H. H. the Nizam's Government.

Working expenses.

155. The total expenditure shows a decrease of Rs. 2,445 compared with the previous year, and the percentage of the gross earnings was 63·02, against 72·12 of 1883.

Distributed between the several Departments, the expenses were:—

		Engineering.	Locomotive.	Carriage and Wagon.	Traffic.	General charges.	Miscellaneous.	Total expenditure.
1883	Amount ... Rs.	2,38,176	1,24,175	83,072	86,369	60,197	28,598	6,15,587
	Percentage on total earnings	27·91	14·55	9·73	10·12	7·05	2·76	72·12
1884	Amount ... Rs.	2,02,850	1,12,867	1,10,999	91,258	63,635	32,433	6,13,142
	Percentage on total earnings	20·85	11·60	11·32	9·38	6·54	3·33	63·02
Increase ...		...	...	27,027	4,889	3,438	8,835	...
Decrease ...		35,326	11,308	...	...	...	...	2,445

Engineering Department.

156. The expenditure is still heavy owing to the purchase of six miles of new steel rails at a cost of Rs. 72,968, and to extensive renewals of teak sleepers. Large reductions have been made in the permanent-way gangs, but the way has been well maintained, and has enabled the Manager to increase the speed of the trains.

Extensions to the brass foundry and stores accommodation of the workshop are in hand; a new engine and boiler are being erected, and with a complete re-arrangement of the plant and machinery, the facilities for carrying out the work expeditiously will be greatly increased.

The stations and buildings have been well maintained, and many useful additions for the convenience of the public have been carried out.

Locomotive expenses.

157. Two new engines were purchased from the Bengal Central Railway Company at a cost of Rs. 65,504, one of which will be charged to capital, and the second to revenue, to replace the condemned engine "Ironsides." The working expenses show a decrease of Rs. 11,308 against 1883, and per train-mile the charges have been reduced from Rs. 0·41 to Rs. 0·36.

Carriage and wagon expenses.

158. The expenses were heavy during the year, but the stock has been greatly improved, and a large sum has been expended in building new stock, which should have been charged to capital, had funds been available. Twenty-three covered goods wagons have now been re-built at a cost of Rs. 41,360 to replace wagons which, when purchased, were over 20 years old, and only cost Rs. 12,275. Two new third class carriages are now being built, and will cost the Railway Rs. 9,164 to replace two carriages which originally only cost capital Rs. 1,800. Again, over Rs. 53,000 have been spent in wheels and axles to replace almost valueless materials supplied with the old stock. Under such conditions of working, large profits cannot be expected, and the Manager trusts that it may be considered satisfactory that so much should have been done with the limited funds at his disposal.

An indication of the improved condition of the rolling stock is that in 1883 the home vehicle mileage on foreign lines was 284,573 miles, and in 1884 it had increased to 490,566 miles.

Traffic Department.

159. The Department has been worked satisfactorily throughout the year; the trains have kept good time; there have been few complaints, and the improved accommodation and revised train service have given general satisfaction to the public. This Department is worked cheaper on the Nizam's State Railway than any broad gauge railway in India.

Rates and fares.

160. The only important changes in the rates and fares during the year under review were:—

(a) Reduction in the charge for private special trains from Rs. 5 to 3 per mile.

(b) Introduction of revised rules and rates for the transport of troops.

(c) Reduced fares for reserved accommodation.

BERAR RAILWAYS.

Khamgaon Railway.

161. The receipts and expenditure during the year were as follows:—

Receipts.

From 1st April 1884 to 31st March 1885 ... ... Rs. 46,850

Expenditure.

Working charges from 1st April 1884 to 31st March 1885 ...	Rs. 33,793	
Maintenance do. do. ...		
Net profit ...		Rs. 13,037
Equivalent to 2·66 per cent. on the capital outlay of Rs. ...		4,90,810

Amraoti Railway.

Receipts.

162. From 1st April 1884 to 31st March 1885 ... ... Rs. 76,782

Expenditure.

Working charges from 1st April 1884 to 31st March 1885 ...	Rs. 42,608	
Maintenance do. do. ...		
Net profit ...		Rs. 34,174
Equivalent to 7·68 per cent. on the capital outlay of Rs. ...		4,44,,771

SECTION X.

Irrigation.

163. There were no works of this class undertaken during the year under review.

CHAPTER V.

REVENUE AND FINANCE.

Decentralization system.

164. The year under review is the sixth in which the system has been in force of assigning a certain percentage of the provincial revenues of the Hyderabad Assigned Districts to the Resident for expenditure on civil public works and railways. From the year 1883-84 this percentage was reduced from 54 to 52 per cent. in pursuance of Government of India Resolution, Department of Finance and Commerce, No. 372, dated the 31st January 1880.

Total receipts and expenditure.

165. In the following statements, which show the total revenue and expenditure of the past two years, the provincial figures are exhibited separately from those of the Incorporated Local Funds, as the former alone are taken into account in determining the Resident's assignment under the system above adverted to :—

	Actuals, 1883-84.			Actuals, 1884-85.		
	Provincial.	Local Incorporated.	Total.	Provincial.	Local Incorporated.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts.						
1. Civil ...	83,53,708	4,27,996	87,81,704	92,38,096	4,99,283	97,37,379
2. Railways ...	1,58,817	...	1,58,817	1,23,612	...	1,23,612
3. Public Works ...	9,456	26,758	36,214	8,362	2,284	10,646
4. Military ...	45,677	...	45,677	1,08,074	...	1,08,074
5. Contributions from Local to Provincial ...	97,471	...	97,471	1,70,382	...	1,70,382

9. Grand Total..	92,93,877	5,33,411	98,27,288	104,15,106	5,82,329	109,97,435
Expenditure.						
10. Civil ...	29,71,445	4,38,258	34,09,703	35,11,753	4,14,540	39,26,293
11. Railways ...	92,151	...	92,151	76,144	...	76,144
12. Public Works ...	11,64,267	47,637	12,11,904	11,41,983	1,14,409	12,56,392
13. Provincial and Local surpluses and deficits ...	...	—49,955	—49,955	...	—1,17,002	—1,17,002
14. Military ...	29,75,724	...	29,75,724	30,17,383	...	30,17,383
15. Contributions from Provincial to Local ...	78,657	...	78,657	80,762	...	80,762
16. Contributions from Local to Provincial ...	...	97,471	97,471	...	1,70,382	1,70,382
17. Total ...	72,82,244	5,33,411	78,15,655	78,28,025	5,82,329	84,10,354
18. Add Excluded Local Funds ...	7,08,731	...	7,08,731	8,21,237	...	8,21,237
19. Grand Total.	79,90,975	5,33,411	85,24,386	86,49,262	5,82,329	92,31,591
20. Surplus ...	13,02,902	...	13,02,902	17,65,844	...	17,65,844

If the figures of the Excluded Local Funds (items 8 and 18 above) be omitted, the surplus on the 31st March 1885 of the revenue proper of the Hyderabad Assigned Districts (or difference between items 7 and 17) is Rs. 18,20,501, against Rs. 13,82,885 in 1883-84.

Balance at Resident's credit.

166. The balance at the Resident's credit on the 31st March 1885, under the operation of the Financial Resolution alluded to above, is Rs. 14,94,371, as shown below :—

	Rs.	Rs.	Rs.
1. Gross Provincial revenue of Berar for 1884-85...	...	96,48,526	
2. Deduct Military Receipts ...	1,08,074		
3. One per cent. Road Cess for 1884-85 ...	63,267		
4. Contributions from Local to Provincial ...	1,70,382		
		3,41,723	
5. Net amount...	...	93,06,803	
6. Fifty-two per cent. of No. 5 placed at credit of Resident	...	...	48,39,537

14. Total at credit of Resident on the 1st April 1885	...	...	14,94,371

(c). PROVINCIAL REVENUE AND FINANCE.

Dates of payment of revenue instalments.

167. The change in the dates of payment of the land revenue instalments, which was referred to in paragraph 167 of last year's Report as having been generally introduced except in three of the taluks of the Wun District, was in the year under review extended to these also.

Amalgamation of certain cesses with land revenue.

168. The change referred to in paragraph 168 of last year's Report in regard to the collection of the education and jaglia cesses has been kept in view this year also. It was, however, found difficult to prevent the cesses of one year from being credited in the accounts of latter years, and so it was arranged that the gross land revenue (*i. e.*, Land Revenue proper *plus* the cesses) should be credited to General Revenues as it is collected, subsequent adjustments to credit of the several cesses being made by the Comptroller on information supplied by the Commissioner.

Land revenue.

169. The total land revenue demand was Rs. 64,23,868 as compared with Rs. 63,96,468 in the preceding year, showing an increase of Rs. 27,400. In land revenue proper, the increase amounted to Rs. 14,528, chiefly due to a larger area of occupied and assessed land, while under the head of "Miscellaneous," or fluctuating revenue, there was an increase of Rs. 12,872. Of the total demand Rs. 51,75,823 were collected during the year, leaving a balance, which includes sums due on account of cesses, of Rs. 17,38,918 at the close of the year. Of this sum all but Rs. 35,620 were realized by the end of April 1885. The sum actually brought on the books of the Comptroller was Rs. 63,68,250, against Rs. 55,01,346 in 1883-84.

Balances of previous years.

170. Apart from the sum outstanding from the land revenue demand of the year, Rs. 14,91,441 remained uncollected on account of former years. Of this sum Rs. 14,89,865 were realised during the year, and Rs. 404 were remitted. There then remained Rs. 1,171-14-10 to be collected, of which Rs. 418-3-4 are in train of liquidation, while Rs. 20-15-9 are only nominal, and Rs. 732-11-9 are irrecoverable.

Coercive processes.

171. With heavy balances of the revenue demand to collect, more coercive processes had to be issued than in 1883-84. The total number of writs of demand issued for the current year rose from 2,473 to 6,239, and this increase is thus accounted for in the Commissioner's Revenue Report:—"The excessive rain and unfavorable harvests, which were in some important respects below the average, deprived the poorer cultivators of the power of paying their

rents or of helping themselves. Unreasonable harshness was therefore not resorted to, and time was allowed to them to pay up their revenue instead of selling their fields; thus the number of defaulters summoned to the tahsils was only slightly in excess of the previous year, and no defaulter was imprisoned."

"Orders for the attachment of personal property numbered 4,602, or 1,736 more than in the previous year; but in only 597 instances was attachment actually effected, and in 11 cases only were sales carried out and realized Rs. 521-12-6."

Opium.

172. The imports of opium from Indore amounted to 33,810 lbs. during the year, against 34,726 in 1883-84, and the duty on the former at 10 Rs. per seer aggregated Rs. 1,69,050, as compared with Rs. 1,73,600 in the previous year. The sum actually credited in the books of the Comptroller was Rs. 1,63,450, against Rs. 1,89,700 in the year before. At the commencement of the year, there were 49 maunds and 27 seers of opium in the province, and during the year, 403 maunds and 1 seers were imported, making in all 452 maunds and 31 seers. Of this quantity 404 maunds and 7 seers were consumed and taken by out-going retail vendors and 4 maunds and 26 seers were found deficient from dryage, short weights, &c. There were therefore, at the end of the year, 43 maunds and 38 seers in stock. Compared with the previous year there has been a falling off in the quantity of opium consumed, and with reference to this the Resident in reviewing the Report on the Excise Revenue in the Hyderabad Assigned Districts for 1884-85 observed, "although the consumption of opium continues to diminish, the prices paid for licenses show no falling off. The imports show a diminution of 3,500 lbs., and the consumption a decrease of 63 maunds 28 seers when compared with the returns of the previous year. It is difficult to say whether this result is due to successful smuggling or to high retail rates charged by the contractors in order to recoup themselves for their increased outlay. The Resident, however, is inclined to think that the latter reason is the cause, as the sales of contracts for opium and drugs for the current year show a decrease of 18·5 per cent."

Excise revenue.

173. The revenue under this head rose from Rs. 14,47,127 in 1883-84, to Rs. 15,17,436, or by Rs. 70,309, as will be seen from the following comparison of the sources of revenue during the past two years :—

	1883-84. Rs.	1884-85. Rs.
Country spirits	10,43,760 ...	11,08,895
Opium and drugs	3,47,600 ...	3,62,000
Tari	51,765 ...	42,877
Foreign spirits	1,445 ...	1,400
Miscellaneous	2,557 ...	2,354
Total ...	14,47,127 ...	15,17,436

There were in the province 1,438 shops for the retail vend of country spirits, giving one to 1,558 of the population, and 12·3 square miles to a shop, while the incidence of the revenue is 0-6-2 to the total population. For the vend of opium and drugs there were 585 shops, giving one to 4,508 of the population and one to every 30·2 square miles, while the incidence of the revenue is 0-1-9 to the population. Of the total excise revenue for the year, Rs. 22,108 remained uncollected at the end of the year, but of this sum more than Rs. 16,000 have since been collected. The sum brought on the books of the Comptroller on account of excise revenue was Rs. 14,47,148, or Rs. 18,754 more than in 1883-84.

Offences against excise laws.

174. In all 158 persons were arrested during the year for offences against the excise laws, of whom 124, or 78·4 per cent., were convicted. In the previous year 152 persons were arrested, of whom 76·3 per cent. were convicted. Thus while the number of persons prosecuted have been more numerous this year, the results of the prosecutions have also been slightly better. Of those convicted 17 were imprisoned chiefly for offences against opium law, and the rest fined. The total amount of such fines was Rs. 2,354, against Rs. 2,557 in the previous year. Of the former sum Rs. 636-8-0 were granted as rewards to informers.

Stamp revenue.

175. According to the books of the Comptroller, the total amount of stamp revenue was Rs. 6,43,974, or Rs. 25,909 more than in the previous year, as will be seen from the following comparison for the past two years :—

	1883-84.		1884-85.
	Rs.		Rs.
Sale of general stamps	2,48,080	...	2,73,723
Sale of court fee stamps	3,65,717	...	3,66,000
Duty on impressed stamps	496	...	507
Fines and penalties	3,760	...	3,648
Miscellaneous ...	12	...	6
	6,18,065	...	6,43,974

In the Report on the administration of the Stamp Department, the gross receipts and expenditure are thus shown :—

	1883-84.		1884-85.
	Rs. a. p.		Rs. a. p.
Receipts.			
Indian Stamp Act ...	2,52,418 5 6	...	2,67,079 4 1
Court Fees Act ...	3,65,653 0 6	...	3,66,264 15 1
Sale-proceeds of copying folios	...	...	10,952 13 0
	6,18,071 6 0		6,44,297 0 2
Charges.			
Indian Stamp Act ...	12,521 3 11	...	16,271 8 8
Court Fees Act ...	11,815 6 6	...	10,294 1 4
	24,336 10 5	...	26,565 10 0
Net receipts ...	5,93,734 11 7	...	6,17,731 6 2

The year's administration resulted in a net surplus of Rs. 6,17,731-6-2, or Rs. 23,996-10-7 more than the previous year. The sale of copying folios is a new source of revenue for the year under report. Analysing the several sources of revenue under the Indian Stamp Act, the results for the past two years are exhibited below :—

	1883-84.		1884-85.
	Rs. a. p.		Rs. a. p.
Receipt stamps ...	16,176 8 0	...	17,455 6 0
Hundi stamps ...	8,206 14 0	...	11,922 12 0
Document stamps ...	2,23,697 0 0	...	2,33,391 6 0
Miscellaneous receipts	4,337 15 6	...	4,309 12 1
	2,52,418 5 6	...	2,67,079 4 1

There were in the year under report 384 licensed stamp vendors, of whom 218 sold general and 35 court fee stamps. Wherever practicable sub-post masters are licensed to sell general stamps.

Provincial rates.

176. The receipts under this head amounted to Rs. 4,69,439, against Rs. 4,26,196 in 1883-84, and represent rates and cesses of the Incorporated Local Funds, the result being an increase of Rs. 43,243, as shown by the following comparison of the figures for the past two years :—

	Actuals. 1883-84.		Actuals. 1884-85.		Increase.		Decrease.
	Rs.		Rs.		Rs.		Rs.
Jaglia and Local Cess...	3,38,488	...	3,72,206	...	33,718	...	...
Educational Cess ...	87,708	...	97,233	...	9,525	...	...
	4,26,196		4,69,439		43,243		...

The cause of increase is due to circumstances explained in paragraphs 167 and 168 above.

177. The receipts under registration were Rs. 50,849 against Rs. 50,546 in 1883-84. Registration receipts.

178. The revenue under Law and justice amounted to Rs. 89,231, against Rs. 1,18,366 in 1883-84, resulting in a net decrease of Rs. 29,135. The following figures show the fluctuations under the several minor heads for the past two years:— Law and justice.

	Actuals, 1883-84.	Actuals, 1884-85.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Sale proceeds of unclaimed and escheated property ...	9,572	11,545	1,973	...
Court fees realized in cash ...	479	257	...	222
General fees, fines, and forfeitures	51,121	45,594	...	5,527
Jails ...	48,258	30,422	...	17,836
Pleadership examination fees ...	110	230	120	...
Miscellaneous fees, fines, and forfeitures ...	593	1,095	502	...
Miscellaneous ...	8,233	388	...	7,845
	1,18,366	89,231	2,595	31,730
		Deduct increase ...	...	2,595
		Net decrease ...	...	29,135

The decrease under "General Fees, Fines, &c.," occurs under magisterial fines, the decrease under "Jails" is under jail manufactures, the earnings in 1883-84 having been exceptionally high, and the decrease under "Miscellaneous" is due to the recovery of the convict charges at Port Blair from His Highness the Nizam's Government having been adjusted to Objection Book Advances, while in the previous year it was credited to Miscellaneous under Law and Justice Receipts for the reasons explained in paragraph 178 of last year's Report.

179. The receipts under this head amount to Rs. 30,648 or Rs. 5,456 less than the receipts for 1883-84, which amounted to Rs 36,104. The following were the realizations under the several minor heads for the past two years:— Police.

	Actuals. 1883-84.	Actuals. 1884-85.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Police supplied to Railways ...	5,178	15,244	10,066	...
Police supplied to Municipal, Cantonment and Town Funds ...	15,506	10,087	...	5,419
Police supplied to Public Departments, &c. ...	337	963	626	...
Fees, fines, and forfeitures ...	238	357	119	...
Superannuation receipts ...	103	73	...	30
Miscellaneous ...	13,861	3,747	...	10114
Police supplied to Public Departments, &c. (Local) ...	774	...	...	774
Fees, fines, and forfeitures (Local) ...	4	...	...	4
Miscellaneous (Local) ...	103	177	74	...
	36,104	30,648	10,885	16,341

The increase under "Police supplied to Railways" is due to the adjustment of the contributions from the G. I. P. Railway Company for three half-years, whereas in 1883-84 the adjustment effected was only for the half-year ending June 1883. The decrease under "Police supplied to Municipal, Cantonment, and Town Funds" is due to the transfer of the cost of the Police in the municipalities of Berar from Municipal Funds to General Revenues under orders of the Government of India, Home Department, No. 41, dated 7th March 1884; the contributions from municipalities has therefore ceased. The decrease under Miscellaneous is nominal, as the receipts in 1883-84 included the transfer of the balance of the General Police Fund of previous years as explained in paragraph 179 of last year's Report. The fluctuations under the other heads call for no special remark.

Education.

180. The receipts under this head are derived chiefly from school fees and sale of books as shown below, and amounted to Rs. 24,167, against Rs. 24,088 in 1883-84:—

	Actuals, 1883-84. Rs.	Actuals, 1884-85. Rs.	Increase. Rs.	Decrease. Rs.
Fees, Government schools...	7,792	11,102	3,310	
Contributions ...	1,820	29		1,891
Sale proceeds of books ...	13,197	12,484		713
Miscellaneous ...	265	204		61
School fees (Local) ...	250	176		74
Contributions (Local) ...	66	12		54
Miscellaneous (Local) ...	598	160		438
	24,088	24,167	3,310	3,231

The increase under Fees, Government schools, is due to the levy of enhanced rates of fees in the high and middle schools: the fluctuations under the remaining heads call for no special remark.

Medical.

181. The receipts under Medical amounted to Rs. 400, against Rs. 330 in 1883-84.

Scientific and other Minor Departments.

182. Under the head of Scientific and other Minor Departments also the receipts were trifling, amounting to Rs. 1,078, against Rs. 1,591 in 1883-84, and were chiefly on account of produce of Lonar Lake.

Interest.

183. The receipts on account of interest amounted to Rs. 25,626, of which Rs. 22,389 were realized as interest on a portion of the Berar surplus cash balance deposited in the Bank of Bombay. The receipts in 1883-84 amounted to Rs. 26,530, of which Rs. 25,217 represented the amount of interest paid by the Bank of Bombay on the portion of the Berar surplus cash balance held by the Bank.

Receipts in aid of superannuation.

184. The receipts in aid of superannuation increased from Rs. 3,950 in 1883-84 to Rs. 5,962 in 1884-85. The cause of the increase is due to arrears recovered from one officer and the transfer of another officer to foreign service during 1884-85.

Stationery.

185. The receipts under stationery were Rs. 2,196, against Rs. 697 in 1883-84. The increase is chiefly under the minor head of "Other Press Receipts" by the recovery from Local Funds and Municipalities of the value of work done by the Government Press at Hyderabad.

Miscellaneous.

186. Miscellaneous receipts are of a fluctuating character, and vary considerably every year. The amount realized in 1884-85 was Rs. 1,11,684, against Rs. 47,581 in the previous year. The following figures show the fluctuations under each minor head for the past two years:—

	Actuals, 1883-84. Rs.	Actuals, 1884-85. Rs.	Increase. Rs.	Decrease. Rs.
Gain by exchange ...	17,529	57,095	39,566	
Premium on bills ...	262	225		37
Unclaimed deposits ...	3,188	5,928	2,740	
Unclaimed bills of exchange of more than three year's standing ...		71	71	
Contributions ...	19,997	12,165		7,832
Sale of old stores and materials.	679	244		435
Miscellaneous fees, fines and forfeitures ...	369	11		358
Miscellaneous ...	5,552	6,626	1,074	
Miscellaneous (Local) ...	5	29,319	29,314	
	47,581	1,11,684	72,765	8,662

The large increase under "Gain by exchange" occurs in withdrawing the Berar surplus cash balance from Bombay to Hyderabad, and is due to the more favourable rates of exchange which obtained between Hyderabad and Bombay during the year 1884-85 than the previous year. The decrease under "Contributions" is due to the fact that the appointment of the Cantonment Magistrate, Secunderabad, is now on the Political list, the recovery hitherto effected in

connection with that officer's salary from the Abkari fund has ceased to be credited to the Hyderabad Assigned Districts. The large increase under "Miscellaneous (Local)" represents the amount of certain popular contributions in the Akola District amounting to Rs. 1,409 for tank work, and in the Amraoti District recovery of Rs. 27,891 from the Akola District in liquidation of the loan made on account of the Khamgaon water works. The other items being of a fluctuating character, the variations call for no special remark.

Railway receipts.

187. The railway collections in 1884-85 amounted to Rs. 1,23,612, against Rs. 1,58,817 in the previous year.

Public works receipts.

188. The receipts for the last two years under Public Works are as follows:—

	Actuals, 1883-84. Rs.	Actuals, 1884-85. Rs.	Increase. Rs.	Decrease. Rs.
Public works in charge of Public Works Officers ...	9,456	8,362	...	1,094
Public works in charge of Civil Officers (Local) ...	...	2,285	2,285	...
Contributions from private persons for works of public utility (local) ...	26,653	...	...	26,653
Miscellaneous (local) ...	105	...	...	105
	36,214	10,647	2,285	27,852

The large decrease under "Contributions from private persons for works of public utility (local)," is explained by the exceptional receipt in 1883-84, of contributions from the Khamgaon Municipality for the Khamgaon water works amounting to Rs. 25,000.

Military receipts.

189. The Military receipts in 1884-85 amounted to Rs. 1,08,074, against Rs. 45,677 in the previous year. The increase occurs chiefly under "Ordnance," owing to the return into Bombay arsenals of stores, consequent on the abolition of the Hyderabad Contingent ordnance depôts, and under "Miscellaneous services" in the item of cash recoveries of service payments in previous years.

Contributions from Local to Provincial.

190. The actuals under this head for 1884-85 amounted to Rs. 1,70,382, those of 1883-84 to Rs. 97,471. This large increase is due to the utilization in 1884-85 of a larger proportion of the accumulated balance of the old jaglia cess on public works through this adjusting head.

Contributions from Provincial to Local.

191. The actuals of 1884-85 amounted to Rs. 80,762, as compared with Rs. 78,657 in the previous year. The object of these contributions was explained in paragraph 190 of the Administration Report for 1882-83.

Disbursements.

192. The entire charges for the year under report, exclusive of excluded local funds,* aggregated Rs. 84,10,354, and compared with the previous year, exhibit an increase of Rs. 5,94,699, as detailed below:—

	Actuals, 1883-84.			Actuals, 1884-85.			Difference between columns 3 and 6	
	Provincial.	Local.	Total.	Provincial.	Local.	Total.	Increase in 1884-85.	Decrease in 1884-85.
	1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Civil ...	69,71,445	4,38,279	74,09,703	85,11,757	4,14,540	89,26,297	5,16,590	...
Railways ...	92,151	...	92,151	76,144	...	76,144	...	16,007
Public Works ...	11,64,267	47,637	12,11,904	11,41,953	1,14,409	12,56,362	44,488	...
Provincial and Local Surplusses and Deficits ...	...	—49,955	—49,955	...	—137,002	—137,002	—87,047	...

Contributions from Provincial to Local ...	78,657	...	78,657	80,762	...	80,762	2,105	...
Contributions from Local to Provincial ...	...	97,471	97,471	...	1,70,382	1,70,382	72,911	...
Total ...	72,82,244	5,33,411	78,15,655	78,28,935	5,82,329	84,10,354	6,10,706	16,007
Deduct decrease ...	...	...	...	...	...	...	16,007	...
Net increase ...	...	...	...	...	...	...	5,94,699	...

The increase against Civil is chiefly under the head of 3. Refunds and drawbacks, Revenue refunds Rs. 93,619; 5. Land revenue, Allowances to district and village officials Rs. 3,08,649; 18. General Administration Resident's Civil Treasury Rs. 22,236; 27. Territorial and Political Pensions Rs. 17,969; 28. Civil furlough and absentee allowances Rs. 22,636; 29. Superannuations, &c., Rs. 25,904; and sundry fluctuations under various heads. The bulk of the increase against Military occurs under 6. Clothing, Rs. 33,414, and 17. Retired officers Rs. 71,416, which is nearly counterbalanced by the large saving under 10. Ordnance, Rs. 51,845.

The following comparison shows an increase in the military expenditure in the year under review:—

		Actuals, 1883-84.	Actuals, 1884-85.	Increase.	Decrease.
		Rs.	Rs.	Rs.	Rs.
1.	Army and Garrison Staff ...	40,733	40,346	...	387
2.	Administrative Staff ...	1,522	1,473	...	49
3.	Regimental Pay, &c. ...	2,187,621	21,88,747	1,126	...
4.	Commissariat Establishments, &c. ...	1,25,335	1,35,607	10,272	...
5.	Stud and Remount Establishment ...	31,358	22,765	...	8,593
6.	Clothing Establishment, &c.	43,903	77,317	33,414	...
7.	Barrack do. ...	91	...	...	91
8.	Administration of Martial Law ...	3,924	3,745	...	179
9.	Medical Establishment, &c.	21,336	21,120	...	216
10.	Ordnance do. ...	1,75,380	1,23,535	...	51,845
14.	Miscellaneous Services ...	75,705	66,485	...	9,220
16.	Rewards for Military Services ...	7,905	6,791	...	1,114
17.	Retired Officers ...	48,479	1,19,895	71,416	...
18.	Military Pensions ...	2,06,954	2,05,595	...	1,359
19.	Widows' Pensions ...	5,274	3,962	...	1,312
		29,75,720	30,17,383	1,16,228	74,565

The increase of Rs. 1,126 under 3. Regimental pay, &c., is due to marching batta having been drawn for the four batteries of artillery, Hyderabad Contingent, which changed stations during the year, as also to butting money paid to Nos. 1 and 4 batteries.

The increase of Rs. 10,272 under "4. Commissariat Establishment, &c." occurs chiefly under the head "Compensation for dearness of provisions," which is due to the rise in the average prices of provisions. An unusual number of horses having been purchased in the year 1883-84, the requirements under this head were reduced in the year under review, resulting in a decrease of Rs. 8,593, under "5. Stud and Remount." The increase of Rs. 33,414, under "6. Clothing establishment, &c.," is due to slightly higher rates having been charged for clothing supplied to the Hyderabad Contingent by the Madras Clothing Department, and to the increase of clothing supplied during the year.

The decrease of Rs. 51,845 under "10. Ordnance Establishment, &c.," occurs partly under "Salaries," owing to the abolition of the Hyderabad Contingent ordnance depôts, and partly under "Supplies," the quantity of ammunition obtained in the previous year (1883-84) being exceptionally large.

The decrease of Rs. 9,220 under "14. Miscellaneous Services" occurs chiefly under furlough pay of military and medical officers paid in England, and is due to a lesser amount of furlough allowances being disbursed in the year under review than in the previous year. There is also a slight decrease under "Travelling expenses of officers and men" and "Gratuities to discharged native soldiers."

The decrease of Rs. 1,114, under "16. Rewards for military services" is owing to the death of some recipients, and to certain rewards remaining undisbursed.

The increase of Rs. 71,416 under "17. Retired Officers" is due to the pensions of certain officers of the Hyderabad Contingent for the years 1883-84 and 1884-85 having been adjusted in the accounts of 1884-85.

The decrease of Rs. 1,359 under "18. Military Pensions" is consequent on the death of some of the pensioners.

The decrease of Rs. 1,312 under "19. Widows' Pensions" is owing to deaths and to pensions due not being disbursed during the year.

REVENUE AND FINANCE OTHER THAN PROVINCIAL.

193. The following is an abstract of the total income and expenditure of the "Excluded Local Funds" as contrasted with the figures of the previous year:— Excluded Local.

Class of Funds.	Income.		Expenditure.	
	1883-84.	1884-85.	1883-84.	1884-85.
	Rs.	Rs.	Rs.	Rs.
Town Fund	1,81,379	2,45,111	2,14,296	2,41,457
Bazaar Cess of the Hyderabad Assigned Districts	81,270	73,148	1,01,665	1,27,080
Municipal Funds	1,20,330	1,12,408	1,44,478	1,38,647
Hyderabad Contingent Cantonment Funds	1,60,629	2,32,544	1,57,526	2,29,195
Secunderabad Cantonment Funds ...	85,140	1,03,369	90,766	90,858
Total ...	6,28,748	7,66,580	7,08,731	8,21,237
Opening balance ...	5,22,355	4,42,372	...	...
Closing balance ...	...	...	4,42,372	3,87,715
Grand Total ...	11,51,103	12,08,952	11,51,103	12,08,952

194. The surplus cash balance in the Berar treasuries for the season 1885, available for withdrawal to Hyderabad, was estimated at Rs. 56,84,000, against Rs. 63,36,000 in 1884. This sum, as in previous years, was transferred to the Bank of Bombay, to the credit of the Hyderabad Administration, for eventual withdrawal to Hyderabad by means of supply bills drawn on the Bank according to requirements. Details of the withdrawal of this surplus by supply bills of the Accountant General, Bombay, are shown below:— Supply bill operations.

	Akola.		Amraoti.		Total.
	Rate.	Amount.	Rate.	Amount.	
		Rs.		Rs.	Rs.
In January 1885 ...	Par. ...	1,75,000	1 anna per cent.	75,000	2,95,000
			½ do. ...	45,000	
In February 1885 ...	Do. ...	6,75,000	½ do. ...	50,000	10,40,000
			1 do. ...	75,000	
			Par. ...	2,40,000	
In March 1885 ...	Do. ...	11,95,000	1 anna per cent.	75,000	25,99,000
			½ do. ...	50,000	
			Par. ...	12,79,000	
In April 1885 ...	Do. ...	5,75,000	Do. ...	4,00,000	9,75,000
In May 1885 ...	Do. ...	2,65,000	Do. ...	5,10,000	7,75,000
Total ...		28,85,000		27,99,000	56,84,000

The entire available surplus for the year having been carefully estimated before the 31st March, there was no further surplus available for withdrawal in terms of Financial Resolution No. 2433, dated 27th August 1873.

Remittance account with the Government of India.

	Rs.	Rs.

				13,82,885
Balance in favour of His Highness the Nizam on 31st March 1885				44,73,606

This balance includes the sum kept in the Hyderabad and Berar treasuries to meet current expenses, which is termed "the working cash balance," and is at present fixed at 35 lakhs.

Since the close of the year under report a sum of Rs. 16,50,000 has been paid to His Highness the Nizam in advance of the surplus for 1884-85, and the balance of the actual surplus for that year, viz. Rs. 1,70,501, will now be paid in accordance with the Government of India, Financial Resolution No. 2264, dated 12th July 1882, making an aggregate payment in 1885-86 of Rs. 18,20,501, and this sum, though not appearing in the accounts now rendered, has nevertheless to be placed as a set-off against the accrued balance at the credit of His Highness the Nizam's Government of Rs. 44,73,606 as shown above.

CHAPTER VI.

VITAL STATISTICS AND MEDICAL RELIEF.

SECTION I.

Births and Deaths.

197. There was no change in the system of registration of vital statistics in the year under report. It has been in operation for the past two years, and experience has shown that it works well. System of registration.

198. The births registered in the province during the year amounted to 108,725, or 2,804 more than in the previous year. The birth-rate in proportion to population was 41·3 *per mille* as compared with 40·3 in 1883. Of the total births, 56,143 were males and 52,582 females, giving a proportion of 106·8 of the former to 100 of the latter. Of the total number of births registered in the year under report, 21·1 per cent. were in the first, 20·6 in the second, 29·1 in the third, and 29·2 in the fourth quarter. In districts, the birth-rate varied from 45 per 1,000 in Buldana, to 37 in Wun, and 37·8 in Basim. In towns the mean birth-rate was 38·7, while in rural circles it was 41·6 per 1,000 of the population. This, the Sanitary Commissioner remarks, "is opposed to the experience of European countries where it is found that the inhabitants of the urban districts are more prolific than the more sparsely scattered inhabitants in the rural." Births.

199. The number of still-births registered was 4,429, of which 2,581 were males and 1,848 females, or in the proportion of 100 female still-births to 139 male. This disparity of numbers is not peculiar to Berar, and has been attributed, the Sanitary Commissioner remarks, to the greater difficulty of child-birth with male infants owing to their superior size. Still-births.

200. The birth-rate far exceeded the death-rate in every district, the excess varying from 14·2 *per mille* in Akola to 19·3 in Buldana, the average for the province being 16·7. The total number of deaths registered was 64,808, or 70,273 less than in 1883, or in the proportion of 24·6 per 1,000 of the population as compared with 51·3 in the past year, and 29·8, the mean of the previous five years. But, as the figures in the succeeding paragraph show, cholera was almost absent from the province during 1884, whereas in 1883, 27,897 deaths were recorded from that disease. Still the year was in all respects a remarkably healthy one. Of the 64,808 deaths which occurred, 33,899 were males and 30,909 females; or in the proportion of 109·7 male to every 100 female deaths. According to districts mortality was high in Amraoti and low at Basim; the figures being 27·2 and 19·2, respectively, per 1,000 of the population. Of the total deaths 21·3 per cent. occurred in the first, 19·6 per cent. in the second, 25·7 per cent. in the third, and 33·4 per cent. in the last quarter of the year. Taking the deaths according to age, it is observed that 31·7 per cent. occurred in infants under one year of age, 23·7 per cent. between one and five years, and 13 per cent. among those above sixty years. The high rate of infantile mortality is attributed to the general insanitary condition of the people and to the large proportion of the population, who are out of reach of medical aid. Distributing the total deaths according to class or religion, the results show that 8·3 *per mille* occurred amongst Christians, 24·2 amongst Mahomedans, 24·6 amongst Hindus, and 25·5 amongst "other classes." Deaths.

201. The several causes which contributed to the mortality of the year are shown below, against which the figures of the previous year, which was one of excessive sickness and mortality, are also compared:— Causes of death.

	1883.	1884.		1883.	1884.
Cholera ...	27,897 ...	87	Bowel-complaints ...	19,044 ...	9,519
Small-pox ...	3,853 ...	615	Injuries ...	1,073 ...	959
Fevers ...	33,593 ...	30,551	Other causes ...	29,621 ...	23,277

VITAL STATISTICS AND MEDICAL RELIEF.

The following table shows the deaths from different causes according to districts with the ratios *per mille* for the past two years :—

Districts.	Cholera.				Small-pox.				Fevers.				Encephalopathy.				All other causes.			
	Males.	Females.	Ratio per mille in		Males.	Females.	Ratio per mille in		Males.	Females.	Ratio per mille in		Males.	Females.	Ratio per mille in		Males.	Females.	Ratio per mille in	
			1883.	1884.			1883.	1884.			1883.	1884.			1883.	1884.			1883.	1884.
Zemmeli	...	...	11·0	...	40	42	2·2	1·1	1,028	4,383	20·7	22·5	735	651	9·4	7·9	7,159	11·07	37·4	37·4

SECTION II.

Immigration and Emigration.

202. One thousand three hundred and sixty persons are reported to have come into the Wun District, in connection with land newly taken up and villages given out on lease, while 876 persons are said to have left it temporarily for trade, harvests, and other reasons.

SECTION III.

Medical Relief.

Number of hospitals and dispensaries.

203. There was one addition to the number of hospitals and dispensaries in the province, giving a total of 42 in the year under report, or one institution to 421·7 square miles, and to 63,633 of the population.

Staff.

204. The staff in charge or attached to the medical institutions consisted of four surgeons, one honorary surgeon, one apothecary, 40 hospital assistants, and two passed medical pupils.

Number of patients treated.

205. The total number of in and out-door patients treated during the year increased by 10,829, or from 195,364 in 1883, to 206,184 in the year under notice. Taking separately the in-patients, who numbered 1,800 in all, there was a falling off, as compared with 1883, of 337 in the number treated due to the comparatively healthy season and to the absence of cholera. Of the total admitted 87 per cent. were cured, 2·3 per cent. were relieved, 3·7 per cent. died, and the remainder were discharged otherwise. The average number of days that each in-patient was under treatment was 12·2, against 12·5 in the previous year.

Out-patients who applied for relief numbered 204,384, or 11,157 more than in 1883. Of these 52 per cent. attended personally, and 18 per cent. were represented by friends. The average number of days each patient attended hospital was 2·9, as against 3 in the previous year.

Chief diseases treated.

206. Amongst in-door patients fevers and injuries were, as usual, the chief causes of admission, and amongst out-door patients fevers, ophthalmia, skin diseases, ulcers, respiratory affections and worms. Of the total admitted 20·1 per cent. were from fevers. In the order of prevalence, ophthalmia stands second on the list. "This affection," writes the Inspector General of Dispensaries, "is most rife in the hot-weather, due to irritation from the glare and to the impalpable dust blown about at this season which may contain in a desiccated state, septic or other irritant and putrid matter derived from a filthy village site." The number

of out-patients treated for this disorder was 9·3 per cent. Next in order were skin diseases, which were unusually prevalent during the past year, and gave a ratio of 8·1 per cent. Most of the other diseases retain the same relative proportions year by year. In the year under notice there was, however, a falling-off in the number treated for dysentery and diarrhœa, due to the absence of cholera in an epidemic form.

Surgical operations.

207. The number of operations performed was 290 major and 7,328 minor, as compared with 291 and 7,660 in 1883. Of the persons who underwent the major operations 267 were cured, 6 were relieved, 8 died, 9 were discharged otherwise, and 9 were remaining under treatment. The bulk of the operations consisted in the setting of fractures.

Caste and sex.

208. Of those treated 50·6 per cent. were male and 15·3 per cent. female adults and 34·1 per cent. children. Only 3 per cent. were Europeans, 1 per cent. Eurasians, 59·4 per cent. Hindus, 32·7 Mahomedans, and 6·6 per cent. other classes. These percentages are almost the same as in the preceding year.

Finance.

209. The subjoined statement compares the income and expenditure for the past two years :—

	1884.			1883.		
	Rs.	a.	p.	Rs.	a.	p.
Income.						
Invested and floating balance on 1st January 1884	39,305	15	6	54,859	15	1
Salaries and special allowances from Government	70,311	1	5	70,456	0	4
Cost of medicines, registers, &c., supplied by do.	6,419	12	5	6,556	7	2
From Local Funds and Municipal Committees	12,629	13	11	21,655	5	11

Repairs and construction of buildings	5,422	6	2	16,842	9	10
Sums invested during the year	...		...	29,263	6	5
Total	89,618	7	6	1,30,526	3	10

SECTION IV.

Sanitation.

210. Steady progress is being made in works of sanitary improvements in municipalities, and special attention is paid to conservancy, drainage, and water-supply. The amount spent under these three heads was Rs. 36,484. In civil stations, non-municipal towns, and villages, the sum expended on conservancy and sanitary improvements was Rs. 95,918. With regard to village sanitation, the Sanitary Commissioner reports:—"Since the introduction of the Resident's Book Circular XVI. of 1880, laying down a code of rules for village sanitation, considerable improvement has undoubtedly been effected, and where these rules are observed, the village site is clean, and the surroundings undefiled. In many villages, however, these rules are still a dead letter." He adds:—"the minds of the people are gradually becoming familiarized with the fact that what is required under these rules is for their own benefit, and no opportunity is lost of impressing this upon them, and that it is not merely for a whim of their rulers that these simple sanitary precautions are enforced."

SECTION V.

Vaccination.

Strength.

211. The vaccination establishment was composed as in the previous year of seven native superintendents, five head vaccinators, five first class, twelve second class, and twenty-one third class vaccinators, six apprentices and seven peons. The work performed by the establishment is reported to have been, on the whole, satisfactory, and their conduct towards the people was, as a rule, kind and conciliatory.

Work done.

212. The subjoined statement shows the amount of vaccination work done by the different establishments during the year:—

Establishment.	Population.	Total vaccinated.	Primary.		Re-vaccination.		Percentage of success.		Persons successfully vaccinated per 1,000 of population.
			Total.	Success.	Total.	Success.	Primary.	Re-vaccination	
Special Vaccination Establishment ...	2,394,425	93,002	92,920	88,615	82	13	95·3	15·8	37·0
Dispensary Vaccination ...	224,144	7,617	7,585	6,781	82	39	90·	47·6	30·4
Vaccination by Municipalities ...	11,449	515	515	409	...	...	79·42	...	35·7
Total ...	2,630,018	101,134	100,970	95,805	164	52	94·9	31·7	36·4

The above figures show that there was an increase of 14,413 in the number of operations over 1883-84, and that the ratio of successful operations per 1,000 of the population rose from 30·3 to 36·4. In primary vaccination, the percentage of successful operations was 94·9, as compared with 92·7 in the previous year.

Work done by special establishment.

213. The operations performed by the special vaccination establishment during the past two years are exhibited in the table below, from which it will be seen that both as regards the number vaccinated and the number of successful operations, the results are satisfactory:—

	Primary vaccination.			Re-vaccination.		
	No. vaccinated.	No. successful.	No. unsuccessful and unknown.	No.	Successful.	Unsuccessful and unknown.
1883-84 ...	78,994 ...	73,453 ...	5,541 ...	210 ...	73 ...	137.
1884-85 ...	92,920 ...	88,615 ...	4,305 ...	82 ...	13 ...	69

Taking 42 as the total number of vaccinators at work, the average number of operations performed by each was 2,214, against 1,887 in 1883-84 and 1,849, the average for the past five years, and the percentage of success was 95·3, against 92·9 in the previous year. Of the total number of those vaccinated and re-vaccinated 47,193 were males and 45,809 females. 72·9 per cent. of the total number of successful vaccinations were performed upon infants under one year of age, and 25·7 per cent. upon children between the ages of one and six years. "The decrease in the number of unsuccessful and unknown cases," writes the Superintendent of Vaccination, is "satisfactory, and indicates more careful work on the part of the vaccinators and better supervision on the part of Superintendents." He continues:—

"The new system under which vaccinators work for a longer period and visit the villages in their circles more frequently, may also have contributed to this result, as fewer children can now escape verification, and those in which the operation has proved doubtful or unsuccessful are secondarily operated upon. Formerly the results of these unsuccessful cases were frequently not recorded, though seen by the vaccinator, and they thus went to

swell the number of cases returned as unknown, the object being to show as little unsuccessful work as possible, the men apparently overlooking the fact that an unknown case is reckoned as unsuccessful in calculating the percentage of success."

With regard to the small number of re-vaccinations, the same officer explains "there is great reluctance amongst the people to re-vaccination, and therefore it is not considered advisable to push the work in this direction with the feelings of the people so much against it. If infantile vaccination is well carried out, and a fair proportion of children under one year of age annually protected, it is all that can be expected for the present, and when the people begin to see and appreciate more fully the benefits of vaccination then re-vaccination may be resorted to more generally."

Dispensary vaccination.

214. The number of persons vaccinated at dispensaries increased from 7,024* in 1883-84 to 7,617 in the year under report, and the successful operations from 6,275 to 6,820. With reference to these figures the Superintendent of Vaccination writes:—

* Includes re-vaccinations.

"In judging of the work done by hospital assistants at dispensaries, it must be remembered that their operations are entirely confined to the dispensary town, so that the number operated upon cannot be taken as a fair gauge in comparing this work done at these institutions, which must vary according to population and the number of children requiring vaccination. The most correct gauge of the amount of work done is obtained by comparing the proportion of the population or of the annual birth-rate successfully vaccinated.

"The percentage of population and of estimated births protected at dispensaries was 20·4 and 60·1, as compared with 37· and 60·0 respectively, the average attained by the special vaccination department.

"From this it is evident that relatively the work performed at dispensaries is very fair. This result has not, however, been attained without much driving of hospital assistants, who complain that they cannot find the time to go about from house to house, and that no help can be obtained by them from tahsil and village officials."

Cost.

215. The total cost of the establishment amounted to Rs. 16,880-13-7, or an excess of Rs. 414-7-1 over 1883-84; but the average cost of each successful operation fell from Rs. 0-3-6 in the preceding to Rs. 0-3-0 in the year under report.

CHAPTER VII.

INSTRUCTION.

SECTION I.

Education.

No. of schools and scholars.

216. The year under report was one of progress, as will be seen from the statistics given below for the past two years:—

Description of schools.			No. of schools. 1883-84.	No. of schools. 1884-85.	No. of scholars. 1883-84.	No. of scholars. 1884-85.
School Education.—General.						
Public Institutions. Secondary.	Government, high	Boys	2	2	338	266
	Do. middle	Boys	22	24	4,555	5,188
Primary	Government	Boys	429	477	23,872	26,293
		Girls	10	24	310	751
	Municipal Board	Boys	1	1	67	46
	Under private management. Aided	Boys	200	217	4,252	4,333
		Girls	4	5	99	162
	Unaided	Boys	77	98	1,021	1,124
Private Institutions.	Advanced (Arabic or Persian)	Boys	5	18	126	257
	Elementary	Boys	90	82	1,303	1,228
		Girls	1	1	5	5
School Education.—Special						
Training school for masters			1	1	62	74
		Total	842	950	35,810	39,727

There is thus an increase of 108 in the number of schools and 3,917 in the number of boys attending them. With regard to the former increase it must be mentioned that it is really not so large as it appears, because in 1883-84 "branch schools" in small villages were excluded from the report, and their attendance was included in that of the "main schools." If the "branch schools" had been treated as independent institutions the number of schools in that year would have been shown as 881. The distinction between "branch schools" and "main schools" has since been done away with, and the number shown in the above statement against 1884-85 represents the real number of schools in the province. Moreover the re-classification of standards referred to in paragraph 228 of the last Report was only brought into full operation during the year under notice.

During the year, 84 new schools were opened and 36 old branch schools were converted into independent schools; while six of the old schools were closed for want of sufficient attendance. The total increase in the number of scholars was 3,917, and the Director of Public Instruction referring to it writes:—

"In the last year's Report it was shown that the schools existing at the close of the year 1883-84 afforded a means of acquiring primary education to at least 44 per cent. of the population of school-going age, and that not more than 17 per cent. took advantage of these facilities. There were, therefore, two ways in which primary education could be extended:—*first*, by opening additional schools, and, *secondly*, by increasing the attendance of those that already existed. The numbers have increased in both these ways during the year, and the result is that the percentage of scholars to the population of school-going age has risen from 16·9 to 18·7 in the case of males, and from 0·35 to 0·6 in the case of females. Taking the new schools that were opened during the year into consideration, I find that 778 villages and towns in the province have schools of some kind, that facilities for instruction are provided at their doors for nearly 48 per cent. of the population, and that there are 706 villages, each with a population of 500 and more, which have no educational institutions of any kind."

Schools in each district.

217. The educational condition of each and all the districts, as far as boys are concerned, is shown in the following table:—

District.	Number of schools for boys.*		Number of boys.		Average number of square miles to every school.		Percentage of scholars to population of school-going age.	
	March 1884.	March 1885.	March 1884.	March 1885.	March 1884.	March 1885.	March 1884.	March 1885.
Akola	213	229	9,290	9,676	12·5	11·6	20·1	20·9
Buldana	148	167	5,500	6,297	18·9	16·8	16·3	18·6
Basim	80	101	3,179	3,610	37	29·3	11·5	13
Amraoti	167	200	8,647	9,751	10·5	13·8	19·3	21·8
Wun	91	95	3,238	3,509	42·9	41·1	10·7	11·6
Ellichpur	128	128	5,270	5,794	20·5	20·5	21·6	23·8
Total	827	920	35,124	38,637	21·4	19·3	17	18·7

The above figures clearly show that there has been an improvement in every respect in all the districts.

University education.

218. The results achieved by the Berar pupils studying in the Bombay Colleges were more satisfactory in 1884-85 than in the previous year. Three passed the Previous and three the First B. A. Examinations. Besides these six, one ex-scholar studying in the Science College at Poona passed the First Examination in Civil Engineering.

Secondary schools.

219. Under this head there were 26 institutions, against 24 in 1883-84. Of the former number two were for the high school course, and 24 for the middle. In the following table the chief results for the two years are compared:—

Schools.	Number on roll on 31st March.		Average daily attendance during		Direct expenditure from Provincial revenues.		Fees.		Town and Municipal funds and subscriptions.		Total.		Annual cost of educating each pupil. Total cost.		Cost to Government.	
	1884.	1885.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.
					Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Akola High School	244	232	197	187	11,490 12 2	9,824 12 7	674 8 2	1,234 8 5	—	—	12,165 4 4	11,058 0 0	7 12 11	7 14 7	6 9 2	5 10
Amraoti High School	198	198	186	198	8,964 12 2	8,968 3 4	1,017 12 8	1,201 12 0	—	—	9,982 4 0	10,167 3 4	5 7 1	5 12 2	4 12 2	4 4
Middle or Anglo-Vernacular Schools	4,293	4,596	3,132	3,501	40,302 4 0	37,146 4 0	4,196 12 0	4,226 8 0	4,000 0 0	4,000 0 0	48,498 12 0	45,372 12 0	15 4 10	12 11 6	12 10	9 9
Total	4,735	4,826	3,515	3,777	60,756 8 4	56,938 4 11	6,887 8 12	6,662 17 4	4,000 0 0	4,000 0 0	70,645 8 4	67,598 12 10	20 0 10	18 11 11	17 5 6	13 7 4

While the average daily attendance in the two high schools during the year under report was better than in the previous year, the number on the roll on the 31st March 1885 was less. Previous to the reclassification of standards sanctioned by the Resident in 1883-84, the high schools, in addition to standards VIII. to XI. contained a class under standard VII., which is the highest of the middle school course; and they had also Mahomedan classes under lower standards. During the year under report this was changed, and the high schools are now attended only by boys who study the high school course. The teaching of the VII. standard has been introduced into most of the middle class schools, and the Mahomedan classes have been transferred to the Anglo-Hindustani schools started during the year. The study of Persian and Urdu in the Akola High School has been abolished, but it is continued at Amraoti.

Referring to the statistics in the above table, it will be seen that greater progress in secondary education has been made during the year and at a less cost to Government than in 1883-84; "but," remarks the Director of Public Instruction, "the most remarkable feature of the statement is, that in consequence of

the enhanced rates having been introduced during the year, a larger share of expenditure has been borne by fees and the cost to the State has been considerably reduced in all the classes of secondary schools."

High schools, Matriculation examination.

220. The year under report is noteworthy as that in which the highest number of pupils passed the matriculation examination of the Bombay University. Of 15 candidates who appeared 11 passed, 6 from the Amraoti and 5 from the Akola High School. One of the eleven obtained the "Sinclair Prize" for proficiency in Sanskrit, and a Mahomedan candidate gained the scholarship of Rs. 200 per annum awarded by the Bombay University to the Mahomedan candidate who passes the matriculation examination with the highest number of marks. With reference to this pupil Mr. Shriram B. Jatar, the Director, reports, "it is a matter for congratulation that the Berar Mahomedan stood in the examination list above all his co-religionists who appeared from the Bombay Presidency. This boy obtained also one of the Berar scholarships, as he stood third in the order of merit amongst the Berar candidates, and it is remarkable that, though a Mahomedan, he took up Sanskrit as his second language and passed in it successfully."

In other than the matriculation class, the results of the annual examination are reported to be not as good as those of last year. Out of 160 boys examined, only 95 passed, against 98 out of 130 in 1883-84. This unsatisfactory result is partly attributable to changes in the staff of teachers in the middle of the academical year, and to the fact that for nearly a month the staff at Akola was below its strength.

Middle or Anglo-vernacular schools.

221. These schools rose from 22 in 1883-84 to 24 in the year under report, and the pupils from 4,335 to 5,188. The number learning English increased from 1,044 to 1,372, and the number of passes from 359 to 464. School fees also increased from Rs. 6,055-6-9 to Rs. 8,368-10-9, and the cost to Government of educating each pupil fell from Rs. 11-10-2 to Rs. 10-9-8. In regard to the general condition of these schools, it may be concluded from the published Report for the year, that most of them have done well.

Primary schools.

222. Primary schools in Berar are divided into Government schools and Indigenous schools. These again are divided into schools for boys and schools for girls. The following table affords information regarding schools maintained by Government for boys for the past two years:—

Year.	No. of schools.	No. of scholars.	Average daily attendance.	Fee receipts.	Total expenditure.	Cost of educating each pupil. Total cost.	Cost to Government.	Number of pupils examined.	Number passed.
				Rs.	Rs.	Rs. a. p.	Rs. a. p.		
1883-84 ...	429	23,872	16,180	21,837	1,49,935	6 6 5	3 5 1	14,697	8,881
1884-85 ...	477	26,293	18,425	24,079	1,57,685	6 5 9	3 2 2	16,201	10,276

The above figures speak for themselves. Every column shows a satisfactory advance over the previous year.

Aided schools.

223. There were six schools which received monthly grants from Government. Of these five are reported to be doing better than in the previous year. The number of pupils on the rolls was 247, and the average daily attendance 148. Two of these schools were opened for the education of girls; but one has since been converted into a Government school, because its patrons declined to continue their support. In the annual examination 80 pupils passed in the primary standards. The total monthly grants-in-aid for these schools aggregated Rs. 73-15-4.

224 Statistics relating to indigenous schools also show progress, as will be seen from the following facts:— Indigenous schools.

1. The number of these schools rose from 275 in 1883-84 to 316.
2. The number inspected and examined from 270 to 312.
3. The number of pupils examined from 2,197 to 2,735.
4. The number of schools which earned proficiency and capitation grants and prizes from 226 to 248.
5. Number of pupils who earned grants-in-aid from 1,468 to 1,554.
6. The amount of proficiency grants rose from Rs. 2,258-7-0 to Rs. 2,510-9-0.
7. Capitation grant from Rs. 840 to Rs. 1,097; and
8. Prizes from Rs. 307-13-9 to Rs. 341-14-3.

The Inspecting Officers report that incompetent masters are being gradually superseded by men trained in our schools, and that the indigenous institutions are steadily improving in efficiency. But the Director remarks "it must however be confessed that although the indigenous schools are improving, their decided inferiority to the State schools, which must remain as long as competent masters prefer the stability of Government service to the uncertain tenure of an indigenous mastership, is recognized both by district officers and the people."

225. It is satisfactory to be able to report that the benefits of female education are beginning, though perhaps the progress is slow, to be appreciated in Berar. Including five classes which were attached to boys' schools in 1883-84, and which are now shown separately for the first time, the number of Government schools for the education of girls has risen from 15 in that year to 24 in the year under report, the number of scholars from 310 to 751,* and the average daily attendance from 181 to 301. Female education.

* Includes two boys.

The total amount of fees collected rose from Rs. 45-10-9 to Rs. 85-15-0, and the expenditure from Rs. 2,803-11-8 to Rs. 3,824-13-8, while the annual cost of educating each pupil fell from Rs. 9-5-0 to Rs. 8-5-7. Instruction in these schools is imparted up to the 4th standard, and the result of the annual examination shows that 147 passed in the several standards, or nearly double the number in the previous year. The following table compares the state of female education during the year with that of its predecessor:—

Institutions.	No. of institutions.	No. of pupils attending			No. of passes in standards				
		Female schools.	Boys' schools.	Total.	I.	II.	III.	IV.	Total.
Government schools ...	24	749*	152	901	94	36	14	3	147
Aided schools	5	162	9	171	13	10	2	...	25
Private schools	1	5	11	16	...	...	...	...	...
Total ...	30	916	172	1,088	107	46	16	3	172
Total for 1883-84 ...	20	525	161	686	61	21	15	12	109

* Excluding two boys attending the Yeotmal girls' school.

226. Statistics relating to the working of the training college are given below for the past two years:— Training College.

Years.	No. of students at the end of the year.					Average No. of students on roll during the year.			No. of students examined and passed in the 1st year's course and certificate examination.																								No. of students who obtained employment.		
									1st year's course.								Certificate examination.																				
	Marathi side.		Hindustani side.						Examined.					Passed.			Examined.					Passed.																
	Stipendiary.	Free.	Stipendiary.	Free.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.	Marathi side.	Hindustani side.	Total.
1883-84 ...	44	2	23	...	69	41	15	56	29	9	38	22	24	5	29	20	6	26	10	4	14	14	2	16													
1884-85 ...	39	...	35	...	74	54	14	68	32	6	38	8	8	16	16	22	5	27	17	4	21	21	4	17													

The above figures show improvement over the previous year. The small decrease from 19 to 17 in the number of students who obtained employment is nominal, for immediately after the close of the year eleven more were employed.

Castes of students attending Government schools.

227. A classification of pupils in Government schools according to race or creed gives for the past two years :—

	1883-84.	1884-85.
Brahmins	15·3 ...	14·8
Other Hindus	41·4 ...	41·
Kunbis	25·9 ...	25·9
Low castes	2·3 ...	2·8
Mahomedans	15·03 ...	15·4
Christians	0·06 ...	0·08
Parsis	0·04 ...	0·05

European and Eurasian education.

228. The only school at Akola for the education of the children of Europeans and Eurasians was closed during the year, but one has lately been opened at Buldana.

Mahomedan schools and education.

229. The number of Mahomedans attending Government schools has increased during the year from 4,340 to 5,006, or by 15·3 per cent. The number in all the classes of schools has risen from 5,098 to 5,923, or by 16 per cent. The percentage of Mahomedan pupils to the Mahomedan population of school-going age has increased from 34·3 to 39·4 in the case of males, and from ·67 to 1·3 in the case of females. The number of Mussulmans studying in the Marathi schools has risen from 1,665 to 1,711. As a measure of encouragement, two Anglo-Hindustani schools were opened at Akola and Amraoti capable of educating to the standard prescribed for middle class schools. During the year the number of Hindustani schools rose from 55 to 62, and the attendance from 2,795 to 3,448. The number of boys examined increased from 1,191 to 1,490, and those who passed from 707 to 1,051. Thus the number of Mahomedan children attending these schools increased by 23·4 per cent.

Physical education.

230. There is nothing fresh to be said in respect of physical education, the taste for which is spreading throughout the province. There are now 188 gymnasia against 160 in the previous year, and this increase has been necessarily followed by the employment of additional gymnastic teachers.

Bonuses to teachers.

231. In the Report for the past year allusion was made to certain rules for the grant of bonuses to school-masters. These rules are reported to have worked well and to have given a healthy stimulus to the exertions of the masters on lower pay.

Boarding establishments.

232. The average monthly number of boarders in the two establishments connected with the high schools at Akola and Amraoti was 105, against 95 in 1883-84. The average monthly cost of each boarder was Rs. 4-13-11 at Akola, and Rs. 4-15-5 at Amraoti for Hindus, while the cost for Mahomedans at Amraoti was 2-15-1. These figures are less than those of the previous year. A boarding and lodging house for Mahomedan pupils of the Training College was opened on the 19th March 1885 with 8 boarders. In the Hindu boarding-house, the average number of boarders was 53, whose monthly cost was Rs. 4-3-9, against Rs. 5-1-8 in 1883-84.

School buildings.

233. During the year Rs. 51,821-10-10 were spent on the construction of school-houses, and Rs. 12,504-12-5 on repairs to existing buildings. For the sum spent on school-houses, 20 buildings have been completed and 39 are under construction.

Popular contributions.

234. Popular contributions continue to be received year after year. In the year under report Rs. 5,271-13-9 were received, of which Rs. 2,199-5-6 were on account of school houses, Rs. 663-14-0 for repairs to school-houses, Rs. 40 towards the salary of teachers, Rs. 513-15-6 for school furniture, Rs. 292-10-6 for gymnastic apparatus, Rs. 463-13-3 as prize books and slates to pupils, Rs. 744-13-6 as fees for poor boys, and Rs. 352-5-6 for other miscellaneous purposes.

School fees.

235. The total amount of school fees increased from Rs. 29,614-7-0 in 1883-84 to Rs. 35,267-2-9, or Rs. 5,652-11-9 more. This increase has taken place in all the classes of schools, and is due in the case of the high and middle schools to enhanced rates for secondary education, and in the case of primary schools, to increased attendance as well as to larger numbers studying the higher standards, for which higher rates have been imposed. What is most noteworthy is that the increase has taken place, notwithstanding the exemption in favour of Mahomedans and low caste pupils, ten per cent of whom are taught free of charge.

Expenditure of the Department.

236. The total expenditure on education amounted to Rs. 3,73,715-2-10, of which Rs. 2,21,132-14-2 were from provincial revenues, Rs. 1,18,920-10-4 from educational cess, Rs. 27,779-2-0 from fees, Rs. 1,136-0-5 from town fund, Rs. 1,673-15-8 from municipal funds, and Rs. 3,972-8-3 from subscriptions. The following table compares the expenditure under the several heads for the past two years:—

Head.	1883-84. Amount. Rs. a. p.	1883-84. Per-centage.	1884-85. Amount. Rs. a. p.	1884-85. Per-centage.
Direction	20,225 9 9	5·7	20,157 6 9	5·4
Inspection	27,500 15 5	7·8	26,363 8 9	7·
Government: High schools for boys ...	21,988 11 10	6·2	19,436 7 4	5·2
Government: Middle schools for boys ...	55,133 15 2	15·6	56,336 14 8	15·07
Government: Primary, For boys ...	1,49,935 5 9	42·6	1,57,685 1 9	42·2
Government: Primary, For girls ...	2,803 11 8	0·8	3,824 13 8	1·02
Municipal board schools for boys	77 9 1	0·02	122 15 1	0·03
Grants-in-aid to public schools under private management ...	5,582 9 8	1·6	4,915 5 6	1·3
Government training schools for masters	8,296 4 3	2·4	8,376 1 4	2·3
Scholarships	8,578 0 0	2·4	9,026 11 0	2·4
Encouragement to Vernacular literature	120 0 0	0·03	150 0 0	0·04
Book Depôt	1,570 15 3	0·4	3,753 10 6	1·
Buildings	40,361 12 7	11·4	51,821 10 10	13·9
School furniture	7,217 6 9	2	7,633 7 9	2·04
Miscellaneous	3,441 9 7	1	4,110 15 11	1·1
Total	3,52,834 6 9		3,73,715 2 10	

The small decrease under Direction does not call for any remark; that under Inspection is due to the minimum pay of the Educational Inspector's appointment having been drawn during the time that it was held. The place was also vacant for rather longer during the year than in 1883-84. The falling off under High Schools has been caused through the Officiating Head and First Assistant Masters of the Akola High Schools drawing less salaries consequent on the departure on furlough of the permanent Head Master, and also through the expenditure being less than in 1883-84. The increase under Middle Schools is due to the establishment of two Anglo-Hindustani schools about the middle of the year, and that under Primary Schools for boys and girls to the opening of new schools. The percentage of expenditure on primary education has very slightly decreased (from 42·6 to 42·2); but even this slight falling-off is more apparent than real, inasmuch as the large excess of expenditure on buildings over that of the preceding year has brought down this percentage, and the buildings were mostly constructed from the cess for accommodating primary schools. The small decrease under Grants-in-aid is owing to a fixed monthly grant having been drawn for only one Eurasian school during a portion of the year. The increase under *Book Depôt* is due to large amounts having been spent in printing copies of three school books sufficient to last for several years. The increase under School-houses is due to a larger number of buildings having been constructed during the year than in 1883-84. The variations under other heads are too small to deserve any notice.

SECTION II.

Literature and the Press.

Vernacular literature.

237. The 'Shetkari' or the Agriculturist in Marathi, continues its existence. A magazine entitled the 'Berar School Paper' has been started by the Educational Department, and two numbers of this paper were issued during the year. There were besides these two poetical works submitted to the Committee for the Encouragement of Vernacular Literature. One of these is in course of circulation among the members, and the other, though recommended for a reward, was not sanctioned as the tone of some of the verses was objectionable.

Press.

238. There has been no change in the number of Presses or in the number of Newspapers published in the province. All the four Newspapers mentioned in the last Report continue to be published.

Text Book Committee.

239. Some changes were effected during the year in the *personnel* of the Text Book Committee by the addition of certain gentlemen in substitution of others who have either left the province or ceased to be on the committee.

Book depôt.

240. With a central book depôt at Akola and 27 branches, the purchase and distribution of books were carried on satisfactorily. At the beginning of the year under report there were, in the several depôts, 103,138 volumes, valued at Rs. 15,361-13-7. During the year 89,466 books and maps of the value of Rs. 14,879-10-9 were purchased, and 76,292 books and maps valued at Rs. 12,830-0-3 were sold, leaving on hand at the end of the year 116,312 books and maps, of the value of Rs. 17,411-8-1. The amount of discount realized by the purchase of the books is estimated at Rs. 1,449 which, deducted from the total cost, Rs. 3,084-7-0, incurred on account of the Book depôt establishment, leaves Rs. 1,635-7-0 as the net cost to Government.

Public libraries.

241. There are now in the province seventeen libraries, thirteen of which are supported by subscriptions. The other four, besides being maintained by subscriptions, receive grants from local funds. The libraries at Amraoti, Akola, and Khamgaon are well spoken of, especially the one at Amraoti, which is held to be superior in every respect to the other institutions.

Literary societies.

242. The two literary societies known as the 'Vaktritwottejaka Sabha' and the "Teachers' Association" continue to grow more popular and interesting year after year.

SECTION III.

Arts and Sciences.

243. There is nothing to record under this head.

CHAPTER VIII.

ARCHÆOLOGY.

244. Classified lists of ancient monuments are being prepared, in order that the question of their maintenance and repair may be considered in the light of the recent orders of the Government of India.

CHAPTER IX.

MISCELLANEOUS.

SECTION I.

Ecclesiastical.

245. There is nothing worthy of note for record under this head. The Reverend M. Metcalfe continued to do the work of the Chaplain of Berar.

SECTION II.

Stationery.

246. As stated in previous reports, stationery for the use of the several departments of the Administration is obtained on indents from the Superintendent of Stationery at Bombay, and the cost of the same is adjusted in communication with the Account Department.

C.—CIVIL DIVISIONS.

The chief executive authority in the Hyderabad Assigned Districts is the Resident at Hyderabad. He is assisted by a Secretary, a Commissioner, a Judicial Commissioner, a Sanitary Commissioner and Inspector General of Dispensaries, an Inspector General of Police, Jails, Registration, and Stamps, a Director of Public Instruction, and a Conservator of Forests.

The following is a statement of area, population, revenue, &c., of the Commissionership, Deputy Commissionership, and Revenue Sub-Divisions of the Hyderabad Assigned Districts.

Name of Commissionership.	Name of Executive Districts.	No. of Judicial and Revenue Sub-divisions.	Area in square miles.	Population.	Chief towns with population.	No. of villages.	How many civil judgments?	How many criminal trials of all sorts.	Maximum distances in miles of villages from nearest court.	Average of do.	No. of police.	Total cost of officials and police of all kinds.	Revenue. Land.	Revenue. Gross.	Remarks.

B.—PUBLIC WORKS.

Statement showing the (Capital) income and expenditure on productive works in Hyderabad Assigned Districts for the year 1884-85.

Names of large works or class of minor works.	Whether resolved from Native Government or whether made by British Government.	Capital expenditure from Berar Revenue.	Receipts and expenditure during the year.					Remarks.
			Gross income.	Cost of establishment.	Cost of repairs and maintenance.	Charges for interest.	Net surplus or deficit.	
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Khamgaon State Railway	Wholly made by British Government.	4,90,810	46,830	*	*	19,636	*	
Amraoti State Railway		4,44,771	76,782	...	...	17,793	...	
		9,35,581	1,23,612	...	...	37,429	...	

* The gross working expenses for 1884-85 were Rs. 33,793 for the Khamgaon and Rs. 42,606 for the Amraoti State Railway; but these cannot be divided between cost of "Establishment and cost of Repairs and Maintenance," as the accounts furnished by the Great Indian Peninsula Railway Company do not afford this information.

C.—RAILWAYS.

Names of railways.	Mileage opened during the year.	Total miles opened.	Passengers during the year.				Receipts from passengers.	Receipts from merchandise	Receipts from railway materials, Electric telegraph and sundries.	Total receipts during 1884-85.	Maintenance and working expenses during 1884-85.	Net profits.	No. of European staff.	No. of Native staff.	Total capital expenditure.

Foot Note.—The items which appear to give the value in this table are more or less open to doubt, because whatever value may be placed on the goods by the owner or porter, subjecting them must be accepted as correct, for there are no means to weigh the goods or to open the bales—especially does this appear to be the case in the traffic registered at the two new posts at St Brieu and Mont Lach.

B.—DISPENSARY STATISTICS.

No. 3.-A.—*Showing the results of the Major Surgical Operations performed in the Dispensaries in the Hyderabad Assigned Districts for the year 1884.*

Nature of operation.	Remaining on the Dec. 31st.	Performed during the year.	Total.	Result. Cured.	Relieved.	Discharged without cure.	Died.	Remaining under treatment.
Operations on the Eye and its Appendages.								
Removal of tumours from the neighbourhood of the eye	—	1	1	1	—	—	—	—
Operation for cataract	—	1	1	1	—	—	—	—
Total	—	2	2	2	—	—	—	—
Operations on the Jaws.								
Reduction of dislocation of the jaw	—	24	24	23	1	—	—	—
Do. do. lower jaw	—	27	27	26	—	—	—	—
Do. do. upper jaw	—	6	6	2	—	4	—	—
Do. do. molar	1	14	15	15	—	—	—	—
Do. do. palate	—	1	1	1	—	—	—	—
Do. do. clavicle	—	1	1	1	—	—	—	—
Do. do. femur	—	2	2	2	—	—	—	—
Do. do. tibia	—	2	2	2	—	—	—	—
Do. do. humerus	—	1	1	1	—	—	—	—
Do. do. radius	—	2	2	2	—	—	—	—
Do. do. ulna	—	1	1	1	—	—	—	—
Total	1	80	80	76	1	4	—	—
Operations on Bones.								
Fracture of clavicle	1	22	23	21	—	—	—	1
Do. rib	—	11	11	10	—	1	—	—
Do. femur	1	20	21	19	—	1	1	1
Do. metacarpus	—	7	7	5	—	1	—	2
Do. ulna	—	10	10	9	—	1	—	—
Do. femur	—	7	7	7	—	—	—	—
Do. humerus	1	8	9	8	—	—	—	1
Do. radius	—	4	4	3	1	—	—	—
Do. ulna	—	1	1	—	—	1	—	—
Do. clavicle	2	15	17	16	1	—	—	—
Do. radius	1	8	9	8	1	—	—	1
Do. radius and ulna	—	1	1	1	—	—	—	—
Do. femur	—	1	1	1	—	—	—	—
Do. tibia	—	1	1	1	—	—	—	—
Do. dislocations, right and left	—	2	2	2	—	—	—	—
Do. elbow	—	1	1	1	—	—	—	—
Do. ulna	—	1	1	1	—	—	—	—
Do. clavicle	—	1	1	1	—	—	—	—
Do. bones not specified	—	4	4	4	—	—	—	—
Total	6	133	139	131	4	5	1	6

Nature of operation.	Remaining on the Dec. 31st.	Performed during the year.	Total.	Result. Cured.	Relieved.	Discharged without cure.	Died.	Remaining under treatment.
Amputations.								
Amputation of leg	1	2	3	1	—	2	—	—
Do. ankle joint	—	1	1	—	1	—	—	—
Do. finger	—	1	1	1	—	—	—	—
Do. arm	—	1	1	1	—	—	—	—
Do. left tumor	—	1	1	1	—	—	—	—
Do. 1st phalanges	—	1	1	1	—	—	—	—
Do. toe	—	1	1	1	—	—	—	—
Do. metacarpo phalangeal articulation	—	1	1	1	—	—	—	—
Total	1	10	11	6	—	1	2	—
Removal of Tumors.								
Fatty tumor	—	4	4	4	—	—	—	1
Fibrous do.	—	2	2	2	—	—	—	—
Cystic do.	—	3	3	3	—	—	—	—
Sebaceous do.	—	2	2	2	—	—	—	—
Cartilaginous tumors	—	1	1	1	—	—	—	—
Adenoid do.	—	3	3	3	—	—	—	—
Dermoid do.	—	1	1	1	—	—	—	—
Total	—	20	20	18	—	—	—	1
Removal of Calculi.								
By lithotomy	—	4	4	3	—	1	—	—
Incisions.								
Bat'ment of a leg of fowls	1	—	1	—	—	—	—	—
Removal of foetal residue	—	10	10	—	—	—	—	—
Abdominal section	—	—	—	—	—	—	—	—
Removal of dead foetus	—	—	—	—	—	—	—	—
Lateral operation	—	—	—	—	—	—	—	—
Removal of cancer of penis	—	—	—	—	—	—	—	—
Total	1	14	15	3	—	1	—	—
Operations not classified.								
Paracentesis of abdomen	—	1	1	1	—	—	—	—
Cheiroplasty	—	1	1	1	—	—	—	—
Total	—	2	2	2	—	—	—	—
Grand Total	1	59	60	48	1	3	2	1
